| TITLE | Oklahoma State Regents for Higher Education. Twentieth Biennial Report - Part I. Fiscal Year Ending June 30, 1979. |
| INSTITUTION | Oklahoma State Regents for Higher Education, Oklahoma City. |
| PUB DATE | 30 Jun 79 |
| NOTE | 192p. |
| EDRS PRICE | MF01/PC08 Plus Postage. |
| DESCRIPTORS | Annual Reports; Budgets; Capital Outlay (for Fixed Assets); College Administration; Degrees (Academic); Educational Finance; Enrollment; *Governing Boards; Government School Relationship; *Higher Education; Income; Operating Expenses; *State Boards of Education; *Statewide Planning; Student Financial Aid; Testing; Trustees |
| IDENTIFIERS | *Oklahoma |

ABSTRACT

The Oklahoma State Regents for Higher Education's biennial report is presented. The first chapter summarizes the progress and prospects of Oklahoma higher education both for historical documentation and to provide useful and informative data for the 1980 Oklahoma Legislature, the Governor, state systems institutions, and others in the state interested in higher education. Chapter Two, Historical and Statistical Information, offers information on such areas as enrollment, degrees, student aid, budget, funds, and the regents' resolutions and appropriation acts. A third chapter offers historical information concerning the Oklahoma State Regents for Higher Education, governing boards of state-controlled institutions, and a record of presidents of institutions. The index serves as a reference to such statistical areas as enrollment records, degrees granted, student fees, office expenditures, and current operating income and expenditures, 1978-79. (LC)

## LETTER OF TRANSMITTAL

TO THE HONORABLE GEORGE NIGH
Governor of the State of Oklahoma
Dear Governor Nigh:

The Oklahoma State Regents for Higher Education herewith submit the Twentieth Biennial Report—Part I in compliance with the Oklahoma Higher Education Code, Article II, Section 206.

This Twentieth Biennial Report—Part I covers the period from July 1, 1978 to June 30, 1979 pertaining to The Oklahoma State System of Higher Education.

Respectfully submitted,
BOB F. ALLEE, Chairman

ATTEST:
JAMES L. MILLS, Secretary
E. T. DUNLAP, Chancellor

1941

June 30, 1979
Oklahoma City
Oklahoma

This publication was prepared and distributed on authorization of the State Regents as a regular part of the work of the agency. There were 500 copies printed by Southwestern Stationery and Bank Supply at a cost of $4,780 ($9.56 per copy).

# CHAPTER I
# PROGRESS AND PLANS

# THE OKLAHOMA STATE SYSTEM OF HIGHER EDUCATION

## General Progress of the State System

**Chancellor E. T. Dunlap**

The purpose of this section is to summarize the progress and prospects of Oklahoma higher education both for historical documentation and to provide useful and informative data for the 1980 Oklahoma Legislature, the Governor, State System institutions and others interested in higher education in the state. The highlights of progress and statistics presented in this section are from the perspective of the state-level coordinating agency, the Oklahoma State Regents for Higher Education.

The Oklahoma State System of Higher Education, coordinated by the State Regents, engaged in a major long-range planning activity during 1978-79, preparing both institutional plans and state-level policy directions for the development of the State System through 1985. Institutional plans were developed on the basis of three planning assumptions regarding the 1980-85 period: a 20 percent growth in enrollments, a steady state, and a 20 percent decline in enrollments. Each plan takes into account educational programs, faculty development and operational budgets, as well as enrollment, in each of the three projected planning situations.

The state-level document will deal with broader policy issues such as educational standards, student fees, financial needs and faculty development, as they affect the State System as a whole. The ***Plan for the 1980's*** is scheduled for publication early in 1980.

The State Regents undertook a study of medical education in the state in 1979. The purpose of the study is to determine if the medical education programs operated within the State System are properly meeting the needs of the people throughout the state for the provision of adequate health care. The study was precipitated by concern throughout the nation regarding overproduction of physicians and by manpower projections in Oklahoma which indicate that the state's needs for physicians for 1985 have already been surpassed.

A study of the status of teacher education programs was also undertaken by the State Regents and a preliminary report issued in mid-1979. The report indicated a 25 percent decrease in the number of teacher education graduates during the past four years and pointed out several indices of the declining status of teaching as a career choice for college students. The purpose of the study is to determine if policy changes are needed at the state level regarding the numbers of teachers trained, admissions standards for teacher education programs and the like.

The State Regents continued to encourage institutions to improve the quality of their educational programs in 1978-79, and in making allocations for 1979-80 operational budgets, the Regents admonished institutional administrators and governing boards to give high priority to strengthening the quality of instruction and to deemphasize the use of teaching assistants; to give special attention to library development and to give emphasis to organized research in accordance with each institution's function and the State Regents' budget recommendations. Each institution was instructed to be prepared to report at the close of the year on the research programs accomplished.

The Regents revised their Policy on the Concurrent Enrollment of High School Seniors in College to allow exceptional students to enroll in summer term courses, up to a maximum of six semester credit hours, between their junior and senior years of high school without the necessity of being concurrently enrolled in a secondary summer program.

In another policy regarding enrollment, the State Regents set minimum language achievement standards for the admission to State System institutions of students for whom English is a second language.

A fourth seminar on Higher Education and Women was sponsored by the State Regents on April 19, 1979, with 210 participants attending, representing 32 campuses in Oklahoma higher education. The Regents also sponsored in April, 1979, a training seminar for financial aid officers from both public and private institutions in Oklahoma.

Other efforts aimed at improving the communication between and among the various segments of the higher education community included joint meetings of the State Regents with governing boards. The State Regents discussed mutual concerns with the Board of Regents of the University of Oklahoma, the Board of Regents for the Oklahoma Agricultural and Mechanical Colleges and the Board of Regents of Oklahoma Colleges at these meetings.

*Student Enrollments.* The number of students enrolling in Oklahoma higher education, both public and private, in the Fall Semester of 1979 was 157,290, which was an increase of 4,234 students (2.8%) over the 153,056 enrolled in the Fall Semester of the previous year. Of these, 134,406 were enrolled in state-supported colleges and universities, an increase of 3.1% over the 130,346 enrolled in these institutions in the Fall Semester of the previous year. Thus about 85.5% of all students enrolled in Oklahoma higher education in 1979-80 were in state-supported institutions, and 14.5% of the students were in private institutions of higher education. In all Oklahoma higher education, both public and private, enrollments increased by 52.7% in the last decade, increasing from 102,987 in 1969 to 157,290 in 1979. In state-supported institutions, enrollments increased 60.1% in the past ten years, going from 83,929 in 1969 to 134,406 in 1979.

Approximately 84.3% of Oklahoma's high school graduates in the spring of 1979 started to college in the fall of 1979. This college-going rate places Oklahoma near the top of the 50 states.

Of the 130,346 students enrolled in the State System institutions in the fall of 1978, 90.0% were residents of Oklahoma, and 10.0% were from other states and foreign countries.

*Accreditation of Institutions.* All 43 colleges and universities operating in the State of Oklahoma last year were accredited by the Oklahoma State Regents for Higher Education. All institutions of the State System and eleven private colleges and universities are also accredited by the North Central Association of Colleges and Schools, the regional accrediting agency. Oklahoma ranks among the leading states of the nation in the percent of its college students attending regional accredited colleges and universities. Students attending institutions so accredited are eligible for transfer to colleges and universities anywhere in the nation where their credits are accepted at face value.

*New Educational Programs.* During the past fiscal year, several new educational programs were authorized at colleges and universities in the State System. Bachelor's degree programs were authorized as follows: University of Oklahoma — Education-Professional Studies, Cytotechnology Option-in Clinical Laboratory Services; Central State University — Home Economics-Fashion Merchandising Option, Industrial Safety; East Central Oklahoma State University — Cartography; Langston University — Agriculture with Urban Emphasis, General Education, Nursing, Pre-professional Sciences, Secretarial Administration; Oklahoma Panhandle State University — Library Science Education. Master's degree programs were authorized as follows: Central State University — Industrial and Applied Physics; Northeastern Oklahoma State University — Criminal Justice, Tribal Management. Associate degree programs were authorized as follows: Claremore Junior College — Accounting, Agribusiness, Computer Science, Drafting Technology, Native American Studies; Connors State College — Agri-equine Technology; El Reno Junior College — Banking and Finance; Murray State College — Gunsmithing; Oscar Rose Junior College — Fashion Merchandising, Public Administration; Seminole Junior College — Medical Lab Technology; South Oklahoma City Junior College — Automotive Technology, Insurance Management, Medical Records Technology; Tulsa Junior College — Apprenticeship, Climate Control, Computer Operations Management, Credit Management, Executive Housekeeping, Interpreter Training, Photography, Recreational Leadership, Travel and Tourism; Western Oklahoma State College — Graphic Arts.

*Student Aid.* The Guaranteed Student Loan Program, which became operational in 1966, has guaranteed about 61,606 loans in excess of $57,825,000. This program involves a unique partnership of State and Federal Government with private lending institutions to provide low-cost loans to students. The Guaranteed Student Loan Program has become an integral part of the Financial Aids package for Oklahoma students desiring to further their education. The 1972 Oklahoma Legislature enacted Senate Bill No. 618 providing for the Oklahoma Student Loan Program. The purpose of this program is to provide loans to students as may be needed to help pay the cost of their education. The program supplements the Guaranteed Student Loan Program and provides a lending source to eligible students who are not otherwise able to identify a lender. There have been 16,006 loans, representing an investment of $14,301,272, made to students of higher education since beginning of operation of this program. The Oklahoma State Regents for Higher Education serves as fiscal agent for the administration of the Oklahoma Student Loan Program.

The Tuition Aid Grant/State Student Incentive Grant Program became operational in 1974. Funding of this program on a matching basis with State and Federal funds makes possible the implementation of an important addition to the already extensive program of student assistance administered by the Oklahoma State Regents for Higher Education. During the 1978-79 academic year, awards totaling $1,846,148 were made to 7,872 students.

*Civil Rights Compliance Activities.* Operating under provisionally approved *Revised State Plan for Civil Rights Compliance,* the State Regents made an Annual Report on programs in the area of civil rights. This report indicated a significant increase in the participation of minorities in higher education in Oklahoma; although in certain areas much work remained to accomplish desegregation.

Among the general areas discussed in the report were admissions and recruitment. Affirmative action training programs for management personnel of institutions of higher education and for high school counselors were continued. Articulation between junior colleges and senior institutions was reported, as was the program providing for free ACT examinations to indigent minority students. Overall recruitment procedures and results were reported, as well as the minority assistance programs for master's and doctoral students.

On September 5, 1977, the State Regents submitted to the Office for Civil Rights a *Revised State Plan for Civil Rights Compliance* constructed according to new criteria set forth by the Office for Civil Rights for such state plans under the *Adams* case. A month later, the State Regents submitted *Programs and Procedures for Implementing the Revised State Plan,* indicating the activities that would be put in place to assure that the Revised State Plan goals and timetables were accomplished. In response to requests for changes in the Revised State Plan, the State Regents subsequently submitted two supplements to the plan.

In addition the document *Toward A New Mission for Langston University* was filed with the Office for Civil Rights in September 1978. These 5 documents comprised the total *Revised State Plan for Civil Rights Compliance*. In October 1978 the Revised State Plan was unconditionally approved by the Office for Civil Rights.

In June, 1979 the State Regents submitted for the second year to the Office for Civil Rights Affirmative Action Compliance Plans from each individual institution in the State System. These plans, which total some 1,500 pages, represent institutions' commitment to goals of participation for black employees within the State System of Higher Education and were submitted with the endorsement and commitment of the Presidents of the institutions and governing boards.

For the fourth time, comprehensive reports by race and sex were made to the Office for Civil Rights on the number and classification of institutional employees, student enrollment, student progression, and student financial aid. This report was constructed by means of the State Regents' Unitized Data System.

*Health Careers Opportunity Program*. As part of the effort to increase the participation of minorities in the health professions within The Oklahoma State System of Higher Education, the State Regents received from the U. S. Public Health Service a Special Health Careers Opportunity Grant in the fall of 1977. This grant was used to fund the Health Careers Opportunity Program, which is operated as an integral part of the *Revised State Plan for Civil Rights Compliance*. The Health Careers Opportunity Program engaged in intensive recruitment at the high school level and on college campuses throughout the state. This program was a Summer Enrichment Institute in which 22 students received intensive training and preparation for admission to health professional schools in the state. Also, during 19778-79, this program sponsored high school workshops over the state, a chemistry research project and a cooperative education project. The HCOP program has been funded for a three-year period. and continuation of the program for the next fiscal year has been assured by the Public Health Service.

*Ardmore Project*. The Ardmore Higher Education Program had its beginning in the summer of 1974 with classes on the Ardmore High School Campus. In August, 1974, the program was moved to its own facilities at the Mount Washington School north of Ardmore. This facility is being provided at no cost to the state by the Ardmore community. The facility which houses the Ardmore program has been completely refurbished and is comprised of seven classrooms, a student lounge, a large multipurpose library-classroom, an administrative office, and two eight-person talkback television rooms. The beginning semester in the summer of 1974, 153 students enrolled in 11 courses; in the 1974 fall semester 305 students enrolled in 24 courses; in the

1975 fall semester 410 students enrolled in 27 courses; in the 1976 fall semester 530 students enrolled in 32 courses; in the 1977 fall semester 765 students enrolled in 54 courses; and in the 1978 fall semester 1,293 students enrolled in 60 courses.

*McCurtain County Project.* The McCurtain County Higher Education Program, currently located at 107 East Main Street in Idabel, had its beginning in the fall of 1976. The people of McCurtain County in 1978 voted to build a new higher education facility through a bond issue to be paid back from a county-wide tax levy, and the new facility should be completed by the beginning of the 1980 summer session. In the beginning semester in the fall of 1976, 268 students enrolled in 20 classes. In the fall semester of 1977, 370 students enrolled in 31 classes. Six hundred thirty students enrolled in 36 courses in the fall of 1978.

*Technical-Occupational Programs.* In 1974-75 the State Regents adopted a policy statement of "Criteria and Procedures for the Evaluation of Technical-Occupational Programs at Institutions in The State System of Higher Education." The criteria and procedures set forth in the policy statement were designed to assess the adequacy and quality of existing programs. Under the policy, at least 20 percent of the technical programs at State System institutions are evaluated each year. The United States Commissioner of Education recognizes the State Regents as the official Oklahoma State agency for approval and accreditation of post-secondary institutions offering programs of vocational-occupational education.

During 1978, technical programs were evaluated at Murray State College, Tishomingo, Oklahoma; Western Oklahoma State College, Altus, Oklahoma; and Tulsa Junior College, Tulsa, Oklahoma.

An inventory of educational programs conducted in July, 1979 reveals that there are currently 416 technical-occupational programs being offered at 26 state institutions with a projected full-time-equivalent enrollment of 18,109 students.

*Studies for Planning.* The State Regents regularly gather and publish data in such areas as student enrollments, degrees conferred, institutional income and expenditures, faculty salaries, student fees and other student charges and the like. In addition to these ongoing reports, the State Regents carry out mid-range and long-range higher education planning at the state level, and provide leadership to stimulate institutions to do similar planning at the campus level. In 1977-78, the State Regents adopted procedures and guidelines leading toward the developing of a state higher education plan for the first half of the 1980's.

In November of 1979 each public institution will submit to the State Regents a comprehensive higher education plan covering the areas of student enrollments, faculty, educational programs, and operating budgets for the 1980-85 period. In February 1980, the State Regents will publish a planning report containing enrollment projections, faculty development plans, projections of education programs, and budget needs of State System institutions for the 1980-85 period.

*Degrees Conferred.* In the year 1978-79, 10,826 Bachelor's and First Professional degrees were conferred by Oklahoma institutions of higher education, which was an increase of 15.4% over the 9,381 degrees conferred in 1968-69. In the past year, there were 3,092 Master's degrees conferred by institutions, which is a 23.3% increase over the 2,507 Master's degrees conferred 10 years ago. There were 395 Doctor's degrees conferred by Oklahoma universities in 1978-79, which is a 00.0% increase over the 394 Doctorates conferred a decade ago.

*Televised Instruction System.* The Oklahoma Higher Education Televised Instruction System (more commonly known as Talkback Television) completed expansion in 1979 to the Joseph Harp Correctional Facility at Lexington, Northeastern Oklahoma A&M in Miami, Southeastern Oklahoma State University in Durant, Southwestern Oklahoma State University in Weatherford, and began expansion to the McCurtain County Higher Education Center in Idabel. Enrollments in Talkback Television reached record levels in calendar year 1979 with enrollments received at some sixty locations. Sequential course offerings, special degree programs and special service courses continued to develop.

*Title I (HEA) Community Service and Continuing Education Program.* On September 16, 1972, the Oklahoma State Regents for Higher Education accepted the responsibility as the State Agency for Title I (HEA). This program enables the U. S. Commissioner of Education to make grants to states to strengthen the Community Service and Continuing Education Programs of colleges and universities. Title I (HEA) is administered as a state operation under a state plan which identifies certain priority areas in which the institutions concentrate their project activities. During Fiscal 1978, citizens were served by eleven Title I Projects. Participants were served in each of the priority areas identified for the State of Oklahoma. For Fiscal Year 1979, there are seven primary institutions of higher education in Oklahoma involved in nine projects in Title I.

*Number of Faculty.* The total faculty of all Oklahoma higher education in 1978-79 was approximately 7,378 individuals. Of this number, 4,520 were full-time regular faculty members, and 2,974 were part-time teachers. Of the full-time faculty, 3,675 were in the state-supported colleges and universities, and 845 were in private institutions. Of the 2,858 part-time teachers, 2,624 of these were in State System colleges and universities, and 234 were in the private institutions.

*Faculty Salaries.* The average salary paid all regular full-time teachers in The Oklahoma State System institutions in 1978-79 was $18,054 for the 9-10 month academic year. The figure represents a 31.1% increase over the $13,768 average salary paid five years ago. The average salary at the universities was $19,900 which is an increase of 26.2% over the $15,770 of five years ago; the average salary at the four-year colleges was $18,117 which is a 37.2% increase over the $13,203 average of five years ago; and the average salary at two-year colleges was $15,085 which is an increase of 37.8% over the $10,950 average of five years ago.

*Current Operating Expenditures.* There was a total of $441,976,858 expended for current operations in The Oklahoma State System of Higher Education in the Fiscal Year 1978-79. Of this amount, $263,926,386 was expended for the Educational and General-Part I Operating Budget; $47,208,114 was expended for the Educational and General-Part II Operating Budget (Sponsored Research and Programs); $24,973,229 was expended for Student Aid; and $105,869,129 was expended for Auxiliary Enterprises (housing, food services, student unions etc.). Of the total current budget 59.7% was expended for the regular educational and general operating budget, and 40.3% was expended for Sponsored Research and Programs, Student Aid and Auxiliary Enterprises.

*Capital Improvements Program.* Colleges and universities in the State System have been engaged in a capital improvements program which had been planned for accomplishment during the period 1965 to 1975. Phase I, 1965 to 1970, was accomplished at a cost of $63,508,695 with $38,500,000 of the funding coming from state funds, and $29,008,695 from federal and private funds.

In 1968, the people authorized a bond issue to provide the states part of the funding for Phase II of the Capital Improvements Program. The bond issue contained $34,250,000 for regular campus improvements and $26,870,000 for improvements at the University of Oklahoma Health Sciences Center. This Phase II Program was delayed by the Federal Government's curtailing federal funding to match state monies to underwrite projects. Although funds for health-related projects were delayed, federal funds were finally made available for construction at the Health Sciences Center. Only a small portion of federal funds was made available for regular campus projects.

In the spring of 1973, the Oklahoma Legislature in its adoption of Senate Concurrent Resolution No. 8 authorized the State Regents to proceed with allocation of state funds to accomplish as much of the capital improvements which had been planned for colleges and universities as could be done with state funds. Federal funds had not been made available, and it became necessary that the Regents and institutions move forward with making certain improvements at the campuses.

The Resolution also expressed intent of the Legislature that the State Regents in revising Campus Master Plans of projects to be accomplished give priority to the modernization and repair and provide modernized equipment for good, old buildings on the campuses.

The State Regents adopted a set of guidelines and procedures for carrying out legislative intent expressed in SCR No. 8 and requested that each institution file a revised Campus Master Plan of projects to be accomplished with the limited amount of state funds available to underwrite the costs. These campus plans subsequently were revised and priorities established and were submitted for the approval of the State Regents. Upon approval, the Regents authorized allocation of funds for accomplishing projects in priority order, the extent to which funds were available.

There had been a total of 336 projects approved for accomplishment in the revised Campus Master Plans of all institutions; but, as indicated, funds were not available for funding all of the projects.

Additional funding will need to be provided by the Oklahoma Legislature to complete the projects planned for accomplishment in Phase II of the ten-year Capital Improvements Program.

# INSTITUTIONAL REPORTS

A brief summary of the services, achievements, problems and progress at each institution and agency of The Oklahoma State System of Higher Education for the year ending June 30, 1979, as reported by the Presidents, is presented on the following pages. Also reports from Sayre Junior College and private institutions are included.

Statistical information regarding the operation of institutions will be found in Chapter II of this report.

## THE UNIVERSITY OF OKLAHOMA

PRESIDENT WILLIAM S. BANOWSKY

**Norman, Oklahoma**

For the University of Oklahoma, Fiscal Year 1978-79 was a year of growth, both academically and physically.

William S. Banowsky was appointed the University's 10th president at a special meeting of the Board of Regents on August 14, 1978, and took office officially on September 15. In order to become acquainted with the state and its citizens and to take the concerns and interests of the University to the people, Banowsky visited scores of communities and almost all counties during his first year. The interlocking O and U logo was reinstated to "represent the crucial relationship between the University and the people."

The administrative structure of the University was streamlined, with two vice presidential positions eliminated and the number of administrative positions reporting directly to the president reduced. Virtually everyone on both campuses answers to one of four administrators, the two provosts (the Health Sciences Center or Norman campus academic officers) or the vice presidents for university affairs and administrative affairs. Each of the university's missions — teaching; research; and continuing education and public service — now receives special guidance at the vice provost level.

More than a dozen key administrative positions were filled, including the permanent appointments of Dr. J. R. Morris as Norman campus provost; Dr. Gerald Turner as executive assistant to the president; Stanley Ward as chief legal counsel; and Dr. James Burwell as dean of the College of Arts and Sciences.

Another organizational change placed the OU Athletic Department under the President's direct supervision.

After two previous years of decline, the Fall 1978 enrollment on the Norman campus increased by 638 students, bringing the total Norman campus enrollment to 20,357. Enrollment again increased in Fall 1979, bringing the Norman enrollment to more than 21,000 students.

During the spring, the University of Oklahoma Associates, a private support group to benefit academics was formed and a major membership drive begun. Before the June 14 founding dinner, 791 citizens of Oklahoma and other states had become members, and each provides a $1,000 contribution annually. At the dinner, Banowsky announced a membership goal of 1,500 by March 1980. Among the early expenditures from the Associates' funds was $75,000 to provide more instructors for the Department of English, thus reducing the number of graduate assistants teaching required courses. Funds also were used to recognize outstanding faculty members.

Success academically was demonstrated when national accrediting teams visited the College of Medicine, College of Environmental Design, and School of Music, and voted all three as excellent. Also, the School of Library Science was re-accredited, making it the only fully accredited school of library science in the state.

The overall private fund-raising program at the University was more successful during Fiscal Year 1978-79 than in any other in OU's history. The total committed at the end of the fiscal year was $10,600,000, including $2 million for the Huston Huffman Center, a physical fitness and education center, and gifts to complete the $750,000 Chair in Banking.

Plans were begun during the fiscal year to begin construction on four projects for the Norman campus: the Huston Huffman Center; an addition to Bizzell Memorial Library; the South End Zone Project for Oklahoma Memorial Stadium; and a baseball park. Combined, more than $30 million for construction was approved during Fiscal Year 1978-79, but much of the money will come from private sources.

An increase of 20 percent was recorded for grants and contracts received by the Norman campus for research and training over Fiscal Year 1977-78. New business for the Norman campus totaled $14,081,372, up from $11,707,643 the previous year. This combines with approximately $11.3 million in grants and contracts awarded to the Health Sciences Center in Fiscal Year 1978-79 to bring the University's overall total to more than $25 million.

The State Regents' Scholar-Leadership Enrichment Program, administered by the University, brought to campus eight scholars under the general theme of "The Future of Humanity in an Age of Uncertainty." The statewide program involved approximately 250 students from 13 colleges and universities throughout Oklahoma. In addition, 32 students earned credit through SLEP's talk-back television course.

## UNIVERSITY OF OKLAHOMA HEALTH SCIENCES CENTER

### Oklahoma City, Oklahoma

The activities of the Health Sciences Center continue to expand as enrollment increases, programs are added, and new facilities are completed.

The Health Sciences Center (HSC) is the state's primary educational institution for training physicians, dentists, nurses, pharmacists, public health specialists, and a spectrum of allied health professionals.

Besides its educational programs for more than 3,000 students, the HSC is the site of major research programs in such areas as cancer, heart and lung disease, bloodclotting, fetal malnutrition, high blood pressure, and alcohol abuse.

More than 40 degree programs, research projects, and patient-care clinics are offered through the HSC's six colleges — Medicine, Dentistry, Nursing, Graduate, Health, and Pharmacy.

There are approximately 570 full-time faculty members and 85 part-time faculty members at the HSC and its Tulsa Medical College clinical branch. In addition, more than 1,200 statewide clinical faculty members provide volunteer services.

The HSC also has approximately 1,200 full-time and 100 part-time nonacademic employees holding administrative, professional, clerical, technical, service, and trade positions.

There are some 100 medically related research projects in progress at the Oklahoma City campus of the Health Sciences Center. The following are only a small sampling of these projects.

A research group, headed by Dr. Fletcher Taylor, is doing research on bloodclotting disorders. It is a coordinated effort involving the VA Medical Center, University, Presbyterian and Children's Hospitals and the Oklahoma Medical Research Foundation. Each facility has its own laboratory for conducting the tests, but the results are analyzed only in the core lab at University Hospital.

Dr. Taylor's research group is studying ways to improve bloodclot testing and a treatment that would safely dissolve clots within hours rather than days or weeks.

Two researchers in the Department of Pediatrics have a federally funded project to search for the biochemical basis of cystic fibrosis, a deadly congenital disease affecting the lungs and digestive system.

The College of Pharmacy's Nuclear Pharmacy Program is conducting research to develop new or improved radiopharmaceuticals. Staff members hope to develop effective radiopharmaceuticals for the adrenal gland, prostate gland, pancreas, heart infarct imaging, and ultimately tumor imaging.

Periodontal disease is the main cause of tooth loss in American adults. A team of College of Dentistry researchers is attempting to find the best way to prevent periodontal disease.

A professor of biostatistics and epidemiology in the College of Health has been a key figure in an international study of diabetes and its complications. This research began in 1963 and still is progressing. Dr. Kelly M. West was a coordinator of one phase of the study that involved 14 nationalities in 13 states.

The new HSC Library Building was dedicated recently and is now serving the resource needs of students and faculty engaged in more than 20 health careers. As the state's primary depository for health related books, periodicals, and audiovisual materials, the newly completed $6.3 million, 90,000 sq. ft. Library Building supports all instructional programs at the HSC by meeting or exceeding accrediting agency standards for library accommodations. The facility includes a 600-student seating-capacity study area and will eventually contain some 230,000 volumes. Unique to its design is the availability of a centralized learning resources laboratory for producing audio and video tapes, film, color slides, and other instructional and informational materials.

The new 1,100-car HSC parking garage recently began serving the parking needs of the approximately 16,000 people who visit or work on the Oklahoma City campus. The parking facility will include a new Faculty Club, cafeteria, shopping areas, and other personal service facilities for HSC's employees, students, patients, and visitors.

For the first time in state history, Oklahoma did not have to send its medical school graduates outside the state for residency training. Dr. Thomas Lynn, dean of the College of Medicine, cites this as evidence that state taxpayers are now receiving greater benefits from monies spent on medical education. Statistics show that 70 percent of resident physicians establish practice within 80 miles of where they train.

Family practice residency programs are in operation in Enid, Shawnee, and Bartlesville, and others are proposed for Lawton and McAlester.

## OKLAHOMA GEOLOGICAL SURVEY
### Norman, Oklahoma

Increasing demands for mineral resources, particularly energy resources, have made it imperative to expand the research programs of the Oklahoma Geological Survey, and investigations in petroleum and natural gas, coal, and uranium have all been stepped up. Coupled with this is the obvious necessity to provide information essential to the protection of the environment, and therefore projects in environmental geology also have intensified. Basic scientific research is intrinsic to all programs, and this has been in constant progress, with much of the information obtained also being applicable to economic and environmental considerations.

The expansion of programs has required hiring additional personnel, resulting in increasing demands being placed on available office and work space. But even though the space problem at OGS is now reaching the critical stage, accommodations have been made, and programs have been uninterrupted.

Projects in petroleum research proceeded as follows: A three-year study of the viscous oils ("heavy oils") in northeastern Oklahoma was completed, and a similar assessment for south-central Oklahoma is under way. An enhanced-oil-recovery (EOR) evaluation of unrecovered petroleum resources was completed, and a new contract was consummated for assessments of micellar-polymer operations for EOR in Oklahoma. Two paleotemperature studies, one using carbonized fossil fragments, and the other on the Woodford Shale in the Anadarko Basin, were in progress; these will yield data of value in petroleum exploration. An intensive study was completed on the Hunton Group rocks of the Arkoma Basin, a major petroleum province. A study of kerogens, fossilized organic material that can be distilled into petroleum products, is in progress. Annual statistical reports have been issued. Collections of records and materials were augmented and are available for use at the OGS Core and Sample Library and on the OGS microfilm reader-printer, which carries a complete set of driller's logs, electric logs, abandonment reports, and scout tickets.

In coal investigations: A data-accumulation project for the Hartshorne coals in Haskell and LeFlore Counties was completed, as was mapping of coal beds in Craig and Nowata Counties. Other maps showing underground mines and strippable coal resources were compiled. A mined-lands inventory of all surface mines, including coal, was in progress. Data was being assembled on Oklahoma mining for entry into a national mineral-industry data bank. A program of analysis of Oklahoma coals was in progress, and a study of the hydrology of the eastern Oklahoma coal field also continued.

In uranium: A program to evaluate uranium resources for the 1° x 2° Clinton and Enid quadrangles was in its second year, and two new minerals geologists were hired to assist. A water-sampling project for analysis of uranium content for five Oklahoma quadrangles was completed. A uranium map showing locations of 400 reported occurrences was prepared for use as background reference for investigations.

Seismic programs include compilation of an earthquake map, which shows the location of 182 Oklahoma earthquakes that occurred from 1900-1978. A 5-year project to investigate seismicity and the tectonic framework along the buried, blockfaulted Nemaha Ridge was in its third year, and an interim report was issued. These seismic studies were carried out through the facilities of the Oklahoma Geophysical Observatory, formerly the OU Earth Sciences Observatory, which has become part of the OGS research program.

In environmental geology: A geologic study of rock units suitable for surface and subsurface disposal of industrial wastes was completed. Preparation of a hydrologic atlas for the Enid quadrangle and a circular on hydrology of the Antlers aquifer was carried forward, as was a report on the source of chlorides in the Arkansas River. Requests have been filled for environmental reviews for building projects, bridge replacement, locating sand and gravel operations, surface and subsurface waste disposal, and resources of water, sand gravel, and silica. The seismic programs, the mined-lands inventory and a related bibliography, the coal-field hydrologic study, the coal and water analyses, and other projects are all environment-related as well.

The Survey published three bulletins, a circular, a guidebook, a 75-page comprehensive list of OGS publications, the earthquake map, 260 pages of a bimonthly periodical, a list of available publications, and some open-file reports. Two of the bulletins were county reports which contained geologic maps. A guidebook was revised and reissued, and 11 publications were reprinted. Numerous other publications were in various stages of processing by the editorial and cartographic staffs.

State appropriations were supplemented during the fiscal year by grant funds having a combined amount of $666,211.66. These funds were received through contracts with the U.S. Geological Survey, U.S. Department of Energy, American Chemical Society, U.S. Bureau of Mines, U.S. Nuclear Regulatory Commission, Oklahoma Conservation Commission, Oklahoma Department of Economic and Community Affairs, and Oklahoma Department of Mines.

## UNIVERSITY OF OKLAHOMA LAW CENTER

Norman, Oklahoma

During the 1979-80 academic year, the OU Law Center will devote a large amount of time and effort to two important projects. Dean James E. Westbrook has announced his resignation effective in August, 1980, and the search for his successor will occupy much of the year. The College of Law will be visited in March 1980 by a reaccreditation team from the American Bar Association, an event that occurs every seven years for all accredited law schools. The self-study that is required of all schools up for reaccreditation will require many hours of work and will involve faculty, students and alumni.

The College's entering class of 1979 is composed of 216 students selected from approximately 700 applications. The class includes 67 women, 11 minority students and 30 nonresidents. As in past years, their classroom instruction will be supplemented by exposure to noted scholars, practitioners and public servants who take part in the College's Enrichment Program. Subjects explored during 1978-79 included the role and responsibility of federal judges, a young lawyer's first day in federal court, the German legal system, employment discrimination based on sex, the Equal Rights Amendment, and free press/free speech. Dr. Ada Lois Sipuel Fisher, the first black student enrolled in the College of Law (and in the University), was honored at an all day program held in February.

The College of Law faculty was active in all phases of service and scholarly writing in 1978-79. Professor Frank Elkouri was honored by the University when he was selected as a George Lynn Cross Research Professor. Other faculty members have served as chair of the University Faculty Senate, coordinated a visit by Japanese attorneys to the U.S., served as principal draftsmen of the new Oklahoma Evidence Code, written treatises and law review articles, updated legal reference works, served on reaccreditation committees visiting other law schools, lectured throughout Oklahoma and the U.S. on various legal topics, and coached the College Appellate Advocacy teams — one of which was a regional winner and participated in the national finals held during the American Bar Association's Annual Meeting, where the team finished second in the written phase of the competition.

The Continuing Legal Education program sponsored 17 institutes, seminars and workshops for lawyers during 1978-79, with a total attendance of 942. Its Practical Skills Courses were attended by 382 law students.

The Law Center's Oklahoma Center for Criminal Justice was instrumental in establishing an Appellate Public Defender Program for Oklahoma. Funded primarily by a grant from the Law Enforcement Assistance Administration, the Appellate Public Defender Office will handle appeals for indigent prisoners. Professor R. E. L. Richardson, director of the Center for Criminal Justice, obtained the grant and will serve as project director.

Assistant Professor Ted Roberts, director of Clinical Legal Education, was responsible for obtaining a grant of $37[illegible]00 from the Department of Health, Education and Welfare for expansion of the Law Center's legal aid program.

## OKLAHOMA STATE UNIVERSITY

PRESIDENT L. L. BOGER
Stillwater, Oklahoma

". . . Oklahoma State University appears to us to be in a new and vigorous phase of its academic development, with confidence that the leadership of the university — OSU Regents, the university administration, faculty, and students — will realize the potential of which the university is clearly capable."

That is a quote from a report made by a follow-up visitation team from the North Central Association of Colleges and Schools, OSU's accrediting agency.

Scientific productivity increased by almost 10 percent during the past year, with nearly $21 million in individual projects ongoing and directed primarily to improving the quality of life for Oklahomans.

At its national convention in Houston, the American Association of University Professors removed OSU from its list of censured institutions.

Achievements continued to attract national recognition to the university. A few examples:

Three faculty were awarded 1979 National University Extension Association Awards, OSU food services were named tops in the nation, the residence halls system received a unique honor — a one-time award citing it as the outstanding residence halls system in the nation for the past 25 years, the OSU Flying Aggies won the national title at the National Intercollegiate Flight Association air meet for the 15th time, OSU had the top woman pilot in the nation at that meet, the American Animal Hospital Association granted its first charter for a student chapter (expected to be a prototype) and an architecture student won the most prestigious architecture award, the Paris Prize.

Numbers of women students continued steady growth, registering 41 percent of the total enrollment in the fall of 1978, compared with 25 percent in the fall of 1958. The Stillwater campus enrollment for the 1978 fall semester was 22,276, including 13,057 men and 9,219 women.

Capital improvement projects in the planning stage include an animal sciences building, child development lab, athletic facilities improvements and USDA plant science facility. Those under way include veterinary medicine teaching hospital, Student Union renovation and Classroom Building remodeling.

A study of all A&P (administrative and professional) personnel, 575 positions, was initiated during the year, with five subcommittees evaluating position questionnaires.

A group of department heads volunteered to conduct a study on paper flow — red tape — within the university. Many of these recommendations will be implemented within the coming year.

OSU received a strengthening grant from the Agency for International Development of $100,000 a year for the next five years, matched by university funds, a total of a million dollars.

In fiscal 1978, OSU served more than 90,000 persons in 69 of the state's counties with General Extension services not related to Cooperative Extension. About 5,700 students enrolled in credit courses off campus. More than 11,000 Oklahomans participated in 269 workshops, conferences and seminars. More than 70,000 were served through several OSU centers dealing with non-agricultural public service.

Last year OSU had winning seasons in baseball, wrestling, tennis and golf, crowning Big 8 champions in the latter two.

## COLLEGE OF VETERINARY MEDICINE

**Stillwater, Oklahoma**

Construction of the new Veterinary Teaching Hospital commenced in September, 1978. Structural floors, walls, and ceilings were in place as the 1978-79 fiscal year ended.

During the past session of the Oklahoma Legislature, special funds were authorized for capital improvements throughout the state system of official agencies. Of the $23 million allocated to the State Regents for Higher Education, $1,429,784 were committed to the College of Veterinary Medicine to spend in the Teaching Hospital as follows:

1. Completion of construction: $673,957
2. Completion of case work: $149,385
3. Purchase of movable equipment: $606,442

In August of this year, a team from the American Veterinary Medical Association Council on Education visited the College on an interim site visit. A favorable report on recent progress towards full accreditation is expected.

In spite of stiff competition for qualified faculty from newly established veterinary medical colleges, the College obtained ten new faculty members. The number of faculty members with the rank of instructor or above is now 63.

The College faculty is well represented on steering committees of national professional organizations. Two serve in the capacity of president, two as secretary-treasurers, two as editors of national journals, and two on national boards of directors. Three faculty members represented the College at the XXI World Veterinary Congress in Moscow, U.S.S.R.

Laboratory Animal Resources, a centralized coordinating unit serving the College of Veterinary Medicine and the main campus of Oklahoma State University, was established in January 1979. The director is responsible for developing an educational program in laboratory animal medicine. He also coordinates all animal care activities except animals brought to the College of Veterinary Medicine as patients.

The Oklahoma Animal Disease Diagnostic Laboratory, a unit of the OSU College of Veterinary Medicine, has been granted full accreditation by the American Association of Veterinary Laboratory Diagnosticians.

The students continued to exhibit leadership and academic excellence. Steve Hunholz, fourth-year student, completed his term as president of the 6,000-member Student American Veterinary Medical Association, the official student organization of the twenty-four veterinary medical colleges in the United States and Canada. Mary Gaughan, third-year student, was selected secretary of that association during its convention in Seattle, Washington.

The 1979 graduating class continued the consistently high scores of previous classes in the national board examination in May. Their average score was above the national average.

Sixty-nine students were admitted to the graduating class of 1983. The class includes 26 women, the largest number ever in an entering class. Total enrollment for the College for 1979-80 is 259, with 72 women and 15 minority students.

## THE AGRICULTURAL EXPERIMENT STATION
### Stillwater, Oklahoma

Through the years, since 1890, the Oklahoma Agricultural Experiment Station has become an integral and necessary part of the state's crop and livestock production scheme.

The diversity of the state alone, with its ever-changing climate, soil conditions and topography, is enough to account for the 16 outlying experiment stations operating under the main station located at Stillwater.

To help experiment station scientists pinpoint research priorities that will most expediently meet the needs of such a diverse agriculture, Oklahoma employs a unique "grassroots" network for planning research undertakings.

Counsel and guidance emanate through a system of advisory committees from every county, through district organizations and to the OSU campus. This guidance plays an important part in determining station direction.

Some 250 research projects are under way at the OAES at any given time, ranging from small scale experiments seeking solutions to immediate problems involving basic studies which hopefully will provide scientific breakthroughs in the future.

The combination of an active experiment station and a supportive citizenry has resulted in many benefits to farmers and consumers alike.

For instance, experiment station scientists working in entomology, veterinary medicine and animal science recently developed a large pill that can not only cure anaplasmosis in an infected animal, but can also cure the carrier state of the disease. The same pill holds promise of controlling ticks and flies by slowly releasing a daily dosage of systemic chemical.

OAES weed scientists have just isolated and obtained a label clearance for a chemical that will control cheat in TAM 101 wheat. Cheat losses to the 1978-79 wheat crop have been conservatively set at $60 to $80 million for Oklahoma alone. The cost of the OAES research effort to date is about $200,000 — and that includes research on other weeds such as wild oats, mustards and so on.

Another major undertaking already bearing fruit is a research project combatting shipping fever. Shipping fever costs U.S. cattlemen as much as $3 billion annually, so it should be obvious that finding ways to reduce its effects will benefit everyone, consumer and producer alike.

Most station scientists multiply their usefulness to Oklahoma taxpayers by doubling as teachers at OSU. They spend a lot of time in conferences, seminars and conducting short courses for farmers and ranchers in the state. An important facet of their work is assisting in updating programs for state area extension specialists and county extension personnel.

So it is obvious that the OAES isn't just a place. In the broadest sense, it's part of a nationwide network of research stations. But to Oklahoma farmers and ranchers, it's a helping hand within easy driving distance from nearly any location in the state.

## AGRICULTURAL EXTENSION SERVICE

**Stillwater, Oklahoma**

The Agricultural Extension Service of Oklahoma State University is a people-oriented unit involved in program planning for agriculture, home economics, youth programs and rural development. A built-in flexibility gives Extension the capability to adjust programs to meet new needs, needs usually determined by the people Extension serves.

In agriculture, the mission of Extension is to provide a continual information system to the people in order to achieve a plentiful economical supply of food and fiber, to equip farmers with the latest technology and to help sustain a quality of life.

High priority missions of Extension in agriculture include: continued efficiency of resources in agricultural production, assisting farmers and ranchers gain incomes comparable to those in other sectors of the economy, increasing efficiency and competition in marketing and distribution of agricultural products, strengthening the nation's agricultural position in international markets, enhancing the physical environment through efficient use of resources consistent with social priorities and environmental constraints.

The mission of home economics as a program of Extension is to assist people in identifying needs and improving the quality of homes and communities.

Specifically, Extension home economics works to: enhance the quality of decision-making and improve the skills needed to carry out these decisions, improve the abilities to make and adapt to changes by exploring and implementing various solutions, recognize and identify unexpressed needs which affect individual and family well-being, increase abilities to participate in and use community services contributing to quality of family and community life.

The youth program of Extension is formed around 4-H, an organization of 140,000 members and more than 10,000 adult leaders. Specific aims of this program are to: provide learning-by-doing experiences through projects and activities in real-life situations; develop leadership and human resource attributes of self-esteem, confidence and the ability to cope with stress, engage youth in constructive activities under the guidance of caring adult leaders, replace the feelings of hopelessness and disappointment prevalent among today's youth with feelings of worth, being and accomplishment, maintain program flexibility suitable to serve the needs of Oklahoma youth — wherever they might live.

The rural development arm of the Extension Service is designed to serve citizens and local government officials in strictly rural areas and population centers of fewer than 50,000 persons. Educational programs and leadership developed through Rural Development are aimed at: a greater understanding of resources available for rural living, better informing citizenry on matters pertaining to coal, oil and gas issues which relate to resource management, the environment and taxation, encouraging community improvement projects, improving community services and facilities, such as health, water supplies, fire prevention, etc., improving the understanding of local officials, leaders and citizenry of government services and functions.

## OSU SCHOOL OF TECHNICAL TRAINING
### Okmulgee, Oklahoma

Oklahoma State Tech, the Oklahoma State University School of Technical Training, is the largest residential vocational-technical campus in the nation. During the one-year report period, Tech experienced a slight enrollment decrease from the previous biennial report. The three graduation exercises honored 871 young men and women who were eagerly sought after by industrial and business concerns throughout the state. Business and industry representatives from several states regularly conduct on campus recruitments because previous graduates have performed well and have been promoted to supervisory jobs within their organizations.

The total number of new students for period October 1, 1978, through the summer trimester, September 30, 1979, was 2,088. The enrollment reflected a cross section of the United States with students enrolling from the Oklahoma 77 counties and from 34 other states. Seventeen foreign countries were represented. Tech's total enrollment, exclusive of duplicates, for the period of fall 1978 through summer 1979 was 3,827.

The industrial-educational campus atmosphere continued to be in step with the needs of business and industry through the guidance and assistance of industrial advisory committees. This school's current 46 technical and vocational skill programs are constantly under evaluation by the advisory committees and faculty to ensure that they reflect current technology.

The faculty of 173 instructors possess an average of 12.05 years of teaching and 10.33 years of industrial experience. Visits to industry during the noninstructional week between trimesters enable the faculty to remain current in their respective skill areas. Beginning June 20, 1979, 127 instructional personnel participated in professional development mini-methodology courses. These courses were to conclude on September 13, 1979.

The year saw many improvements in total campus development and continuing progress on projects initiated prior to this reporting period. Streets and parking facilities were resurfaced over much of the campus and almost all departments completed projects of upgrading classrooms and laboratories.

The Garden Residence One, which will accommodate 140 single students, was nearing completion. This project has provided invaluable on-the-job experience for many students in programs such as plumbing, building trades, electrical, and air conditioning.

Of the many major accomplishments of Oklahoma State Tech, the acceptance of the administration's curricula proposal by the Oklahoma State Regents for Higher Education permitting 25 major programs of study to award an associate of technology degree and granting college credit for all other approved courses offered on campus is a most significant milestone in the history of this institution.

Some 4,400 visitors representing prospective students and prospective employers were welcomed to the campus during the year.

Wayne W. Miller is serving his sixteenth year as director of this branch and is also a vice-president of Oklahoma State University.

## OSU TECHNICAL INSTITUTE
### Oklahoma City, Oklahoma

With a general reduction of student enrollment occurring nationwide during this period, the Technical Institute continued to grow steadily. Head count enrollment for fall, 1978 (2409) exceeded that of previous fall (2321) by almost 90 students. Institute faculty and staff attribute this increase to the school's up-to-date curricula which, they believe, closely matches the needs of Oklahoma City business, industry, and public service agencies. A new, modern campus, which has emerged during the present decade, at Northwest 10th and Portland has also given additional impetus to this growth rate.

Both city and county facilities occupy space on the Institute campus. The latest addition is the City of Oklahoma City's new Police Training Center, completed in 1977. The center's facilities include a gymnasium, nice classrooms, laboratories, a TV studio, and administrative offices. A joint-use agreement between the Institute and the City was developed to better utilize the total facilities.

A commitment to assist hearing impaired students was made by the Institute with the acceptance of a grant from the Oklahoma State Department of Vocational Rehabilitation. This has resulted in the development of specialized materials, employment of tutors and hearing specialists, and the establishment of Vocational rehabilitation offices on campus.

Of particular significance during this period was a modification of administrative lines of reporting for the Institute. The Director now reports directly to the President of Oklahoma State University rather than to the Dean of the Division of Engineering, Technology and Architecture. This change and the building of a new student center were two changes or additions which had been recommended in 1975 by the visiting evaluation team of the North Central Association of Colleges and Schools. One major recommendation made by that team but not yet accomplished is the construction of a new engineering technology building which would allow the Institute to vacate the original campus and move the students and faculty to the main campus.

A Bureau of Recreation Grant has provided the Institute with a tennis court, volleyball court, and jogging trail. These facilities have been built on the south edge of the present campus and are available to the public.

## CENTRAL STATE UNIVERSITY
### PRESIDENT BILL J. LILLARD
### Edmond, Oklahoma

Central State University, responsive to the higher education needs of the people of Oklahoma, has continued to develop and mature as a comprehensive liberal arts university. Student and community oriented, teaching, research, and service continue to occupy a paramount position in establishing priorities.

In accordance with the recommendations in the Plan for the 70's, the academic program was expanded to meet the needs of students in new and emerging fields of study. The State Regents for Higher Education approved, and Central State University implemented a new masters degree, a M.S. in Industrial and Applied Physics and two new bachelors degrees, a B.S. In Home Economics — Fashion Merchandising and a B.S. in Industrial Safety. Central State University now offers 3 certificate programs, 8 pre-professional programs, 58 bachelor degree programs with 112 options, and 17 master degree programs with 68 options. The administration, faculty, and staff of Central State University, cognizant of the need to continually reassess the existence and recognition of high standards in academic programs, finalized the reports for the North Central Accrediting Association and the National Council for Accreditation of Teacher Education for the joint visitation in the spring of 1979. The accreditation of Central State University was fully renewed by both accrediting agencies. Priorities for the coming year include a continuation of a university-wide self study of the future of Central State University as a constituent element of the state system. This self study will determine the status of programs and services provided by Central State University, address the need for an expanded mission and scope statement for the university, and integrate a comprehensive planning and management system into the administrative structure for dealing with change in the decade of the 80's. Another major thrust of continuing to explore alternate delivery systems of academic programs as a result of perceiving a need on the part of the business community as well as the general citizenry of the greater Oklahoma City metroplex. Central State University received approval to offer off-campus classes starting in the Spring Semester of 1979. Courses at the upper division and graduate levels were offered at Tinker Air Force Base as well as several other business and governmental agencies located in the Oklahoma City area.

Due to retirements, resignations and reassignments, several administrative and professional staff positions were filled including Vice President for Academic Affairs, Director of Placement, Alumni Affairs, and Special Events, Director of Student Financial Aids, Director of Teacher Corps Project, Associate Dean of Students, Track Coach, Energy Coordinator, and Native American Counselor. New academic department chairpersons were assigned for English, Music, Mathemmatics, Industrial Education and Military Science.

Improvement of faculty salaries has long been and will continue to be a high priority item. This year a State Regents study showed that Central State University ranked number one in the state for the highest average faculty salary of all ranks excluding the Medical and

Veterinarian School faculties. Another study of faculty salaries in the 10 state central region indicated that Central State University ranked second in average faculty salaries. Prudent management policies regarding fiscal matters and work load assignments have made these salary increases possible for a deserving and working faculty.

Academic excellence has long been stressed and recognized at Central State University. This year special note must be made of the Harry S. Truman Scholarship for the State of Oklahoma award to a Central State University student. Several years of renewed emphasis to the athletic program at Central State University has reaped reward as the 1979 NAIA National Wrestling Championship was won by Central State University.

Research at Central State University has been given an elevated priority. With the assistance of the Faculty Research Council, faculty members are encouraged, supported and recognized for their research efforts. Currently, faculty members at Central State University are engaged in research ranging from alternative energy sources to psychological behavioral studies. Also, faculty members are conducting traditional research efforts in liberal arts and business. The number of scholarly papers and publications have increased in the last two years and is one measurement of the commitment made towards the individual faculty member in assisting him in the area of research.

The Oklahoma State Regents for Higher Education for the second year contracted Central State University to conduct statewide Affirmative Action Management Seminars. These seminars are designed to disseminate information about the *Revised State Plan* to middle and upper management throughout the public higher education community of Oklahoma.

Central State University experienced a leveling of enrollment with 11,398 students enrolled for fall 1979. Central State University made significant progress and met the hiring goals as set forth in the Affirmative Action Compliance Plan, in the recruiting of minority students and in the hiring of minority faculty and staff members. We remain dedicated to the spirit and reality of the Affirmative Action process. To be more responsive to the needs of all students and in compliance with federal regulations, implementation of the Architectural Barrier Removal Program has continued as outlined in the transition plan and implications for the Title IX legislation has been evaluated and remediation steps have been addressed.

The top priorities in capital improvement, paving of parking lots, lighting, and campus beautification, were continued with the hard surfacing of the Administration Building parking area. The reserved staff section was eliminated thereby doubling the space available for students and others to conduct business in the Administration Building. Several areas on campus were landscaped for campus beautification, and the Redbud Room and Senate Room in the University Center were redecorated. Several building modifications were made to bring the entire physical plant into compliance with the Fire Code of the State of Oklahoma. A new dispatching and closed circuit TV monitoring system was installed to strengthen campus security. Construction was completed for a new six-court tennis complex. The initial planning and funding for a major renovation project for Mitchell Hall and the Communications building providing additional space for Talkback TV were presented and approved.

Utility rates and the energy crisis continue to be sources for concern and commitment for future action. As a result of the on-site energy conservation survey and the identification of problem areas, modification for conservation continued to receive added emphasis.

Central State University continues to change in breadth and depth from its historical founding to a mature multi-purpose institution of higher education and upholds a commitment to serve the people of Oklahoma. To honor this commitment, emerging needs of the university are evident. Students have expressed, and the university recognizes, the need for a broader program base to meet the needs of the citizenry of Oklahoma. Continued growth and overcrowding from past years of growth emphasizes the need for a general purpose classroom building. With the addition of a new classroom building, the older temporary structures could be phased out, enhancing campus beautification.

## EAST CENTRAL OKLAHOMA STATE UNIVERSITY

### PRESIDENT STANLEY P. WAGNER

**Ada, Oklahoma**

For the fifth year in a row East Central University has had an increase in full-time student enrollment. We believe that this increase has continued because of the variety of programs we are able to offer. Despite a decrease of enrollment in our traditional fields, especially teacher education, the areas such as business and allied health have been booming. We also feel that teacher education needs have begun to reverse their decline and we should see a greater number of openings next year. A part of those openings will probably be the result of low salaries, but this also will hopefully be altered.

During the year the Elvan George Athletic Building was completed with some 6,800 additional square feet being available to the University. The Instrumental Music Building has also gone under contract and by May of next year we should have that building available for occupancy.

The Capital Improvement Program of Oklahoma has allocated East Central $325,000 in new funds for remodeling the Administration Building and providing some improvement in parking facilities. We are, at present, working with an architect to implement these changes.

A new program on a Master's level is being requested from the Regents. Indications are that there is a significant demand for personnel trained at the graduate level as general practitioners in the Human Services profession. No other school is now meeting these needs, and East Central has a strong undergraduate program in this area.

## NORTHEASTERN OKLAHOMA STATE UNIVERSITY

PRESIDENT W. ROGER WEBB
Tahlequah, Oklahoma

An awakening of spirit and commitment were hallmarks of this year at Northeastern State University. The various constituencies of the University were encouraged to offer their ideas and energies to this renewal. The level of participation exceeded all expectations. This extended involvement bodes well as a dynamic framework for the challenges to be met in the near future.

Symbols of the renewed commitment to tradition and concurrently to the future are evident from the year's activities. Private donations from students, faculty, alumni, and citizens of northeastern Oklahoma funded a carrillon and clocks for the tower of Seminary Hall, the oldest building on campus.

A new logo with a clean, simple design was adopted. It is representative of the enthusiasm, cooperation and pride which have grown throughout the year.

Our efforts to attract quality high school and junior college graduates were expanded. Thousands of these young men and women visited our campus for the varied programs sponsored by our academic divisions. These programs range from visiting speakers to student academic competitions and from plays and concerts to athletic events.

To facilitate the enrollment process, a pre-enrollment system was developed and implemented. The acceptance of this student program is evident in the fact that 56 percent of our fall semester students exercised the pre-enrollment option for the spring semester. The increased efficiency and convenience of this program benefited not only our students, but also our faculty and administrators. We are committed to seeking better ways to do the work of the University, and we expect to introduce additional new programs and procedures which will allow us to make better use of our resources and provide better services.

New academic programs approved by the Oklahoma State Regents for Higher Education added impetus to our efforts to provide the best possible educational opportunities for our students. All those added this year were either graduate or professional programs. The approval of the nation's fourteenth School of Optometry introduced the first professional program offered at NSU. Three master's degree programs broadened our graduate-level offerings. They are the Master of Business Administration in Tribal Management, the Master of Science in Criminal Justice and the Master of Science in Industrial Technology. These new academic programs significantly strengthen our capabilities to provide the higher educational opportunities our constituencies need. The year 1978-79 is a watershed in our academic history with the addition of these four new degree offerings.

Several members of our faculty authored textbooks and research articles which were published during the year. These works certainly enrich the quality of teaching available at NSU.

The fiscal stability of NSU was assured by the new management, philosophy, and personnel in our auxiliary operations. Extensive renovations and improved supervision in our housing system brought about an increase in occupancy in the spring semester after a ten-year downward slide of 67 percent.

NSU also hosted numerous educational and civic groups who stayed in our dormitories and met and dined in our University Center. Under a contract with the Department of Labor and the Cherokee Nation of Oklahoma we leased space for an Indian-emphasis Job Corps center.

For the eighth year in a row the Boare's Heade Feaste, a joint production of our University Center and the Fine Arts department, was sold out for its nine-day run. The proceeds from this widely-renowned dining/entertainment event provide scholarships for Fine Arts students.

The improved involvement and commitment to quality education among those who work and study at NSU presage a bright and fruitful 1979-80 fiscal year.

## NORTHWESTERN OKLAHOMA STATE UNIVERSITY

PRESIDENT JOE J. STRUCKLE
Alva, Oklahoma

The 1978-79 school year was one of the best in several years at Northwestern Oklahoma State University. The enrollment increased to 1,960 students, with a definite improvment in quality.

A new program in Behavioral Science was initiated with great results and definite appeal to students. The program is a terminal one and emphasizes psychology and sociology. The program is one of need for the department of welfare, corrections department, law enforcement agencies, and numerous others.

A recreation facility, second to none for a school of our size, was put in effect. The facility will consist of six tennis courts, two softball diamonds, an outdoor basketball court, and an all-weather 400 meter track. The facility was funded by a federal grant, private money, city funds, county funds, and state funds.

The athletic teams, band and music, debate, and other performance groups made great strides during the year.

The scholarship program netted a goal of $50,000 and shows signs of increasing.

The reputation of Northwestern Oklahoma State University is great. Pride in the school and northwest Oklahoma is beginning to take a positive step. Northwestern is taking its place as a leader in higher education in the State of Oklahoma.

## SOUTHEASTERN OKLAHOMA STATE UNIVERSITY
### PRESIDENT LEON HIBBS
### Durant, Oklahoma

Southeastern Oklahoma State University, a multi-purpose institution, experienced a slight increase in enrollment over the previous year. The 1978 fall semester headcount resident enrollment was 4,503 compared to 4,417 in the fall of 1977. The total fall semester, 1978, student credit hour enrollment was 48,598. The full-time teaching faculty remained at approximately the same number in 1978-79 as it was the previous year.

In March of 1979, Southeastern was visited by a team representing the National Council for Accreditation of Teacher Education. As a result of this visitation, all undergraduate teacher education programs were granted approval with full accreditation.

In the fall of 1978, the Elementary Education Department offered a seminar in multicultural education. Area teachers as well as campus students participated in this seminar. As an institution, Southeastern is very much concerned about multicultural education and has developed a number of special projects and programs in this area. Such programs that continued to experience growth during the past year include the following: Choctaw Bilingual Education Program, Teach Project, Institute for Indian School Personnel, Upward Bound, and the Experienced Americans Program. In addition, the Center for Human Understanding continued its broad program to encourage multicultural understanding.

Public Service Programs continued serving the needs of the community during the past school year with large participation in all such programs.

Programs in Latin American Studies, Social Gerontology, and the Master of Administrative Studies, recently implemented, experienced growth during 1978-79.

The University continues to develop and evaluate the affirmative action policies and procedures and submitted a revised Affirmative Action Compliance Plan in May of 1979. In this connection, some of the programs continued during the past year were the Biomedical Sciences Program for Native Americans, Peer Counseling, and Minority Graduate Assistantships.

The Parsons Scholarship Program was established in the spring of 1979 and is a perpetual endowment from the estate of Dr. David L. Parsons, a 1928 graduate of Southeastern. The Parsons Scholar designation is given to the top 15 recipients each year, and selection is made on the basis of scholastic ability and achievement. An honors curriculum consisting of special courses in general education and independent research is required of all Parsons Scholars.

The third faculty conference on "Liberal Education in a Mission-oriented University" was held during the second semester of the school year, 1978-79. Dr. William S. Banowsky, President of the University of Oklahoma, was the keynote speaker. In addition to this conference, many of the faculty members attended professional meetings related to their teaching field during the school year.

Phase II of the Industrial Technology Complex was occupied at the beginning of the 1978-79 school year. This facility provides space and equipment for power mechanics.

The computer center facilities were greatly expanded during the past school year, and the university cafeteria was completely remodeled.

## SOUTHWESTERN OKLAHOMA STATE UNIVERSITY
PRESIDENT LEONARD CAMPBELL
**Weatherford, Oklahoma**

Fiscal 1979 might accurately be described as "the retirement year" for Southwestern Oklahoma State University. Seldom, if ever, has either an educational institution or a business establishment been faced with the loss at one time of so many major administrative officers.

The first vice-president this University has had in decades, veteran educator Dr. Louis Morris, was among those attaining retirement age. He had served Southwestern as teacher, dean, and vice-president for academic affairs for 41 years.

Also reaching the age of 65 and leaving "The Hill" were Dr. Walter Dickison, dean of the School of Pharmacy, Nursing, and Allied Health, and Dr. Harold Massey, Graduate School dean. Dr. Dickison came to the University in 1957 as a pharmacy professor and was promoted to the dean's position in 1965. Dr. Massey has held the graduate dean's post since 1963.

Even though all three have been replaced by individuals who are certainly qualified and possess the knowledge and experience required, they will indeed be missed.

The vice-president and graduate dean were very much involved in their final year on campus with what turned out to be a most successful effort to gain continued approval for Southwestern by the National Council for Accreditation of Teacher Education. An evaluation team from that organization, following a visit in November 1978, issued a highly complimentary report on the University's teacher education programs.

No major weaknesses were found. In fact, the NCATE was so impressed that four representatives of the Southwestern School of Education were invited to Chicago last February to help train new evaluation teams. Only two other schools in the nation, the University of Alabama and University of Kentucky, received similar invitations.

Shortly before the NCATE visit, the University pharmacy program had been given close scrutiny by the American Council on Pharmaceutical Education, and, once again, the results were pleasing. Only seven of 35 schools of pharmacy examined were given the maximum-term accreditation of six years, and Southwestern's was one of that rather select group.

National and state recognition came to the University, its faculty, and its students in various other ways during the past year.

The local Phi Beta Lambda professional business fraternity was picked, for the 12th consecutive year, as "Best State Chapter," and its job placement projects were given national attention in the publication *Tomorrow's Business Leaders.*

A professor in the Health, Physical Education, and Recreation Department received appointments as the national YMCA SCUBA commissioner for the Mid-America Region and as chairman of continuing education for the Oklahoma Recreation and Park Society.

An Art Department instructor was invited to display his works in the Oklahoma Governor's Office, and two art students were selected to exhibit in a show normally reserved for professionals, the Oklahoma City Festival of the Arts. They were the only students involved.

Appointed state director of the Oklahoma Junior Academy of Science was a Physics Department professor, while the Society of Physics Students became one of 23 receiving "Outstanding Chapter" awards and placed second nationally in increased membership competition.

The presidents of both the Oklahoma Council of Teachers of English and the Oklahoma Theatre Education Association were Division of Language Arts teachers, as were the *Oklahoma English Bulletin* and Oklahoma Writers Federation, Inc., *Newsletter* editors.

Tri Beta, biology student organization, for the second consecutive year took the "Outstanding Chapter" award in the Oklahoma, Arkansas, Louisiana, and Texas District.

Performing for the ninth time in pre-game and halftime professional football game shows was Southwestern's Marching Band, which in 1978 was invited to appear in the Houston Astrodome.

Serving the past year as president of the Oklahoma Association for the Education of Young Children and as a member of the Professional Standards Board of the Oklahoma State Department of Education was a professor in the School of Education.

Enrollment at Southwestern Oklahoma State University generally took a slight downturn; however, several areas marked gains despite this student shortage.

One of these was computer science, where growth is at a record pace following the installation of our new computer, and another is concentration in mathematics for elementary teachers.

The comparatively new nursing degree program continues to gain steadily, while increases in the number of accounting majors are phenomenal. Thanks to the completion last fall of the University's first observatory, astronomy courses are in a state of saturation.

Some other "firsts" were recorded during the year. Southwestern awarded eight master of business administration degrees, one in biophysics and 17 in nursing, and nine students met the qualifications for the new vocational home economics certificate.

A grand total of 906 degrees were conferred at Convocation Exercises in July 1978 and May 1979. Included were: bachelor of arts, 66; bachelor of arts in music, two; bachelor of science, 235; bachelor of arts in education, 30; bachelor of science in education, 194; bachelor of music education, 21; bachelor of science in nursing, 17; bachelor of science in pharmacy, 114; master of education, 218; master of business administration, eight; master of science in applied psychology, one.

## CAMERON UNIVERSITY

**PRESIDENT DON OWEN**

**Lawton, Oklahoma**

The 1978-79 academic year was a good one at Cameron University with strengthened programs of instruction and improved physical facilities.

Phase II of the McMahon Fine Arts Center, a large modern theater area was accepted in November and Phase III, an art gallery and rehearsal halls, was contracted for later construction. When completed it will be among the more modern and functional of any such facility in the state.

Construction was begun on a modern, 8-court tennis complex on campus. Cost of the courts will be $150,242, totally financed through the Cameron Foundation.

The Federal Aviation Agency and the Oklahoma Department of Institutions and Rehabilitation renewed contracts and will continue to occupy space on the campus.

The Maintenance Department continued a program of campus beautification with areas landscaped with trees, shrubs and flower-beds.

The first assembly line production of radial tires was accomplished by a vast Goodyear tire plant west of the campus. It is expected that the Goodyear operation will have a profound impact on the function of Cameron in the future years.

Total enrollment was down slightly, in step with national trends over the past few years.

A North Central Accrediting team visited the campus in February. Their report included an unqualified recommendation that Cameron's accreditation in the organization be extended for a period of five years.

The first students were graduated in the new four-year baccalaureate program in the Nursing Department.

Dr. Jack Bowman, Director of Instrumental Music at Cameron, was named conductor of the Lawton Philharmonic Orchestra.

Cameron's forensic team won the national championship in competition with all major universities and colleges in the United States.

At the end of regular season play the basketball team was ranked number one among members of the National Association of Intercollegiate Athletics. Later, in the NAIA national tournament, the team was eliminated in quarterfinal play after defeating two opponents.

Cameron students are very active and assume prominent roles in establishing policy that affects students. They are voting members of virtually every internal committee on campus.

## LANGSTON UNIVERSITY

PRESIDENT ERNEST L. HOLLOWAY

**Langston, Oklahoma**

The 1978-79 fiscal year was one of dramatic change for Langston University. The mission of the University was expanded to meet the state's Civil Rights Compliance plan, major improvements in the physical plant were started and/or accomplished as a result of a special capital improvement appropriation, the administrative structure of the University was changed, and the enrollment during the spring semester was higher than the fall semester.

Langston University continues to be one of the most unique and innovative of institutions of higher education in the State of Oklahoma. The unique and vital role played by Langston University was enhanced during the 1978-79 academic year by the addition of an urban mission to our traditional role. The urban mission is to provide educational opportunities for urban residents and to train and fully educate citizens for living, working and coping with the realities of the urban society, problems and urban life.

One of the first steps in the implementation of the urban mission was the establishment of an Urban Center in Tulsa during the spring of 1979. The Urban Center is an expansion of Langston University's academic program where junior and senior level courses are offered in selected academic disciplines. All programs, curricular offerings, class schedules, activities, faculty, staff and students connected with the Center are governed and directed by the policies, procedures and regulations of Langston University. Academic units earned at the Urban Center may be applied as resident credits toward a baccalaureate degree from Langston University.

Major improvements in the physical facilities were initiated and/or completed in the 1978-79 fiscal year through a special capital improvement appropriation. Major gas and water lines were either repaired or replaced, the boiler plant received extensive renovation and a new boiler was installed. The G. Lamar Harrison Library has undergone a complete renovation, including ceilings, lights, carpets, windows, drapes and painting the entire facility.

As a result of our greatly expanded research function, a $750,000 contract has been awarded to convert a former men's dormitory into a modern laboratory building. Funds for this project were provided by the Department of Agriculture as a part of Langston University's Land-Grant function.

With the entire nation returning to the "Basics," Langston University, with the assistance of Title III funds, inaugurated a Basic Skills Program during the past academic year. The Basic Skills Program is designed to benefit and assist students who have a desire to improve, sharpen and define their basic skills. Elements of the program include faculty development, tutorial programs, counseling and enrichment activities. A conceptualized paradigm takes the freshman and transfer student through orientation, a total campus experience, individualized academic programs in reading, mathematics, and English, personal and social development skills, and ultimately placement and evaluation.

### OKLAHOMA PANHANDLE STATE UNIVERSITY
PRESIDENT THOMAS L. PALMER
Goodwell, Oklahoma

Panhandle State University has a well trained and dedicated faculty. Of all the full-time instructors on the faculty, 15 have their doctorate; 34 master's; and 5 the bachelor's. Of the part-time faculty, 4 have the doctorate; 1 has the bachelor's of divinity; 3 have the master's and 2 have the bachelor's degree.

The faculty and administration of Panhandle State University continues to be sensitive to the needs of individual students. There is continued interest in changing and improving the curriculum in order to meet students needs. The quality of the faculty is established, and of those who left the institution most went to more responsible and better paying positions, usually outside of Oklahoma. Several curricular changes were made during the 1978-79 academic year. Fifteen new courses were added to the curriculum, and 9 courses were dropped.

The Marvin E. McKee Library, a well-equipped library, increased its collections to 75,326 volumes and 397 magazines, journals and newspapers.

In May, 1979, 139 students completed a baccalaureate degree in 20 different fields. There were 10 in accounting; 10 in agribusiness; 11 in agronomy; 6 in animal science; 5 in biology; 23 in business administration; 3 in business education; 3 in chemistry; 20 in elementary education; 4 in English; 19 in health and physical education; 7 in home economics; 4 in industrial arts; 2 in mathematics; 2 in music education; 1 in natural science; 2 in psychology; 2 in social science; 3 in speech; and 2 in technology. The Military Science Department commissioned 2 students into the United States Army as Second Lieutenants.

The institution purchased 2 vans to be used for athletic events, field trips, and similar activities where a large number of students need to be transported. The institution made extensive plans to purchase its first computer to be used in processing of administrative records and also as a teaching aid. This is part of a plan in moving the offices of the Registrar to the area in the administration building which is presently occupied by the Art section. The Art section will be moved to the second floor of this same building.

The institution continued to enjoy high recognition in accreditation. The institution is presently accredited by the North Central

Association of Colleges and Schools until 1985 and by the National Council for Accreditation Teacher Education until September 1, 1981. During the year the State Department of Education provided an evaluation team to examine the teacher education programs of this institution and its accreditation was continued until 1984. The institution is also accredited by the Oklahoma State Regents for Higher Education.

Financial Aid for students from university based programs amounted to $54,000 during 1978-79. This included $34,175 in National Direct Student Loans; $10,480 in the Supplementary Education Opportunity Grants and $9,426 in the Work Study Program. To the above total there were 235 recipients for Basic Educational Opportunity Grants with a total value of $175,649. Institutional scholarships, loans, fee waivers, and student labor amounted to more than $300,000. Students also received aid from the Panhandle State Foundation, a private fund-raising arm of Panhandle State University. A number of students were awarded scholarship assistance from Foundation Funds and a total amount awarded in this program was $19,904.

One of the greatest needs of Panhandle State University is the yearly funding of a capital improvement program. Many of the buildings are rather old and need renovation and refurbishing in order to extend their natural life and to meet the needs of the changing curriculum, including modifications to assist the handicapped in gaining access to all buildings. The heating and air conditioning facilities are in a poor state of repair, and it would be economically prudent if capital improvement funds were made available to renovate these facilities to bring them up-to-date so there would be comfortable facilities for students, faculty, and administration to work and study.

## UNIVERSITY OF SCIENCE AND ARTS OF OKLAHOMA

PRESIDENT ROY TROUTT

Chickasha, Oklahoma

During 1978-79, efforts were continued to improve the quality of the student body by enrolling more academically talented students. Comments from the faculty relative to an improved academic atmosphere indicate progress in this important area. Enrollment of Oklahoma students increased 17 percent over the previous year.

State appropriations have made possible the improvement of academic programs through purchases of instructional equipment and supplies. Included are science equipment, audio-visual equipment, an electronic piano laboratory, micro computer, and a weight machine for physical education. Improvements have been made in both the general holdings of the University library, as well as special materials for the academic departments. This may be the primary reason for the rise in utilization of the library.

An expansion of the University's extension classes and the extensive offerings of evening classes are providing increased opportunities for intellectual development for patrons in this part of the state.

In support of the faculty and students, the University has completed renovation of the circulation desk in the Nash Library to facilitate the open-stack concept. Other campus modification include the relocation of audiovisual services in improved facilities, a new photographic lab for instruction and an improvement in the admissions office.

University fiscal operations have improved significantly during the past year. Policies relating to federally-funded, student financial-aid programs have been strengthened. Budgets have been developed for each auxiliary enterprise. These budgets are used as an expenditure control tool and as a tool to measure performance in this critical area. Routine and periodic financial reports used to communicate the financial condition of the University to the USAO Board of Regents have been improved and expanded to include quarterly operations reports for Auxiliary Enterprises and Oil Royalties Funds.

Physical plant operation and management have been improved through the use of work-measurement standards and staff-training programs. Pride in work programs are also being utilized in custodial areas and other maintenance areas to improve the quantity and quality of work.

Communications throughout the campus have been strengthened. University committees composed of administration, faculty, students and staff, along with administrative and academic councils and president's forums, have all contributed to an understanding of the mission and purpose of the institution.

## THE OKLAHOMA COLLEGE OF OSTEOPATHIC MEDICINE AND SURGERY

PRESIDENT JOHN BARSON

Tulsa, Oklahoma

Fiscal Year 1978-79 has been an active and productive one for The Oklahoma College of Osteopathic Medicine and Surgery. The College, operating in its fifth year, completed development of its 36-month curriculum and initiated development of authorized functions related to research, public service, and continuing medical education. Administrative reorganization realigns direction of predoctoral studies and continuing education to the Dean for Academic Affairs. Institutional scientific research is directed by the Dean for Research and Development. Business affairs, student services, and administrative services each will form the other three divisions of the College effective July 1, 1979.

The College has commenced the planning for construction an outpatient teaching clinic to be located at West 23rd Street and Southwest Boulevard in Tulsa. The site purchased for the clinic was selected to maximize patient availablility and proximity to the campus.

Academic achievement, as reflected by average scores on standard exams of the National Board of Osteopathic Examiners, again ranks students at OCOMS foremost among the fourteen osteopathic colleges. The College has graduated its third class as of June 1979.

Community-based clinical studies continue to be offered to third-year students and several new hospital affiliations have been added to the clinical rotation program this year, increasing the total off-campus sites to twenty-eight.

The College has undertaken, with the assistance of a federal grant, expansion of its internship study program to four positions. This increases the opportunities for its graduates to qualify for licensure and practice in Oklahoma. It is hoped the College effort will stimulate more growth in postdoctoral study development at osteopathic hospitals for our graduates in the state.

Internally the College has achieved improved efficiency and capacity in remodeling library space to accommodate new acquisitions of books and other learning materials.

In September of 1978, The Oklahoma State Regents for Higher Education named the three building structures which make up the OCOMS Campus for three persons most responsible for development of the College. The buildings are now identified as the E. T. Dunlap Auditorium, the Edward A. Felmlee Clinical Sciences Building and the John Barson Administration Building.

### CARL ALBERT JUNIOR COLLEGE

PRESIDENT JOE E. WHITE

**Poteau, Oklahoma**

CAJC made substantial progress toward excellence during the 1978-79 fiscal year. In August a group of campus administrators, faculty and staff were formed into a planning committee called the Carl Albert Strategy Team or CAST.

An OSU consultant met with the team once a month throughout the fall semester. CAST revised CAJC's five-year plan with the input of OSU leaders and other state leaders visiting the campus like: Carl Albert, Representative Cleta Deatherage, Senator David Boren, Chancellor E. T. Dunlap, Speaker Dan Draper, O.U. President William S. Banowsky, and members of the Oklahoma State Regents for Higher Education.

The college master plan was also revised and updated. Progress toward excellence was the major goal of each plan and the underlying consideration for decisions and changes made throughout the year.

CAJC enrollment continued to grow during the year. FTE broke 800 for the first time during the spring semester, but the college's most obvious growth was toward increased quality.

The Hamilton Fine Art and Communications Building was completed early in the fall semester providing a mini-theater and a music room for the enhancement of the drama and music programs. New instructors were hired in both programs. The facilities and additional instructors resulted in more and higher quality productions. A talent show, two musical concerts, and five plays were performed throughout the year. Two student art exhibitions were also held in the new building.

Quality was further enhanced through the consolidation of business programs, math and science programs, and social and behavioral science programs. Facilities were rearranged to locate biological and physical science labs together, and an additional science instructor was hired. Business labs were relocated and enlarged. New equipment and furnishings were purchased for these and other programs.

Due to an increase in state allocations, additional equipment was also purchased for technical-occupations programs, and a technical-occupations building was funded. When the building is completed, the new equipment will be moved from the Kiamichi Vo-Tech School in which CAJC has rented space in order to teach its technical-occupations classes since 1973.

Cooperation between the Kiamichi Vo-Tech District, the McCurtain County Higher Learning Center, the LeFlore County Commissioners and the City of Poteau continued throughout the year. The latter two were especially helpful in the campus beautification project which earned the college The Poteau Chamber of Commerce Beautification Award for 1978-79.

Quality in student life was complemented by the hiring of an additional counselor, by increased student activities and by two new student organizations. An honor association for junior college students, Phi Theta Kappa, was organized on campus. A writing club was created, and a peer counseling program was started.

Library holdings increased from 6,995 to 8,850 volumes in audiovisual materials. Print volumes increased from 10,555 to 12,503. The library was one of several areas selected for preferred development by the Carl Albert Strategy Team. During 1978-79 CAJC charted a course toward continued excellence in academics, facilities, and student life.

## CLAREMORE JUNIOR COLLEGE

### PRESIDENT, RICHARD H. MOSIER

Claremore, Oklahoma

For Claremore Junior College 1978-79 was a year of planning and adjustment. The changing needs of an increasingly diverse student body were examined, and the probable impact of the opening of the new Northeast Campus of the Tulsa Junior College on enrollment was assessed.

Plans and changes were made to further diversify the total range of the colleges' programs. Staff positions were combined in anticipation of a decline in the fall 1979 enrollment from Tulsa County. In a major organizational change, the responsibilities of the Dean for Community Services and the Dean for Technical and Cooperative Education were combined. Dr. Tobie Titsworth from College Station, Texas was employed to fill a new position as Dean for Community and Technical Education.

The Oklahoman's interest in a strong program of intercollegiate athletic competition was matched with Oklahoma - Arkansas championships in golf, soccer, and men's basketball and a 9th-place ranking in the national wrestling tournament.

A strong and continued interest in music, drama, and the visual arts was enhanced by more than 140 musical performances by student groups before more than 25,000 people; 65 dramatic performances for audiences of more than 21,000; and the development through private gifts and external funds of an on-campus Art Gallery. Utilizing funds from the same sources, construction of the Will Rogers Memorial Amphitheatre was initiated in preparation for the Centennial Celebration of Will Rogers Birthday.

A major effort was begun in cooperation with the Rogers County Cherokee Association, Inc. to develop on campus an important and lasting tribute to the Indian Cultures of the nation and Northeastern Oklahoma. The Native American Studies Program, under the direction of Dr. Kenneth Fink, as funded by the National Endowment for the Humanities, began to bring a deeper understanding and appreciation of the richness of the Native American Heritage of the area to the student body and the community.

In a continuing response to the needs of business and industry, an advisory board representing the mining operations of the area assisted in the development of a Miner Safety Training Program. Through the Claremore College Foundation, a Business Institute was formed for the purpose of servicing the expressed needs of the area business and industry. Initial planning was completed through the Institute for a program in first-line supervisor training and a program designed to train individuals to lay carpeting and install flooring.

To meet the special and individual needs of students with rising expectations, programs in Developmental Studies, Concurrent Enrollment, Continuing Education on the Job and Comprehensive Employment and Training were established and expanded.

At year's end the critical need for extensive campus renovation became more and more apparent as a dilapidated and outdated set of campus buildings without adequate equipment continued to be the factor most severely limiting the quality of education offered on college hill.

## CONNORS STATE COLLEGE

### PRESIDENT CARL O. WESTBROOK

**Warner, Oklahoma**

During the 1978-79 year, Connors State College continued in a stabilized enrollment condition, with the exception of the summer term, which showed a healthy increase over past summer enrollments.

Connors continued in this year with the campus beautification program, and significant improvements have been made relative to making our campus a pleasant, desirable place to seek higher education.

The college continued to study and revise courses and programs in every division for relativity and viability. A new program, "Agriculture Equine Technology," was approved and will be initiated in the fall of 1979. This new program has all indications of being viable and relevant to our area and state. Other programs of study such as "Electronics" were terminated due to low enrollments and extremely high cost to the taxpayers of Oklahoma.

Energy and energy conservation has played a major role in the operation of our physical plant, and some success has been experienced in financial outlay for energy purchase. Further energy saving techniques are planned for 1979-80 in an effort to conserve and defray increasing utility costs.

Dr. Carl O. Westbrook completed his first year as chief executive officer, and the college has taken on a new spirit directed at keeping higher education available to all our constituents.

The physical plant, though in part quite old, is in good shape and with the funding of capital improvements moneys, the older part of the plant may be improved to an above-average state. Some remodeling for the handicapped was completed, and other projects will be undertaken in the next year. The computer facility now serves several areas, with the business office "on line" at all times, resulting in faster service with respect to the fiscal affairs of the college.

The college continues to remain in a healthy condition with respect to our bond indenture accounts, and we concluded the year solvent in all accounts.

Connors State College will continue to improve its educational service under the coordination of the Oklahoma State Regents for Higher Education and the Administrative Board of Regents for Oklahoma A & M Colleges to the people of our area, and we extend our appreciation for the state support in the past. We look forward to continued joint efforts in serving the state in our seventy-second (72nd) year as a public institution of higher education.

## EASTERN OKLAHOMA STATE COLLEGE

### PRESIDENT JAMES M. MILLER

### Wilburton, Oklahoma

During the 1978-79 school year, Eastern Oklahoma State College experienced a growth in enrollment with a continued strength in adults in evening classes.

Eastern continues to participate, along with Carl Albert Junior College and Southeastern Oklahoma State University, in providing instruction at the McCurtain County Higher Education Center in Idabel. Eastern also has the responsibility for the Child Development Program in Idabel.

Eastern was approved to teach two courses in Emergency Medical Services, which was taught in Idabel. In response to community requests, Eastern taught these courses to individuals associated with hospitals and ambulance services. Cardiovascular Pulmonary Resuscitation was taught to faculty and staff as Eastern on Eastern's campus.

Courses were approved to teach extension classes in McAlester and Talihina, Oklahoma in response to requests from those communities.

Revised courses and curriculum were approved in many areas, especially in Electrical Engineering Technology; Health, Physical Education, and Recreation (HPER); Math; Marketing; and Psychology,

Eastern participated in the special training programs funded through the Comprehensive Employment and Training ACT.

Specific programs were established in the areas of Secretarial Science and Building Construction and Design.

Average faculty salaries for nine and ten-month faculty increased to $15,596 in 1978-79.

Construction is nearly complete on the new addition to our physical education facility. Barrier removal for physically handicapped was continued. More improvements to the Meat Science Lab was made. Installation of cable television in the Media Center allowing special education television programs to be utilized. New equipment for Secretarial Science and Biological Sciences was purchased. Continued enrollment using CRTs and Hewlitt-Packard computer was improved.

Eastern Oklahoma State College continues to be a service institution for eastern Oklahoma.

### EL RENO JUNIOR COLLEGE
PRESIDENT BILL S. COLE
**El Reno, Oklahoma**

Growth and development continued to be the bywords for El Reno Junior College during 1978-79.

Without question the highlight of the year came at its onset; on July 26, 1978 El Reno Junior College received North Central Accreditation for the first time. This action was the culmination of five years of concentrated effort to move through North Central's accrediting process.

In response to needs of the rural area the college serves, two new programs were implemented, Farm & Ranch Management and Agri-Business.

The college's campus took on a new dimension with the construction of a new $500,000 Physical Education Center apart from the existing academic complex. Also initial planning for a new Learning Resource Center began in the Spring of 1979. One other phase of campus development was transformed from dream to reality through the cooperative efforts of the college and the community of El Reno. Funding in the amount of $340,000 was raised locally to construct a performing arts center adjacent to the original twenty acre campus immediately south of the academic complex. This facility will be available to the college which will enhance the fine arts curriculum.

The Adult Education Short Course program continued to grow serving approximately six hundred non-credit enrollees during the school year.

A formal staff development program was instigated, and a special adjunct faculty orientation was planned and implemented.

Student activities experienced their most successful year involving two new organizations, a Rodeo Club and the Chautauqua Society. Both organizations became leading groups contributing significantly on high student morale on campus.

As a result of the institution's self-study, a new institutional committee structure was proposed and approved by the Board of Regents in May, 1979. Ten institutional committees consisting of faculty, students, administrators, and support personnel were formed to serve the college as it continues to develop.

## MURRAY STATE COLLEGE

PRESIDENT CLYDE R. KINDELL
**Tishomingo, Oklahoma**

The major emphasis of Murray State College during this reporting period has been the continued development of the institution into a more comprehensive two-year college commensurate with the assigned functions prescribed by the Oklahoma State Regents for Higher Education:

To provide a comprehensive two-year, post-secondary educational program to serve the needs of residents of the South Central Oklahoma counties of Atoka, Bryan, Carter, Coal, Garvin, Johnston, Love, Marshall, Murray, and Pontotoc; to provide an educational program which gives predominant emphasis to technical and occupational education; to provide a program of general education which will enable students to develop the attitudes, knowledge, qualities, and skills necessary for them to be effective as a person, a family member, and a citizen; to provide educational programs of two years or less for students who plan to transfer into baccalaureate and professional programs at senior colleges and universities; to provide a program of education for youth and adults whose previous educational experiences have not prepared them for achievement at the collegiate level; to provide guidance and counseling services for all students; to provide community services to improve the cultural, economic, and social environment of the area served by the college.

During this reporting period, the College employed a Coordinator of Community Services and expanded educational services to a larger number of adults in the area. Included in the service was the establishment of a Senior Citizen Center and a Child Day Care Center on campus. The Senior Citizen Center provides opportunities to our older citizenry. The Veterinary Technician Program received its first students, and the instructional activities were held in an old meats processing building. The College has continued to provide instructional support to the Ardmore Higher Education Center.

During the next reporting period, major emphasis will be placed on expanding educational services by instituting a Gunsmithing Program. Renovation of the old college barn will be undertaken to provide better facilities for Veterinary Technology. Primarily with Bureau of Outdoor Recreation funds, a Baseball Building will be constructed.

Continued emphasis will be given to improving the living environment of students residing on campus. To provide additional recreational opportunities for students, a Student Activities Coordinator will be employed by the College.

## NORTHEASTERN OKLAHOMA A&M COLLEGE

### PRESIDENT D. D. CREECH

**Miami, Oklahoma**

This year, 1978-79, marks the 60th year for Northeastern Oklahoma A&M College. The college began as the Miami School of Mines in 1919, "as the school where the science of mining and the study of metals shall be taught." After six years, in 1925, the school was designated as a junior college and since that time has developed into a superior, comprehensive community junior college.

The enrollment during the 1978-79 school year was an all-time high with 2,793 students enrolled for the fall semester. More than 1,150 of these students lived in college-owned housing including both single-student dormitories and apartments for married students. This represents an occupancy of more than 100% of the designed capacity.

During the year additional parking space was purchased adjoining the women's dormitories to relieve the crowded parking conditions.

The Talk-back television system was completed, and the first classes were offered to students during the summer of 1979.

The closed-circuit television studio was completed. With this excellent facility there is now the capability of producing instructional programs for use by the faculty and staff, offering classes in television production, and taping and filming of college and community events and transmitting them throughout the campus and the cable television system of the community.

There was a reorganization and strengthening of the student advising system. It is believed that real benefits have accrued to students because of better opportunities for personal advising and counseling.

The president appointed a study committee of faculty, staff, and students for the purpose of studying problems which exist on the campus and working for practical solutions to the problems. It is the opinion of many that the actions of the study committee were highly beneficial and that the educational needs of students and others on this campus are being better met.

This was a good year. The faculty and staff were enthusiastic in their work; the students seemed to respond and to benefit from the efforts in their behalf.

## NORTHERN OKLAHOMA COLLEGE

### PRESIDENT EDWIN E. VINEYARD

**Tonkawa, Oklahoma**

The mission of this institution continues to be pursued in a competent and resourceful fashion. With a few exceptions, professional and nonprofessional staff continue to render high quality services. The staff is student oriented and takes pride in assisting students toward success. Administrative leadership at the dean level has been outstanding. Each principal administrator has had unique challenges, and each has met these well.

The institution continues as a financially solvent entity. Audits continue to reflect favorably upon business practices. Bond indenture accounts have excellent reserves.

Outstanding achievements of the year in the realm of activities included the national championship in women's basketball and the selection of the college musical performing group for a tour of Russia and Rumania.

### OSCAR ROSE JUNIOR COLLEGE

ACTING PRESIDENT JOE PACKNETT

**Midwest City, Oklahoma**

The faculty, staff, and administration of Oscar Rose Junior College continued its prescribed practice of review, evaluation, and planning for the future during fiscal year 1979. One aspect of this effort was the Comprehensive Planning and Management Program for the 1980's Report requested by the Oklahoma State Regents; another was cooperation with the six additional associations by which the College is accredited.

Capital improvement for the fiscal year included six projects, which may be reviewed in four groups. The 1977 and 1978 mall development projects were completed, as were new baseball dugouts. Renovation was begun with roof repair on the Engineering/Science Building and the Fine Arts Building, offices in the Health/Environmental Sciences Building, and Phases I and II of the Business Building. Initial work on two additional tennis courts and on the major construction project, the expansion of the Learning Resources Center, progressed rapidly. With approval and assistance of the State Regents, plans were completed for the Tom Steed Center for Career Development; construction should begin during the coming year.

Full-time faculty numbered 148 for the fall semester; in addition, fifteen staff members taught part-time, and there were 142 supplemental faculty, making a total teaching staff of 305. These combined teaching loads resulted in a full-time equivalency of 204.9 for the two academic semesters as compared with 208.1 for the previous year. Each full-time equivalent instructor produced 670 student credit hours during the academic year.

The institution continued to offer three separate terms per semester. Enrollments and credit hours produced were as follows: Summer 1978, 3,679 enrollments and 18,017 credit hours; Fall 1978, 7,978 enrollments and 71,450 credit hours; Spring 1979, 7,675 enrollments and 65,980 credit hours. Totals for the year were 19,332 collegiate enrollments and 155,447 student credit hours; non-credit classes produced an additional 7,620 enrollments.

Full program development for Nursing and Dental Laboratory Technology began late in the year with the employment of a program director/instructor for each. Classes are scheduled to begin during the coming year. New programs developed during the year and approved for implementation in the fall of 1979 included Fashion Merchandising and Public Administration. Special educational projects which continued were the Head Start Supplemental Training/Child Development Associate program, the Training and Technical Assistance program, the Cherokee Nation Wastewater Technicians' program, Special Services for Disadavantaged Students, and the Management Training Center.

One final area of change occurred during the year. As a result of the resignation of Dr. Joe Leone from the presidency, presidential search procedures which had been approved previously by the Oklahoma State Regents were initiated. On April 19, 1979, the Oscar Rose Board of Regents named Dr. Joe Packnett as the new President. In addition, two new Oscar Rose Board members were named. Mrs. Jo Helen Webber replaced her husband Toney Webber; and Mr. Ronald Collier replaced Mr. J. B. Estes, who was the final remaining member of the original Board of Trustees. New and returning College Regents and personnel alike look forward to a continued cooperative effort with state and local agencies in providing higher education services to students.

### SEMINOLE JUNIOR COLLEGE
### PRESIDENT ELMER TANNER
### Seminole, Oklahoma

During the fiscal year 1978-79, the faculty, staff and administration of Seminole Junior College conducted a great deal of effort in research and evaluation. The result of this evaluative effort was to present a full self-study for the one-site visit by North Central in November, 1979.

In the area of Capitol Improvements, we took possession of the new Educational-Occupational Center. That building now houses Journalism Technology, Secretarial Science, Computer Science, Electronics, Drafting and Art. The college received a state allocation of $350,000 and a $85,000 Ozarka Grant for the construction of a building to house our Nursing Program and Construction Technology Program. This building was completed in June, 1979.

The Seminole Chamber of Commerce continued its support of the scholarship program and raised some $18,000.

Enrollment has stabilized, and a new program, Medical Lab Technology, has been added.

Seminole Junior College is appreciative of local and state support provided in the past and looks forward to a cooperative relationship with the Oklahoma State Regents for Higher Education and the legislature.

## SOUTH OKLAHOMA CITY JUNIOR COLLEGE

PRESIDENT DALE L. GIBSON

**Oklahoma City, Oklahoma**

After the first six years of rapid growth, 1978-79 was initially to be a year of pulling things together — a year of carrying out things already under way: implementing the wage/salary plan through its first year of operation, implementing a new grading system, adopting a Due Process Procedure, conducting a needs survey of citizens in the district concerning their feelings and attitudes towards the colleges, completing Stage B of Phase II of the Career Learning Center so that the additional technical programs could be housed closer to Stage A, remodeling and occupying Garfield Elementary School to serve as a temporary base for Community Service operations, and all of these things were completed.

A major accomplishment that comes to the forefront is the development and implementation of a marketing plan for South Oklahoma City Junior College. The plan enlisted the support of all of the managers, faculty, and staff in *some* way, and the first dividends were a 38 percent increase in headcount for the March entry point and a 209 percent increase in headcount for the May entry point compared to the same periods last year. Also, a report from the Oklahoma State Regents for Higher Education showed that SOCJC's 28 percent increase in summer enrollment was the largest increase in the state. Continued growth has been experienced in Community Services with 17,013 persons being served during fiscal 1979 compared to 15,379 persons being served during fiscal 1978. Another "beginning" has been in the technical area with programs such as the one developed at the request of the Oklahoma City Motor Car Dealers Association and the courses being taught at the request of Western Electric and Star Manufacturing. The faculty and staff of the institution have been very supportive of the marketing plan through their concern, participation in specific activities, and in the development of the attitude that "We really do care about each student at SOCJC."

The Board of Regents, administration, faculty, and staff of South Oklahoma City Junior College have worked together to make 1978-79 a successful year and everyone looks forward to the challenges of an even more successful 1979-80.

## TULSA JUNIOR COLLEGE

### PRESIDENT ALFRED M. PHILIPS

### Tulsa, Oklahoma

The past nine years have been years of development and growth for Tulsa Junior College. Enrollment in programs leading to an associate degree or credit certificate has increased from 2,796 students in 1970, to 9,272 students in 1978. Enrollments in the Special Programs non-credit area have grown from a few hundred students in 1971 to around 3,000 this past year.

From a rather humble beginning, using three floors of the former Sinclair Building, the College has developed the entire city block between Boston and Cincinnati Avenues and Ninth and Tenth Streets into a modern and functional Metro Campus. As a further step in the fulfillment of a master plan for development, the first building of the Northeast Campus at Apache and Harvard Avenues was completed and occupied in December for spring semester classes.

Other developments in instruction and in student and community services were accomplished this past year. Notable among these were new technical-occupational programs opened in the following areas: Automotive Technology, Community Service Leadership, Mortgage Banking, Personnel Assistant, and Postal Service Leadership. Forty-one percent, over 3,800 of the total student enrollment in credit programs, was in the technical-occupational area.

Special Programs continued to provide a broad spectrum of non-credit, community interest courses to the area. The classes are self-supporting in that student tuition pays for the class instruction. The average student enrollment each semester was 2,541. While the College is not able to qualify this fact with specific data and must rely upon informal conversational "feedback," it is becoming increasingly apparent that more people are using Special Programs as a means to gain personal self-confidence for later entry to the credit program mainstream.

Counseling and advising of students is an important part of the daily operation of the College. The addition of a one-credit hour "Career Exploration" class this past year has enhanced the counseling services, and provided greater accessibility of the two-computer, career-guidance systems — SIGI (System of Interactive Guidance and Information) and GIS (Guidance Information System).

A major achievement this year was notification by the North Central Association of Colleges that Tulsa Junior College has received a continued full accreditation status by the Association for ten years. The College was fully accredited by this regional accrediting association in 1974 and was revisited for review and evaluation in 1979.

Tulsa Junior College looks forward to a very successful tenth year of operation.

## WESTERN OKLAHOMA STATE COLLEGE

PRESIDENT W. C. BURRIS

Altus, Oklahoma

During 1978-79, Western Oklahoma State College continued to pursue its central purpose of serving the people of western and southwestern Oklahoma by providing educational diversity without sacrificing educational quality.

WOSC registered 1,625 students in the 1978 fall semester, and the 1979 spring registration showed a 4% increase over the fall with 1,690 students, a number exceeding all previous spring enrollments. Also, summer, 1979 registration, with 665 students, showed a 26% increase over summer, 1978.

Several areas of the college expanded in 1978-79. The aviation program gained the capabilities for pilot instruction; and, as a result, five new aviation courses were added to the fall, 1978 schedule. One new faculty member was employed in the agriculture program; three new courses were added to the agriculture curriculum, and a varsity rodeo team was organized.

For the first time, WOSC offered special extension courses in outlying communities. Also, the WOSC Dunlap Televised Instruction Center, through the State System of Televised Instruction, gained the capability to allow graduate students to earn a master of business administration degree. Improvements in the Learning Resources Center include addition of a new microfilm-microfiche reader-printer and an increase in library volumes of 3,800.

The office of financial aids had a 40% increase in applications for various types of aid this year, indicating improved communication to students of the services available. Also, financial aids had 10% more scholarship funds and 26% more work-study funds to distribute. For the first time, 1978-79 WOSC students were able to borrow through the Oklahoma Student Loan Program.

As the fiscal year began, construction was already under way on the new outdoor physical education recreation facility, designated as Phase II Section V Construction in the Revised Campus Master Plan. Consisting of two regulation tennis courts, a baseball diamond, a field house, dugouts, bleachers for 300 spectators, and parking for 100 cars, the $400,000 physical education facility is designed to accommodate the present ongoing PE programs, varsity athletics and community service programs. The outdoor PE facility was completed during the fall semester, 1978, and it was officially dedicated April 14, 1979. Construction of Unit I of a new technical-occupational education facility was begun in November, 1978, with a completion date of August 1, 1978. Designated as Phase III, Section I, Unit I in the Revised Master Plan, the $350,000 building was designed to house the programs of Child Care and Home Economics, Law Enforcement and Corrections, Aviation Education and Graphic Arts.

In January, 1979, WOSC employed a special consultant for technical-occupational education to work with the academic dean in determining the proper procedures for the separation of the tech-ed programs from the other academic divisions of the college. He studied the ongoing tech-ed programs, surveyed the training needs of southwestern Oklahoma, and made recommendations for a five-year plan for further development of technical-occupational education at WOSC. On April 11-12, 1979, a Technical-Occupational Education Evaluation Committee representing the OSRHE conducted an on-site inspection of WOSC, evaluating the tech ed programs as they related to the achievement of the institutional goals and purposes and determining the extent to which the standards and regulations prescribed by the OSRHR had been satisfied.

With the end of the 1978-79 fiscal year, Western Oklahoma State College completed a successful eighth year as a member of the Oklahoma State System of Higher Education.

## SAYRE JUNIOR COLLEGE

PRESIDENT HARRY PATTERSON

**Sayre, Oklahoma**

The period covered in this report is from July 1, 1978 through June 30, 1979. This is the forty-first year Sayre Junior College has been in operation. Enrollment during this period was 411 students, this is the largest enrollment in the history of the school. We are proud of this enrollment since we are in a sparsely-populated section of the state. Our overall enrollment includes less than one percent alien students.

The health-careers program remains to be one of the strong parts of the curriculum. During this period an agreement was reached with the Ft. Sill Army Hospital to let our Radiography Technician students do intern work at their army hospital.

Sayre Junior College received national recognition in the C.P.R. training classes when Natomas Oil Company sent their employees here from five states to receive their training.

The Baptist Student Union center was completed across from the college dormitory. The building has 2,400 square feet of floor space and gives the students a place for recreation and leisure time while not in class.

Salary increases averaged about $1,100 for each faculty member. A fringe-benefit package is being considered for the staff and faculty. As more funds become available, it is hoped we can increase our salaries and benefits in line with other higher education institutions.

57

Continued emphasis was placed on the library with $16,000 being spent for equipment, books and library materials. A large percent of this money was used to increase our medical and reference materials.

We have surveyed the community and are attempting to meet its needs. Several courses and workshops have been offered this past year. We continue to be receptive to constructive community programs.

Even though we are small and isolated, we are continuing to offer quality education at a cost comparable to other institutions in the state, and our students continue to be well received by them. It is our goal to continue to offer quality education in this area of the state.

## BARTLESVILLE WESLEYAN COLLEGE

PRESIDENT JOHN M. SNOOK

**Bartlesville, Oklahoma**

Bartlesville Wesleyan College is the only college The Wesleyan Church sponsors west of the Mississippi. Consequently, the College has a good student pool to draw from to maintain healthy enrollment increases. Bartlesville Wesleyan College believes in quality education in a Christian environment, and we are willing to articulate to all that our philosophy at Wesleyan is that of dignity, dedication and discipline. We believe these three ingredients will contribute to every student who matriculates through our academic programs and encourage each individual to develop into a scholar who can accept the responsibilities necessary for our accelerated society.

In 1978-79 a new fund-raising program called the Gap Scholarshare Fund was developed to help the College maintain a reduced tuition rate. It was basically designed to pick up the difference between what the student pays to attend BWC and what it actually costs the College to provide an education to our students.

Bartlesville Wesleyan College has also developed an organization called the President's Club, composed of individuals who make annual contributions of $1,000 to the General Fund of the College. These support individuals act as the College's human endowment fund as there are no other governmental or philanthropic commitments to the College.

In 1978-79 BWC commissioned a group of five students, The Freedom Singers, to travel for the College on a full-time basis for one semester to hold local concerts in our areas of concentration in the western part of the United States. Their basic assignment is the recruitment of students and the development of a "friendship base".

In 1978-79 Wesleyan College started construction of our Performance Center. This new facility will help develop our basketball and athletic programs. It is anticipated that the College will be stronger contenders in intercollegiate basketball.

This year was a good year for us in the area of new students. We placed four additional modular units on campus, three for women and one for men for future emergency expansion of campus students. In 1978-79 we set the record for the highest number of campus students thus far. Our long-range goal of 150 new students in 1979-80 and 200 on-campus students in 1980-81 will be alleviated with the addition of these units.

Bartlesville Wesleyan College continues to provide opportunity to her students as well as intellectual attainment. During the spring semester of 1978 the students enrolled in a course entitled "Wesley England Trip". The course provided an expanded opportunity in history that wasn't afforded in a regular classroom setting.

Other service-oriented programs include casework, ministerial internship, the Reading Clinic Program, teacher education field observation, teacher education junior professional training, Christian service and Christian ministries.

The Suzuki Music Program offers instruction in piano, violin and cello. Over 100 were enrolled in this program for 1978-79. This program provides Bartlesville Wesleyan with many community contracts, which are advantageous to the College as a majority of our students are from the city of Bartlesville.

Several key Bartlesville businessmen and civic leaders voiced strong support of Bartlesville Wesleyan College during "A Night with the President" community dinners held in May. The evenings included music by The Freedom Singers, a message from President John M. Snook on BWC's philosophy and speeches by community leaders. The dinners were well attended by community persons who expressed strong support for the College.

## BETHANY NAZARENE COLLEGE

### PRESIDENT JOHN ALLEN KNIGHT

**Bethany, Oklahoma**

Bethany Nazarene College is the recognized college for the South Central Educational Zone of the Church of the Nazarene comprising the states of Oklahoma, Arkansas, Louisiana, and Texas. One of eight regional liberal arts colleges maintained by the denomination in the United States, the college shares vital religious identity with the Church.

However, Bethany Nazarene College is non-sectarian in spirit and policy. More than 30 religious affiliations are represented in the campus personnel — students, faculty, and staff.

The College is committed to a distinct liberal arts perspective, while providing also preparation for service and leadership in selected professions. Business, education, home economics, the Christian ministry, and nursing (baccalaureate) are the professional areas in which offerings are provided at the baccalaureate and/or master's levels.

Student encollment numbers 1,339 in the fall semester of 1979, the sixth consecutive year of modest increases following a period of decline, 1968-1972.

Forty-one instructional programs are provided in the Bethany Nazarene College curriculum. Degrees may be earned in 23 academic areas, Master's degrees in Business (M.S.B.), several areas of Education, Languages, Arts, and Religion. The faculty numbers 60, 29 of whom hold doctoral degrees.

Federal grants (Title I and Title III) for 1979-80 are providing a total of $210,000 for assistance in special instructional services, career planning and placement programs, and long-range planning and management information systems.

## MIDWEST CHRISTIAN COLLEGE

### PRESIDENT STANLEY LETCHER, JR.

**Oklahoma City, Oklahoma**

Midwest Christian College was incorporated and established in 1946, as a four-year ministerial training institution. The campus is located on 44 acres within the northeast Oklahoma City cultural development area. The college is a part of a Bible college movement which is unique in the spectrum of American education. Colleges in this movement are more narrow in scope than the traditional Christian liberal arts college, in that they seek primarily to prepare for Christian leadership vocations. All degree programs at the college relate directly to some area of Christian ministry and require a major concentration in Biblical studies. The college also serves students who desire to complete foundational study in Bible and general education before transferring elsewhere to complete vocational preparation.

James Abegglen was added to the music faculty this fall in the position of Associate Professor. He will be responsible for vocal music. Jim Nagel was named Business Manager, and Jean Nagel is Financial Aid Officer. Dr. Eleanor Daniel, head of the Christian Education department, has begun a program of summer internship for all Christian Education majors. This program will be expanded to the ministry majors this year.

The Activities Building (which houses the gymnasium, student lounge, dressing rooms and classrooms) construction was delayed considerably due to material-supply delivery, but now is in its final stages of completion. Mabee Foundation granted $80,000 toward construction of Phase III of this building.

The constituency of Midwest Christian College has responded well to her needs this year, and the college finished the year in the black financially.

Enrollment is up slightly; the biggest upswing came among the married students. Additional housing was required to take care of this increase.

Midwest Christian College has begun a series of successful extension classes to further their commitment to community involvement and continuing education programs to the broader segment of society.

Our library facility was remodeled, and an additional 1,500 square feet of floor space was added.

We are at this time laying foundations for additions to our master campus plans. We are preparing to launch a program that will increase our student body and enlarge our community services.

### OKLAHOMA BAPTIST UNIVERSITY
PRESIDENT E. EUGENE HALL
**Shawnee, Oklahoma**

A number of vital and significant decisions were reached at Oklahoma Baptist University during 1978-79. These decisions include the approval of a revised curriculum and the development of a campus facilities improvement program.

OBU's new curriculum features a strong values-centered general education core, a three-hour credit base designed to facilitate transfer students, a unique freshman program of inter-related courses and greater flexibility in the major field of study.

The new curriculum, which was implemented during the fall of 1979, is the culmination of a two-year study by OBU faculty and students.

The university's new program of campus-facilities improvement includes 19 projects. The $10-million program was drafted by the university's Planning Analysis Committee and approved by the OBU Board of Trustees.

Renovation of Brotherhood and WMU Dormitories and construction of a new health/physical education/recreation/activities complex are the program's top priorities. A Tulsa architectural firm, Coleman-Ervin and Associates, has been selected to complete these three projects. In addition, the firm will update OBU's master campus plan, which it prepared in 1967.

Full-scale renovation work is scheduled to begin on Brotherhood and WMU Dormitories in December, 1979. Construction of the HPER complex is expected to begin during the 1980-81 academic year, with completion in the spring of 1982.

Other projects included in the campus-improvement program are the construction of a new science facility and renovation of most existing buildings.

Other major actions during the year included the development of a bachelor of business administration program. The new B.B.A. program is designed to provide a distinctive education for future business and professional leaders by integrating an excellent professional studies curriculum with an excellent liberal arts component.

The B.B.A. program also provides opportunities for students to have personal interaction with business and professional leaders through classroom seminars, cooperative education work experiences and special assignments.

Students within the B.B.A. program may choose to concentrate in one of seven areas, including accounting, finance and banking, management, marketing, office administration, economics and health-care administration.

OBU also installed a new computer system during the past year. The new computer, a Hewlett-Packard 3000 III, has a large storage capacity and word-processing abilities.

In addition to providing better computer services for the entire university, the new terminal-oriented system will also allow OBU to offer a new program in computer science.

Some 279 students graduated from OBU during the past year. Of these graduates, 57 percent were from Oklahoma, with the remaining graduates representing 33 other states and five foreign countries. These students earned degrees in over 25 areas of study, ranging from business administration to nursing and from religion to elementary education.

## OKLAHOMA CHRISTIAN COLLEGE

PRESIDENT J. TERRY JOHNSON

Oklahoma City, Oklahoma

Several events highlighted the 1978-79 academic year at Oklahoma Christian College. The institution continues to grow in numbers and academic stature.

An enrollment of 1,529 students was the fifth consecutive record enrollment. This figure compares with 1,236 in 1974. During this same period the College's faculty grew to a full-time equivalent of 56.33%.

Financially the institution remains sound. An increasing endowment promises an ever-growing resource for operating support. The net worth of the campus plant has more than doubled in the past five-year period.

The Business Division has become the largest academic department on campus. Over 370 students have chosen a business-related major at Oklahoma Christian College. This surging enrollment suggests the need to make plans for a new business facility.

Certainly a high point for the 1978-79 year was the Gala Week held in honor of the recently completed Garvey Center for Communications and Fine Arts. News analyst Howard K. Smith, Oklahoma artist Charles Banks Wilson, and famed operatic baritone Robert Merrill were on hand to officially dedicate this facility. This building was one of eight constructed on the campus since 1975.

The College continues under the leadership of President J. Terry Johnson, Chancellor James O. Baird, Executive Vice President R. Stafford North and Vice President Guy J. Ross.

## OKLAHOMA CITY UNIVERSITY

PRESIDENT DOLPHUS WHITTEN, JR.

**Oklahoma City, Oklahoma**

Oklahoma City University, located in the geographical center of the capital city, serves a dual role as Oklahoma City University and the United Methodist University of Oklahoma.

Dr. Dolphus Whitten, Jr., who joined the University in 1958 and served as President since 1970, retired effective June 30, 1979. Through official action of the Board of Trustees, Dr. Whitten has been appointed President Emeritus of Oklahoma City University.

On June 15, 1979, Dr. Jerald C. Walker was named as President of Oklahoma City University. Dr. Walker, 1960 graduate of OCU, formerly served as President at Baker University in Baldwin City, Kansas, and held administrative positions at Southwestern University at Georgetown, Texas, John J. Pershing College, Beatrice, Nebraska, and Nebraska Wesleyan University.

The University is organized into four academic divisions of Arts and Sciences, Management and Business Sciences, Law, and Music and Performing Arts. The University offers degrees of Bachelor of Arts, Bachelor of Science, Master of Criminal Justice Administration, Master of Arts in Teaching, Bachelor of Business, Master of Business Administration, Master of Science in Accounting, Bachelor of Music, Bachelor of Performing Arts, Master of Music, Master of Performing Arts, and Juris Doctor.

The University offers an MBA program at Tinker Air Force Base, a physics program at FAA and several courses at the Lexington Treatment Center.

Several studies, evaluations, and reorganizations were implemented during the year. Under the leadership of Mr. Larry Woodard, Vice President for Development, an extensive review and analysis of the University's development, public relations, and alumni programs were completed. Public information efforts were intensified, fund raising planning was coordinated through appropriate committees, and alumni objectives were developed. The business affairs department implemented an improved and less expensive insurance program. A program designed to reduce the NDSL default was successfully launched. The office of academic dean was instituted during the spring semester, 1979 and is charged with the responsibility of administering the academic programs of the College of Arts and Sciences, School of Management and Business Sciences, and the School of Music and Performing Arts.

During the 1978-79 year, the trustees approved an expenditure of $1,170,000 to renovate the Gold Star Memorial Building. A major portion of the building will be assigned for use by the Law School. The College of Arts and Sciences will continue to use one wing of the fourth floor.

The American Bar Association accreditation study continued during the year. Accreditation was continued with a final on-site visit scheduled for fall, 1979.

The University's revised general education program was approved and is to be implemented beginning fall, 1979. We continued to offer special programs in bilingual education, Indian education, Suzuki string program, aviation business management, and ballet.

The annual Mid-Year Institute was conducted January 8-12, 1979 with a theme, Big Government: Master or Servant. Featured speakers included Mr. George Bush and Dr. James Boren.

Oklahoma City University continues to sponsor a variety of cultural events throughout the year including drama, ballet, Lyric Theater, Chamber Music, Junior Symphony, Children's Theater, dance, and musical theater.

## OKLAHOMA MISSIONARY BAPTIST COLLEGE

PRESIDENT R. T. PERRITT

Marlow, Oklahoma

The past year has given us reasons for mixed emotions. These feelings are not those of the man who said that he had mixed emotions when he saw his mother-in-law drive his new Cadillac over a cliff. But they are feelings that have grown out of happenings related to our institution and its distinct personality.

As an institution dedicated to teaching and training ministers and other Christian workers for more efficient performance of work, especially with emphasis upon our Missionary Baptist ecclesiology, naturally we have some pleasures, problems and situations peculiar to us. At times these have a way of shifting our short-range plans to long-range plans and vice versa. In the past year we have experienced this very thing; however, we feel that the experience is not a disadvantage, but an advantage for our school.

During the year we have witnessed an increase in our total institutional community. Inactive donors have renewed their financial support, and new donors have begun to add their donations for the maintenance of our educational program. Furthermore, regular contributors have increased the amount of their contributions. Increase of this nature has permitted us to expand our services to the college constituency as a whole. Not only have we seen an increase in our college community insofar as finances are concerned but also in the student body and the average course-load of our students. This has given us encouragement.

While enjoying an increase in some ways, we are likewise thrilled to report a sizable decrease in our building indebtedness. Through the response to an appeal to pay off the indebtedness against our new facilities, we have raised thousands of dollars extra to apply against the note. We now have less than $10,000 to go to "wipe out" that debt.

Realizing that we have not been able to accomplish all that we desired but knowing what has been done, we do have mixed emotions. With what has taken place thus far, we eagerly anticipate the future with its favorable potential for us.

## ORAL ROBERTS UNIVERSITY
PRESIDENT ORAL ROBERTS
**Tulsa, Oklahoma**

During the 1978-79 academic year, Oral Roberts University increased its student enrollment to 4,001 students, including 3,652 undergraduate students, 304 graduate students, and 45 students in upper- graduate students, 304 graduate students, and 45 students in upper level professional programs; opened the School of Dentistry with 25 students, and dedicated it on August 21, 1978, with Dr. Frank Bowyer, president of the American Dental Association, giving the major address; opened the O.W. Coburn School of Law during the summer of 1979 with nine students, and 88 were accepted for the school's entering class, scheduled to begin in August 1979; made final preparations for the acceptance of the first class and opening of the master's-level nursing program in the Oral Roberts University Anna Vaughn School of Nursing; began a full-scale summer school program, enrolling 900 credit and 300 noncredit students in 100 programs, with enrollment in all seven schools of the University.

Construction of the City of Faith Medical and Research Center was begun. The Certificate of Need for the 30-story hospital portion of the complex (which was granted in April, 1978 and was appealed by opponents of the hospital to Tulsa District Court in December, 1978) is currently under consideration by the Oklahoma State Supreme Court. Construction was topped out on the 30-story hospital and construction continued at a rate of one floor per week on the 60-story diagnostic center.

Oral Roberts University also underwent preparations for accreditation status in two schools and received accreditation in another during the 1978-79 year. ORU received provisional accreditation from the Liaison Committee on Medical Education on November 28, 1978. The accreditation status followed the completion of ORU's affiliation agreement October 1, 1978 with Tulsa's St. John Medical Center for clinical training of a portion of the students.

ORU made preparations to meet accreditation standards by fall, 1980, from the American Bar Association.

A comprehensive self-study was begun by the School of Theology in preparation for full accreditation status by the Association of Theological Schools. The ORU School of Theology is currently accredited at the first professional degree level (which includes both the Master of Arts and the Master of Divinity) by North Central.

Active expansion of programs within the various schools was undertaken. During the academic year, ORU established a Provisional Medical Student Program allowing sophomore-level students interested in pursuing a career in medicine to pursue a special course of study (which includes clinical experience) during their last 2 years of undergraduate work; explored the possibilities of establishing joint-degree programs between the O. W. Coburn School of Law and the Schools of Business and Theology; began feasibility studies in preparation for both a master's in health-care administration program in the School of Business, and a part-time MBA program to expand the full-time MBA program already established; and expanded course material in the Master of Arts in Theology to include a wider range of theological and historical studies.

With the acceleration of University programs and projects, development and expansion of special services was essential during the 1978-79 year in several areas.

## PHILLIPS UNIVERSITY

### PRESIDENT JOE R. JONES

**Enid, Oklahoma**

On October 11, Phillips University inaugurated Dr. Joe R. Jones as its seventh president. Dr. Jones, 43, was elected to the position in July, replacing Dr. Samuel E. Curl, who resigned the presidency to become Dean of the College of Agricultural Sciences at Texas Tech University.

An Oklahoma City native, Dr. Jones joined Phillips in 1975 as dean of the Graduate Seminary. He received his B. A. from the University of Oklahoma; B. D. from Yale Divinity School; and M. A. and Ph.D. from Yale Graduate School. Dr. Jones has also spent a year as research scholar at Oxford University in England.

Prior to joining Phillips as dean, Dr. Jones served for ten years on the faculty of the Perkins School of Technology at Southern Methodist University in Dallas.

With the election of Dr. Jones as president, Dr. James Caton, assistant professor of practical theology, is serving as the seminary's acting dean, and a search is under way to select a new dean.

Dr. Jones' first major administrative staff appointment has been Ray "Dutch" Scott, vice president for finance and operations. A two-time candidate for the Illinois State Senate, Scott has served as business manager for the College of Liberal Arts and Sciences at Northern Illinois University in DeKalb for the past nine years. An executive search is also under way for a vice president of development.

More than $9 million has been raised in the university's "Quest for Excellence" capital program, which included $870,000 from the J. E. and L. E. Mabee Foundation of Tulsa to construct the university's Mabee Center for Health, Physical Education and Recreation.

The Graduate Seminary also received two major gifts the past year. Lilly Endowment Incorporated awarded a $25,250 grant to help underwrite the seminary's development program, and the First Christian Church, Hot Springs, Arkansas, endowed four scholarships and established a theological bookstore with a $110,000 gift.

Phillips entered its 72nd academic year with an enrollment of 1,284 students from 38 states and 15 foreign countries. Its off-campus study programs at the Folkhogskola (People's College) of Mullsjo, Sweden, and science camp in the Colorado Rocky Mountains continue to attract enthusiastic participation.

## THE UNIVERSITY OF TULSA

**PRESIDENT J. PASCHAL TWYMAN**

**Tulsa, Oklahoma**

During the past reporting period, the University initiated the most ambitious undertaking since its founding in 1894, the Dimensions for a New Decade campaign. Its goal is to secure $43 million in new funding to allow the University to implement a 10-year plan of enrichment in academics and physical facilities. Nearly $30 million was pledged by the end of the period.

In addition, the University sustained strong budgetary expansion while maintaining an overall balanced budget. This allowed the institution to continue recruiting distinguished faculty as well as to pursue ongoing physical growth and improvements.

The period was highlighted by several academic achievements. In its first year under Dean Nicholas Sylvester, the College of Engineering and Physical Sciences posted a record undergraduate enrollment of nearly 1,000 students — of which 14.8 percent were women — and a record number of more than 200 bachelor's degrees awarded. Substantial new research programs were initiated in enhanced oil recovery, geophysical exploration, and coal gasification. The Engineers' Council for Professional Development awarded the electrical and mechanical engineering programs full accreditation, and the college's programs are now all fully accredited.

In the College of Law, a gift was secured to expand the John Rogers Hall Law Library. When completed, this will double the law library space as well as providing space for faculty expansion and the college's growing research activities.

A Helene Fuld Foundation grant provided funds to remodel the audiotutorial learning laboratory in the College of Nursing. The grant will also allow expansion and improvement of the instructional program and services to students.

In the Graduate School, a new interdisciplinary program in environmental science was approved to accept admissions in 1979-80. The Graduate Program in Modern Letters also introduced a new master's degree emphasis, Writing in the Professions.

The Division of Continuing Education increased the number of its offerings with every college represented. Enrollments increased 84 percent to 6,515, and gross income exceeded $700,000.

Development of an honors program for gifted students was a major step for the College of Arts and Sciences. It will become effective in the 1979-80 academic year.

The University was awarded $1,839,249 for research and academic programs from private and government sources, a 22.4 percent increase over last period. Significant new proposals funded this year included Investigation of Drill Cutting Transport in Aerated Drilling Operations, Bibliographic Citations and Abstracts on Enhanced Recovery of Petroleum and Natural Gas, and Stability of Natural Gas in the Deep Subsurface. Also included were the Community Interaction in Early Education Program and Ethnohistoric Research in the Navajo Indian Irrigation Project. This was the fifth consecutive year that sponsored projects received more than $1 million in funding.

The University also provided major support for five internally funded programs. These were faculty research grants, student research grants, faculty summer research fellowships, faculty research travel grants, and research equipment grants. In all, 79 internal grants were made totaling $56,035.

Enrollment remained stable at 6,238, which is 28 less than the 10-year average of 6,266. The College of Law posted a 2.7 percent gain followed by the College of Engineering and Physical Sciences with a 1.4 percent gain. The College of Nursing enrollment of 315 equaled the 1977 mark. The remaining three colleges and graduate school recorded nominal enrollment declines. New freshmen enrollment increased from 749 in fall 1977 to 757 last year, and their mean high school grade point average reached a new high of 3.13 on a 4.0 scale.

Volumes added to University libraries during 1978-79 numbered 75,525, the largest quantity ever processed at this institution in a single year. Total library holdings, including microforms, reached 1,003,009, an increase of approximately 650,000 in the past 10 years.

Construction of the $3.3 million, multi-level, underground addition to McFarlin Library was completed, which not only doubled the facility's capacity, but included a plaza and fountain at the base of the University's "U." A $750,000 Student Services Center, included among the objectives of the University's capital campaign, was secured with a major gift, and construction should begin in 1979-80. Additional property was also added to the campus area at a cost of $248,750.

Total current fund revenues increased $1,879,231 over the previous year to reach $26,361,255, while total assets increased $8,058,606 to $72,522,000. Also during the fiscal year ending May 31, 1979, total educational and general expenditures were $22,531,208, up about $2 million from the previous year.

Approximately 4,000 students received more than $6.2 million in financial assistance from all sources. This represents an increase of more than $660,000 over the previous year. Financial aid from private sources was $2,216,348 and from public sources was $4,044,863.

## BACONE COLLEGE

### PRESIDENT DEAN CHAVERS

### Muskogee, Oklahoma

Bacone College has entered its one-hundredth year of service in higher education to the American Indian with the leadership of a new president and with major plans for the second one-hundred years.

Dr. Dean Chavers became the fourteenth president on June 1, 1978. Concurrent with his assuming the presidency, the Board of Trustees established a Centennial Commission with the goals of (1) celebrating the events of the past, and (2) preparing for the future, with emphasis on the latter.

Some of the events planned for the Centennial are a touring exhibit of the finest of the Bacone school of art, an artist-in-residence program, a major convocation of scholars, hosting some dozen or more meetings of professional and religious groups on the campus, and establishment of an Indian museum on the campus.

As part of the self-study of the college program, a number of planning actions were done, including the development of faculty, staff, business, and policy manuals, one-year plans for each administrative office, the establishment of a Planning Council, centralization of functions, and the development of a new orientation course required of all entering freshmen.

New programs launched were a gifted and talented program for Indian students, an Upward Bound program, a Native American Studies program, and a formal Student Activities program. Other activities included instituting an MBO management system, the renovation of two dorms, and a pastoral development conference.

## HILLSDALE FREE WILL BAPTIST COLLEGE

PRESIDENT DON ELKINS

Moore, Oklahoma

One hundred eighty-three (183) students had enrolled at Hillsdale Free Will Baptist College by the end of August, 1978. Another fifteen (15) students enrolled in January for a total enrollment of one hundred ninety-eight (198).

The 1978-79 school year at Hillsdale Free Will Baptist College ranks among the finest we have ever experienced. Young men and young ladies have responded to the call of the ministry and the mission field. Many others have been active in the local church outreach and are developing a tremendous concern to extend the Kingdom of God.

Academically our faculty has gained in experience and stature as teachers. That experience is translated into learning for the students.

The Learning Resources Center had added to its book collection the beginning of a microfiche collection that will double the resources available without having to expand a single bookshelf.

Student involvement in activities to promote the school have been the best that have ever been. Students have acted as hosts at the missions conference and the Bible conference. They have raised money by special projects. But even more they have begun to discern the excellency in Christianity and reach for it.

The 1979-80 school year has everyone filled with excitement about the bright future for Hillsdale Free Will Baptist College.

## ST. GREGORY'S COLLEGE

**PRESIDENT MICHAEL ROETHLER**
**Shawnee, Oklahoma**

St. Gregory's College opened its Fall Semester on August 29, 1978 with an enrollment of 282 students of whom 273 were full time. Upon completion of the academic year, the College conferred The Associate Degree upon 5 graduating sophomores as follows: Associate of Arts, 6; Associate in Science, 27; Associate in Applied Science, 3.

The major thrust of the administration and staff was the review for accreditation by the North Central Association which was held in the Spring of 1979. All were pleased with this evaluation which resulted in a 10-year continuance of accreditation.

Also, in the Spring of 1979, construction was completed on the Mabee-Gerrer Museum and Art Gallery. The structure is designed in the shape of a pyramid. In addition to two Egyptian mummies, the collection contains over 6,000 artifacts of ancient civilizations. Furthermore, it houses over 400 major oils and over 300 etchings, lithographs, and engravings of all periods of art. This collection has added a signficant dimension to the College as it attempts to serve its various communities.

The College's Community Services Program established new records in its attempt to meet the non-traditional learning needs of the community. Through its short courses and special events, it attracted 4,243 participants. In addition, 4,068 participants utilized the college facilities while another 2,792 people utilized the college swimming pool. In doing so, the program continued to be financially self-supportive.

During this academic year, a Program for Youth Ministry was added to the curriculum. This program, designed to prepare young people to work as parish youth directors and assistants, was designed in close consultation with the Archdiocesan Youth Office.

Also, the College's Medical Laboratory Technology Program was terminated at the end of this academic year. Even though the program had operated very successfully over the past ten years, it would have been impossible for the College to attract sufficient funds and resources to meet the new requirements for accreditation and eligibility for the national registry examinations. As a result, the College has designed several carefully structured programs of arts and sciences preparatory to admission to the upper level of a "two-plus-two" baccalaureate program at a four-year college or university.

Overall, 1978-1979 was a year of evaluation and continued growth, as the faculty and students rededicated themselves to the educational goals of St. Gregory's College.

## OKLAHOMA CITY SOUTHWESTERN COLLEGE

### PRESIDENT SCOTT T. MUSE, JR.

### Oklahoma City, Oklahoma

The past year has been an important year for Oklahoma City Southwestern College. The on-site evaluation team from North Central Accrediting Agency of Secondary Schools and Colleges visited the campus for three days in November, 1978. The team recommended that the accreditation of OCSC be continued at the Associate Degree granting level; that the accreditation of the institution be extended to the Bachelor Degree level; that accreditation at the Bachelor's level be limited to the existing Theology and Christian Ministries programs. The Bachelor Degree programs had been accredited by the Oklahoma State Regents for Higher Education.

We were able to operate with a balanced budget for 1978-79, and the college received several substantial gifts from supporters.

Much time and effort have been spent through committees in reviewing and updating curriculum, policy and goals of the college.

Ten-year conservative goals have been established for the college with special emphasis on improving the library, reducing international students as American students are increased and strengthening the college financially.

## SPARTAN SCHOOL OF AERONAUTICS

### PRESIDENT VERNON M. SETTERHOLM

### Tulsa, Oklahoma

Spartan School of Aeronautics has had a year of continued growth and progress in meeting the changing needs of the aviation industry. Enrollment continues to increase. We now have in excess of 1,700 FTE students and have conferred the Associate in Applied Science Degree upon 65 graduating students in 1979. Many of these graduates have elected to continue their education at other institutes of higher education. Southeastern Oklahoma State University at Durant accepts a significant number of our graduates into their programs. Our graduates continue to be successful in finding employment in their chosen fields.

Spartan has reviewed its courses for upgrading and relevancy. We have revised and lengthened our Remedial Mathematics Course to provide greater assistance to those students who lack mathematical skills. We have strengthened our course in Non-Destructive Testing and have added new test equipment to enhance the training of those technicians. We have added new subject materials to our Aviation Electronics and Aviation Instrument Courses. The demands of the industry indicated a need for additional training in microcircuitry, and we have revised our courses to meet these demands. As a result of these changes, Spartan has built and equipped six new classroms and two new electronics laboratories. Spartan has also purchased 11 new aircraft for the School of Flight and 20 engines to support the aircraft maintenance course.

Spartan continues to be a factor in international education. We currently have over 300 foreign students representing 35 countries.

This past year has been productive for Spartan School of Aeronautics, its graduates and staff. We appreciate the thoughtful guidance, cooperation, and assistance we have received this past year from the Oklahoma State Regents for Higher Education.

# CHAPTER II

# HISTORICAL AND STATISTICAL INFORMATION

## OKLAHOMA HIGH SCHOOL GRADUATES—1979

Some 39,225 young people completed the 12th grade and were graduated from high school in Oklahoma in May, 1979. Herewith are the numbers by county.

| | | | | | |
|---|---|---|---|---|---|
| Adair | 260 | Grant | 89 | Nowata | 123 |
| Alfalfa | 108 | Greer | 76 | Okfuskee | 159 |
| Atoka | 149 | Harmon | 62 | Oklahoma | 6,924 |
| Beaver | 120 | Harper | 80 | Okmulgee | 523 |
| Beckham | 192 | Haskell | 144 | Osage | 293 |
| Blaine | 203 | Hughes | 178 | Ottawa | 465 |
| Bryan | 389 | Jackson | 459 | Pawnee | 182 |
| Caddo | 527 | Jefferson | 102 | Payne | 632 |
| Canadian | 752 | Johnston | 118 | Pittsburg | 584 |

[a] Excludes enrollments in off-campus centers and those in adult education or correspondence courses.

## ENROLLMENT OF VETERANS IN OKLAHOMA

Public Law 89-358, Veterans' Readjustment Benefits Act of 1966, gives educational benefits to veterans, certain veterans' dependents, and service men with more than six months active duty after February 1, 1955. Since original enactment, amendments have passed increasing monthly benefits, providing additional entitlement to undergraduate veteran students, and extending to ten years from date of discharge for completion of training.

### VETERAN ENROLLMENT AS OF OCTOBER, 1979

| | |
|---|---|
| Total Enrollment in Oklahoma | 11,434 |
| Institutions of Higher Learning (4 yr.) | 6,140 |
| Hospital Schools | 5 |
| Institutions of Higher Learning (2 yr.) | 3,829 |
| Business Schools | 14 |
| Secondary and Elementary Schools | 2 |
| Vocational-Technical Schools | 388 |
| Farm Cooperative Program | 73 |
| Trade Schools | 264 |
| Flight Schools | 193 |
| On-the-job/Joint Apprenticeship Training | 526 |

# ACCREDITED INSTITUTIONS IN OKLAHOMA HIGHER EDUCATION

Institutions listed below are fully accredited by the Oklahoma State Regents for Higher Education as of July 1, 1979. These institutions are also accredited by the North Central Association, the regional accrediting agency, except those indicated by an asterisk. Those institutions that are candidates for regional accreditation are indicated by a double asterisk.

| Institution | Location |
|---|---|
| COMPREHENSIVE AND REGIONAL STATE UNIVERSITIES | |
| University of Oklahoma | Norman |
| Oklahoma State University | Stillwater |
| Central State University | Edmond |
| East Central Oklahoma State University | Ada |
| Northeastern Oklahoma State University | Tahlequah |
| Northwestern Oklahoma State University | Alva |
| Southeastern Oklahoma State University | Durant |
| Southwestern Oklahoma State University | Weatherford |
| Cameron University | Lawton |
| Langston University | Langston |
| Oklahoma Panhandle State University | Goodwell |
| University of Science and Arts of Oklahoma | Chickasha |
| The Oklahoma College of Osteopathic Medicine and Surgery (Professional College) | Tulsa |
| STATE JUNIOR COLLEGES | |
| Carl Albert Junior College | Poteau |
| Claremore Junior College | Claremore |
| Connors State College | Warner |
| Eastern Oklahoma State College | Wilburton |
| El Reno Junior College | El Reno |
| Murray State College | Tishomingo |
| Northeastern Oklahoma A&M College | Miami |
| Northern Oklahoma College | Tonkawa |
| Oscar Rose Junior College | Midwest City |
| Seminole Junior College | Seminole |
| South Oklahoma City Junior College | Oklahoma City |
| Tulsa Junior College | Tulsa |
| Western Oklahoma State College | Altus |
| *Sayre Junior College (Community Junior College) | Sayre |

| Institution | Location |
|---|---|
| INDEPENDENT SENIOR COLLEGES | |
| Bartlesville Wesleyan College | Bartlesville |
| Bethany Nazarene College | Bethany |

## OKLAHOMA STATE SYSTEM OF HIGHER EDUCATION STATE SCHOLARSHIPS GRANTED 1978-79

State scholarships are authorized by the State Regents on the basis of one percent of the Educational and General Operating Budget of the previous year as a maximum total at each institution.

| Institution Granting Scholarship | Number of Students Helped | Amount of Funds Used | Maximum Funds Authorized |
|---|---|---|---|
| University of Oklahoma | 1,233 | $418,582.19 | $402,469.57 |
| Oklahoma State University | 1,369 | 394,719.02 | 434,487.92 |
| Central State University | 404 | 96,044.50 | 158,193.70 |
| East Central Oklahoma State University | 335 | 47,711.00 | 46,961.02 |
| Northeastern Oklahoma State University | 333 | 86,826.24 | 87,920.61 |
| Northwestern Oklahoma State University | 128 | 29,304.45 | 29,308.67 |
| Southeastern Oklahoma State University | 409 | 59,923.48 | 60,124.05 |
| Southwestern Oklahoma State University | 322 | 74,581.30 | 78,440.08 |
| Cameron University | 170 | 51,610.01 | 62,612.92 |
| Langston University | 125 | 17,048.93 | 25,261.98 |
| Oklahoma Panhandle State University | 102 | 19,445.00 | 21,959.73 |
| University of Science & Arts of Okla. | 165 | 25,624.22 | 25,599.22 |
| Carl Albert Junior College | 64 | 9,085.00 | 9,202.54 |
| Claremore Junior College | 74 | 20,315.00 | 19,926.13 |
| Connors State College | 121 | 15,150.00 | 18,744.01 |
| Eastern Oklahoma State College | 123 | 25,891.00 | 25,066.48 |
| El Reno Junior College | 71 | 9,056.25 | 9,178.27 |
| Murray State College | 40 | 8,560.50 | 14,820.33 |
| Northeastern Oklahoma A&M College | 124 | 34,651.50 | 33,672.77 |
| Northern Oklahoma College | 116 | 17,923.01 | 17,361.40 |
| Oscar Rose Junior College | 336 | 66,695.12 | 73,031.06 |
| Seminole Junior College | 74 | 15,017.00 | 14,744.37 |
| South Oklahoma City Junior College | 325 | 39,657.65 | 48,654.64 |
| Tulsa Junior College | 74 | 9,066.25 | 95,643.00 |
| Western Oklahoma State College | 66 | 13,244.18 | 13,134.32 |
| TOTAL 1978-79 | 6,703 | $1,605,732.80 | $1,826,518.79 |

## GUARANTEED STUDENT LOAN PROGRAM

House Bill 1056 of the 30th Oklahoma Legislature directed the Oklahoma State Regents for Higher Education to develop a loan guarantee program to assist students in securing educational loans, Title IV-B of the Higher Education Act of 1965 provided for federal advances to the reserve fund of loan guarantee programs maintained by the several states. Final arrangements were completed in the fall of 1966 with the U. S. Office of Education so that this program could become operational.

As of June 30, 1979, a total of $409,964 in federal funds had been received for this program. This amount together with some $1,095,000 in state funds was maintained as a "reserve" against death or default. The number and dollar volume of loans outstanding by lending institutions and by educational institutions is shown in the following tables. Subsequent to the end of the last biennium, additional state funds togehter with amended federal legislation has considerably broadened the scope of this program.

## GUARANTEED STUDENT LOAN PRORAM
## "IN-SCHOOL" LOANS AS OF JUNE 30, 1979

| Institution | Total | |
|---|---|---|
| | Number | Amount |

| TOTAL | | 24,951 | $35,819,065.05 |

## STUDENT FINANCIAL AIDS

As the cost of education increases, more and more students become concerned about finances. The following seven programs which have provided assistance for more than a million students during this academic year should be of interest.

Basic Educational Opportunity Grants: This program provides for the payment of Basic Grant awards to students attending eligible institutions of higher education. All other sources of aid will be given *in addition to* the Basic Grant. The maximum grant eligibility for each student is $1800 less the amount the student and his family can be expected to contribute toward the student's education. The amount of this expected family contribution is determined on the basis of a family contribution schedule developed by the Office of Education which was printed in final form in the *Federal Register* on June 11, 1973.

College Work-Study: A program of employment in which the students, particularly one from a low-income family, is compensated for the number of hours he works for the institution, or for an eligible off-campus agency.

National Direct Student Loans: A program of borrowing, primarily for needy students, in which the student has an obligation to repay his loan, with three percent interest, within a ten-year period following college attendance.

Supplemental Educational Opportunity Grants: A program of direct grants in which the student receives a non-obligating award of funds, based on exceptional financial need and evidence of academic or creative promise.

Guaranteed Loans: A program of borrowing, primarily for students from middel or upper income families. The student has an obligation to repay his loan with seven percent interest, after completing his full-time studies.

The Oklahoma Student Loan Program: The 1972 Oklahoma Legislature enacted into law Senate Bill #618 which created the Oklahoma Student Loan Authority to provide loans to students of Oklahoma as may be needed to help pay the cost of their education. The program will supplement the existing Guaranteed Student Loan Program and will provide a lending source to eligible students who may not otherwise be able to identify a lender.

Oklahoma Tuition Aid Grant Program: A program of direct grants to financially needy students supported by matching State and Federal funds. Maximum grants amount to up to $500 per year depending upon family income, family size, and educational costs. The program which began operation during 1974-75 is administered by the State Regents.

## TITLE VII, HIGHER EDUCATION ACT OF 1965

The Oklahoma State Regents for Higher Education was designated by the Governor of Oklahoma in 1964 as the agency responsible for administration of Title VII of the Higher Education Act of 1965 (formerly Title I of the Higher Education Facilities Act of 1963).

As the State Commission for this program, the State Regents were charged with the responsibility of developing a State Plan setting forth the method for assignment of priorities to applications for federal grants for the construction of undergraduate academic facilities. The Oklahoma State Plan, developed in accordance with regulations established by the U. S. Commissioner of Education, assigns priorities on the basis of future enrollment growth and the degree of utilization of existing facilities.

As of June 30, 1979, some $1.7 billion in grants have been approved nationwide, of which amount $26,465,463 has been received by Oklahoma institutions as shown in the following table:

## GRANTS RECEIVED BY OKLAHOMA INSTITUTIONS OF HIGHER EDUCATION UNDER TITLE VII, HEFA FISCAL YEARS 1965-1979

| Fiscal Year | Institution | Type of Project | Amount of Grant |
|---|---|---|---|
| 1965 | OSU | Library | $ 275,000 |

## TITLE VI-A, HIGHER EDUCATION ACT OF 1965

In 1966, the Governor of Oklahoma designated the Oklahoma State Regents for Higher Education as the agency responsible for administration of Title VI-A of the Higher Education Act of 1965. This new program provided for matching grants for the purchase of undergraduate instructional equipment. Two types of equipment are eligible. Laboratory and other special equipment and materials may be purchased for instruction in a variety of subjects. Another part of the program involves equipment and materials for closed-circuit instructional television.

The responsibility of the State Regents with regard to this program is similar to that involved in the Title VII-A program. The State Commission develops a State Plan for distributing the available funds to Oklahoma institutions. The State Commission reviews applications, and forwards successful applications to the Office of Education in Washington for final review and issuance of grants to institutions.

Grants have been recommended by the State Commission for this program during its first eleven fiscal years in the amount of $1,918,391 as shown in the following table.

### GRANTS RECEIVED BY OKLAHOMA INSTITUTIONS OF HIGHER EDUCATION, TITLE VI-A, HIGHER EDUCATION ACT OF 1965

### FISCAL YEAR 1966

| Institution | Amount of Grant | | |
|---|---|---|---|
| Laboratory and Other Special Equipment | | | |
| Oklahoma State University | $ 45,221 | | |
| Central State University | 43,879 | | |
| East Central State College | 13,773 | | |
| Northeastern State College | 46,721 | | |
| Northwestern State College | 23,252 | | |
| Southeastern State College | 14,665 | | |
| Southwestern State College | 6,247 | | |
| Langston University | 21,621 | | |
| Oklahoma Panhandle State College | 10,247 | | |
| Claremore Junior College | 903 | | |
| Northern Oklahoma College | 1,521 | | |
| Bethany Nazarene College | 5,555 | | |
| Sub-Total | | $233,605 | |
| Closed-Circuit Instructional Television | | | |
| Oklahoma State University | 11,436 | | |
| East Central State College | 14,520 | | |
| Sub-Total | | $ 25,956 | |
| Total | | | $259,561 |

## FISCAL YEAR 1967

| Institution | Amount of Grant | | |
|---|---|---|---|
| **Laboratory and Other Special Equipment** | | | |
| University of Oklahoma | $ 27,627 | | |
| Oklahoma State University | 45,913 | | |
| Central State University | 42,846 | | |
| Northeastern State College | 43,362 | | |
| Northwestern State College | 6,687 | | |
| Southeastern State College | 7,871 | | |
| Southwestern State College | 41,237 | | |
| University of Tulsa | 14,023 | | |
| Sub-Total | | $229,566 | |
| **Closed-Circuit Instructional Television** | | | |
| Northeastern State College | 25,432 | | |
| Altus Junior College | 1,056 | | |
| Sub-Total | | $ 26,488 | |
| Total | | | $256,054 |

## FISCAL YEAR 1968

| Institution | Amount of Grant | | |
|---|---|---|---|
| **Laboratory and Other Special Equipment** | | | |
| Oklahoma State University | $ 43,739 | | |
| Central State University | 36,419 | | |
| East Central State College | 13,550 | | |
| Northeastern State College | 8,108 | | |
| Northwestern State College | 14,215 | | |
| Southwestern State College | 43,739 | | |
| Cameron College | 10,167 | | |
| Altus Junior College | 2,062 | | |
| Carl Albert Junior College | 2,959 | | |
| University of Tulsa | 43,739 | | |
| Sub-Total | | $218,697 | |
| **Closed-Circuit Instructional Television** | | | |
| Oklahoma State University | 12,659 | | |
| Northwestern State College | 12,575 | | |
| Sub-Total | | $ 25,234 | |
| Total | | | $243,931 |

## FISCAL YEAR 1969

| Institution | Amount of Grant | | |
|---|---|---|---|
| **Laboratory and Other Special Equipment** | | | |
| University of Oklahoma | $ 14,547 | | |
| Oklahoma State University | 43,411 | | |
| Central State University | 40,249 | | |
| Northeastern State College | 19,368 | | |
| Southwestern State College | 43,636 | | |
| Oklahoma Panhandle State College | 20,997 | | |
| University of Tulsa | 35,976 | | |
| Sub-Total | | $218,184 | |
| **Closed-Circuit Instructional Television** | | | |
| Central State University | 22,981 | | |
| University of Tulsa | 2,194 | | |
| Sub-Total | | $ 25,175 | |
| Total | | | $243,359 |

## FISCAL YEAR 1970

No Funds Available

## FISCAL YEAR 1971

| Institution | Amount of Grant | | |
|---|---|---|---|
| **Laboratory and Other Special Equipment** | | | |
| Oklahoma State University | $ 19,572 | | |
| Central State University | 13,959 | | |
| East Central State College | 8,331 | | |
| Northeastern State College | 9,571 | | |
| Northwestern State College | 3,423 | | |
| Southwestern State College | 19,572 | | |
| Northeastern Oklahoma A&M College | 3,863 | | |
| Southwestern College | 19,572 | | |
| Sub-Total | | $ 97,863 | |
| **Closed-Circuit Instructional Television** | | | |
| University of Oklahoma | 9,111 | | |
| Oklahoma State University | 3,474 | | |
| Southwestern State College | 3,726 | | |
| Sub-Total | | $ 16,311 | |
| Total | | | $114,174 |

## FISCAL YEAR 1972

| Institution | Amount of Grant | | |
|---|---|---|---|
| **Laboratory and Other Special Equipment** | | | |
| Oklahoma State University | $ 23,896 | | |
| Central State University | 30,975 | | |
| Southeastern State College | 30,609 | | |
| Southwestern State College | 36,030 | | |
| Seminole Junior College | 22,644 | | |
| South Oklahoma City Junior College | 36,000 | | |
| Sub-Total | | $180,154 | |
| **Closed-Circuit Instructional Television** | | | |
| Oklahoma State Regents | $ 1,282 | | |
| Seminole Junior College | 7,285 | | |
| South Oklahoma City Junior College | 16,000 | | |
| Sub-Total | | $ 24,567 | |
| Total | | | $204,721 |

## FISCAL YEAR 1973

| Institution | Amount of Grant | | |
|---|---|---|---|
| **Laboratory and Other Special Equipment** | | | |
| University of Oklahoma | $ 10,736 | | |
| Oklahoma State University | 27,386 | | |
| Central State University | 23,447 | | |
| Northeastern State College | 33,304 | | |
| Northwestern State College | 11,153 | | |
| El Reno Junior College | 8,386 | | |
| Oscar Rose Junior College | 29,734 | | |
| South Oklahoma City Junior College | 22,374 | | |
| Sub-Total | | $166,520 | |
| **Closed-Circuit Instructional Television** | | | |
| Northwestern State College | $ 367 | | |
| South Oklahoma City Junior College | 22,340 | | |
| Sub-Total | | $ 22,707 | |
| Total | | | $189,227 |

## FISCAL YEAR 1974

| Institution | Amount of Grant | | |
|---|---|---|---|
| **Laboratory and Other Special Equipment** | | | |
| Oklahoma State University | $ 31,192 | | |
| Northeastern State College | 31,192 | | |
| Southwestern State College | 31,192 | | |
| Cameron College | 11,725 | | |
| Panhandle State College | 9,188 | | |
| Altus Junior College | 7,640 | | |
| Northeastern Oklahoma A&M College | 13,582 | | |
| Tulsa University | 20,249 | | |
| Sub-Total | | $155,960 | |
| **Closed-Circuit Instructional Television** | | | |
| University of Oklahoma | 10,405 | | |
| Oklahoma State University | 7,672 | | |
| Seminole Junior College | 3,190 | | |
| Sub-Total | | $ 21,267 | |
| Total | | | $177,227 |

## FISCAL YEAR 1975

| Institution | Amount of Grant | | |
|---|---|---|---|
| **Laboratory and Other Special Equipment** | | | |
| Oklahoma State University | $ 19,729 | | |
| East Central Oklahoma State University | 6,348 | | |
| Southeastern Oklahoma State University | 12,413 | | |
| Southwestern Oklahoma State University | 19,729 | | |
| Cameron University | 10,849 | | |

| Sub-Total | | $21,393 | |
| Total | | | $106,967 |

### FISCAL YEAR 1979

No Funds Available

## COMPREHENSIVE FACILITIES PLANNING

The long-range planning efforts of the State Regents have been expanded and strengthened during the past years with the assistance of funds provided by the Higher Education Facilities Act, as amended by the Higher Education Act of 1965. From 1967 through 1974 the State Regents received $346,478 grants from this source.

These funds have enabled the State Regents to refine their system of facilities inventory and to include all private and municipal institutions in the inventory. The State Regents have also been able to convert the facilities data to computerized format and to begin the development of a computer-based comprehensive data system as the basis for long-range planning studies such as utilization and academic space needs.

As of 1974, grants for specific planning purposes are no longer available.

## REGENTS' PUBLICATIONS

The information gathered, analyzed, and published by the State Regents provides the foundation upon which sound planning is based. In addition to reports published annually, a number of special purpose documents were published by the State Regents in Fiscal 1978-79.

**Regular Reports:**

*Faculty Salaries in the Oklahoma State System of Higher Education, 1978-79*
*College and University Salaries in Ten Mid-Western States, 1978-79*
*Operating Budget Needs of The Oklahoma State System of Higher Education for the 1979-80 Fiscal Year*
*Oklahoma Higher Education Televised Instruction System, Class Schedule Bulletin — Summer, Fall, Spring*
*Enrollments in Oklahoma Higher Education — Summer, Fall, Spring*
*Nineteenth Biennial Report, Part II, Fiscal Year Ending June 30, 1978*
*Comparison of Student Costs in Public Institutions of Higher Education in 10 Mid-Western States, 1978-79*
*The Current Operating Income and Expenditures, Oklahoma State Colleges and Universities, Fiscal Year 1977-78*
*The Oklahoma Higher Education Reports*
*Facts About Oklahoma Higher Education*
*Directory, Institutions and Leadership Personnel, The Oklahoma State System of Higher Education, 1978-79*
*Student Activity Funds Income and Expenditures in The Oklahoma State System of Higher Education, 1976-77 — 1978-79*
*State Regents' Fee Waiver Scholarships in The Oklahoma State System of Higher Education for the Spring Semester, 1979*

**Special Reports:**

*Oklahoma Tuition Aid Grant Program brochure*
*Cost of Utility Services, The Oklahoma State System of Higher Education*
*Land, Buildings, and Equipment in The Oklahoma State System of Higher Education, 1976-77 — 1977-78*
*Health Careers Opportunity Day at the Omniplex brochure*
*Guaranteed Student Loan Program brochure*
*Student Fees Effective Fall Semester 1978*
*Health Careers Opportunity Program Brochure*
*Health Careers Opportunity Program Special Supplement to the Oklahoma Higher Education Report*
*The Oklahoma Higher Education State Plan for Civil Rights Compliance, Toward a New Mission for Langston University*
*The McCurtain County Higher Education Center Schedule — Spring, Summer*

# THE OKLAHOMA COLLEGE TESTING PROGRAM

In the fall of 1959 all Oklahoma institutions of higher learning, both publicly and independently controlled, began a statewide testing program for high school seniors seeking admission to college.

The Oklahoma program is affiliated with the American College Testing Program, with headquarters at Iowa City, Iowa. Approximately 962,647 high school seniors throughout the nation took the ACT examination during the 1978-79 school year.

In Oklahoma during 1978-79, some 30,735 students were tested.

Colleges and universities in the State System require that each entering freshman student must have had the ACT examination before the student can complete his enrollment as a freshman in college.

Colleges use the scores on the test in guidance, in admission, and in awarding scholarship aid to their applicants, as well as in placing those accepted in course sections or programs appropriate to their ability. High school advisors, individual students themselves, and their parents use the scores in helping plan for further education and careers.

Five scores are yielded by the ACT test. There are four part-scores indicating general aptitude for success (rather than mastery of specific course content) in English, mathematics, the social studies and the natural sciences. There is also a composite score. The composite score has been found to be as highly predictive of average college freshman grades as any other single index. The part-scores indicate general strengths or weaknesses in each of the four areas while the English and mathematics part-scores may be used for freshman course placement.

Booklets which tell how to interpret and use the scores, and which present normative and technical data, are provided by the program.

# REGENTS' RESOLUTIONS DURING THE 1978-79 FISCAL YEAR

The Oklahoma State Regents for Higher Education transact appropriate business by official resolutions of the board. Other agenda may be subject to motions duly passed. A record of earlier resolutions by the board may be found in previous biennial reports published by the Regents. Resolutions enacted by the Regents during the period July 1, 1978, through June 30, 1979, are listed below:

Resolution No. 1600. August 10, 1978. A resolution allocating and allotting $2,205,000 to the Oklahoma State University College of Veterinary Medicine from an appropriation in Section 9 of House Bill No. 1134 of the First Session of the Thirty-Sixth Oklahoma Legislature out of the Capital Improvements Projects Fund, for partial accomplishment of capital improvements, Project No. 7612.

Resolution No. 1601. August 10, 1978. A resolution allocating and allotting $2,668,193 to the Oklahoma State University College of Veterinary Medicine from an appropriation in Section 1 of Senate Bill No. 633 of the Second Session of the Thirty-Fifth Oklahoma Legislature out of the Capital Improvements Projects Fund, for partial accomplishment of capital improvements, Project No. 7612.

Resolution No. 1602. August 10, 1978. A resolution allocating and allotting $4,000,000 to the Oklahoma State University College of Veterinary Medicine from an appropriation in Section 18 of Senate Bill No. 451 of the Second Session of the Thirty-Sixth Oklahoma Legislature out of the Capital Improvements Projects Fund, for partial accomplishment of capital improvements, Project No. 7612.

Resolution No. 1603. August 21, 1978. A resolution allocating and allotting $43,085.95 to Southeastern Oklahoma State University from an appropriation in Section 16 of Senate Bill No. 451 of the Second Session of the Thirty-Sixth Oklahoma Legislature out of the Capital Improvements Projects Fund, for partial accomplishment of capital improvements, Project No. 7711.

Resolution No. 1604. August 21, 1978. A resolution allocating and allotting $5,000 to Claremore Junior College from an appropriation in Section 16 of Senate Bill No. 451 of the Second Session of the Thirty-Sixth Oklahoma Legislature out of the Capital Improvements Projects Fund, for partial accomplishment of capital improvements, Project No. 7812.

Resolution No. 1605. August 25, 1978. A resolution allocating and allotting $175,993.37 to Cameron University from an appropriation in Section 9 of House Bill No. 1134 of the First Session of the Thirty-Sixth Oklahoma Legislature out of the Capital Improvements Projects Fund, for partial accomplishment of capital improvements, Project No. 7534.

Resolution No. 1606. September 6, 1978. A resolution allocating and allotting $10,798 to Southeastern Oklahoma State University from an appropriation in Section 16 of Senate Bill No. 451 of the Second Session of the Thirty-Sixth Oklahoma Legislature out of the Capital Improvements Projects Fund, for partial accomplishment of capital improvements, Project No. 7711.

Resolution No. 1607. September 18, 1978. A resolution allocating $100,000 to the University of Oklahoma pursuant to Title 70, O.S., 1971, Sections 3210 and 3903; and pursuant to the provisions of Section 12 of Senate Bill No. 451 of the Second Session oftheThirty-Sixth Oklahoma Legislature for support of the Oklahoma Archeological Survey for the fiscal year ending June 30, 1979.

Resolution No. 1608. September 18, 1978. A resolution allocating $25,000 to the University of Oklahoma Health Sciences Center pursuant to Title 70, O.S., 1971, Sections 3210 and 3903; and pursuant to the provisions of Section 13 of Senate Bill No. 451 of the Second Session of the Thirty-Sixth Oklahoma Legislature for support of the Chemical Tests for Alcoholic Influence program for the fiscal year ending June 30, 1979.

Resolution No. 1609. September 18, 1978. A resolution allocating $20,000 to the University of Oklahoma Law Center pursuant to Title 70, O.S., 1971, Sections 3206, 3210, and 3903, from anticipated income to the institution's Revolving Fund for support of the Educational and General Operating Budget for the fiscal year ending June 30, 1979.

Resolution No. 1610. September 18, 1978. A resolution allocating and allotting $1,440,000 to Tulsa Junior College pursuant to Title 70, O.S., 1971, Sections 3206, 3210, and 3903, from income derived from local ad valorem tax sources on deposit in the institution's Revolving Fund for supplemental support of facility development for technical and occupational programs.

Resolution No. 1611. September 14, 1978. A resolution allocating and allotting $343,000 to Seminole Junior College from an appropriation in Section 16 of Senate Bill No. 451 of the Second Session of the Thirty-Sixth Oklahoma Legislature out of the Capital Improvements Projects Fund, for partial accomplishment of capital improvements, Project No. 7717.

Resolution No. 1612. September 14, 1978. A resolution allocating and allotting $7,926.58 to Langston University from an appropriation in Section 16 of Senate Bill No. 451 of the Second Session of the Thirty-Sixth Oklahoma Legislature out of the Capital Improvements Projects Fund, for partial accomplishment of capital improvements, Project No. 7813.

Resolution No. 1613. September 20, 1978. A resolution allocating and allotting $13,421.93 to Southwestern Oklahoma State University from an appropriation in House Bill No. 1168 of the First Session of the Thirty-Sixth Oklahoma Legislature out of the State of Oklahoma 1968 Building Bond Fund, Series E, for partial accomplishment of capital improvements, Project No. 7814.

Resolution No. 1614. September 20, 1978. A resolution allocating and allotting $.40 to Southwestern Oklahoma State University from an appropriation in House Bill No. 1168 of the First Session of the Thirty-Sixth Oklahoma Legislature out of the State of Oklahoma 1968 Building Bond Fund, Series E, for partial accomplishment of capital improvements, Project No. 7814.

Resolution No. 1615. September 20, 1978. A resolution allocating and allotting $200,077.67 to Southwestern Oklahoma State University from an appropriation in Section 1 of Senate Bill No. 633 of the Second Session of the Thirty-Fifth Oklahoma Legislature out of the Capital Improvements Projects Fund, for partial accomplishment of capital improvements, Project No. 7814.

Resolution No. 1616. September 26, 1978. A resolution allocating and allotting $10,850 to Langston University from an appropriation in Section 16 of Senate Bill No. 451 of the Second Session of the Thirty-Sixth Oklahoma Legislature out of the Capital Improvements Projects Fund, for partial accomplishment of capital improvements, Project No. 7815.

Resolution No. 1617. October 9, 1978. A resolution allocating and allotting $500 to Langston University from an appropriation in Section 16 of Senate Bill No. 451 of the Second Session of the Thirty-Sixth Oklahoma Legislature out of the Capital Improvements Projects Fund, for partial accomplishment of capital improvements, Project No. 7816.

Resolution No. 1618. October 9, 1978. A resolution allocating and allotting $3,000 to Langston University from an appropriation in Section 16 of Senate Bill No. 451 of the Second Session of the Thirty-Sixth Oklahoma Legislature out of the Capital Improvements Projects Fund, for partial accomplishment of capital improvements, Project No. 7817.

Resolution No. 1619. October 10, 1978. A resolution allocating and allotting $600 to Langston University from an appropriation in Section 16 of Senate Bill No. 451 of the Second Session of the Thirty-Sixth Oklahoma Legislature out of the Capital Improvements Projects Fund, for partial accomplishment of capital improvements, Project No. 7818.

Resolution No. 1620. October 10, 1978. A resolution allocating and allotting $2,730 to Langston University from an appropriation in Section 16 of Senate Bill No. 451 of the Second Session of the Thirty-Sixth Oklahoma Legislature out of the Capital Improvements Projects Fund, for partial accomplishment of capital improvements, Project No. 7819.

Resolution No. 1621. October 10, 1978. A resolution allocating and allotting $2,100 to Langston University from an appropriation in Section 16 of Senate Bill No. 451 of the Second Session of the Thirty-Sixth Oklahoma Legislature out of the Capital Improvements Projects Fund, for partial accomplishment of capital improvements, Project No. 7820.

Resolution No. 1622. October 10, 1978. A resolution allocating and allotting $1,000 to Langston University from an appropriation in Section 16 of Senate Bill No. 451 of the Second Session of the Thirty-Sixth Oklahoma Legislature out of the Capital Improvements Projects Fund, for partial accomplishment of capital improvements, Project No. 7821.

Resolution No. 1623. October 10, 1978. A resolution allocating and allotting $2,100 to Langston University from an appropriation in Section 16 of Senate Bill No. 451 of the Second Session of the Thirty-Sixth Oklahoma Legislature out of the Capital Improvements Projects Fund, for partial accomplishment of capital improvements, Project No. 7822.

Resolution No. 1624. October 12, 1978. A resolution allocating and allotting $245,000 to Claremore Junior College from an appropriation in Section 16 of Senate Bill No. 451 of the Second Session of the Thirty-Sixth Oklahoma Legislature out of the Capital Improvements Projects Fund, for partial accomplishment of capital improvements, Project No. 7812.

Resolution No. 1625. October 23, 1978. A resolution allocating $20,000 to the Oklahoma State University Oklahoma City Technical Institute pursuant to Title 70, O.S., 1971, Sections 3206, 3210, and 3903, from anticipated income to the institution's Revolving Fund for support of the Educational and General Operating Budget for the fiscal year ending June 30, 1979.

Resolution No. 1626. October 20, 1978. A resolution allocating and allotting $350,000 to Western Oklahoma State College from an appropriation in Section 16 of Senate Bill No. 451 of the Second Session of the Thirty-Sixth Oklahoma Leislature out of the Capital Improvements Projects Fund, for partial accomplishment of capital improvements, Project No. 7823.

Resolution No. 1627. October 30, 1978. A resolution allocating and allotting $16,834.50 to Southeastern Oklahoma State University from an appropriation in Section 16 of Senate Bill No. 451 of the Second Session of the Thirty-Sixth Oklahoma Legislature out of the Capital Improvements Projects Fund, for partial accomplishment of capital improvements, Project No. 7711.

Resolution No. 1628. November 7, 1978. A resolution allocating and allotting $16,583 to Langston University from an appropriation in Section 16 of Senate Bill No. 451 of the Second Session of the Thirty-Sixth Oklahoma Legislature out of the Capital Improvements Projects Fund, for partial accomplishment of capital improvements, Project No. 7822.

Resolution No. 1629. November 16, 1978. A resolution allocating and allotting $13,137 to Langston University from an appropriation in Section 16 of Senate Bill No. 451 of the Second Session of the Thirty-Sixth Oklahoma Legislature out of the Capital Improvements Projects Fund, for partial accomplishment of capital improvements, Project No. 7824.

Resolution No. 1630. November 16, 1978. A resolution allocating and allotting $51,013 to Langston University from an appropriation in Section 1 of House Bill No. 1134 of the First Session of the Thirty-Sixth Oklahoma Legislature for practical accomplishment of capital improvements, Project No. 7824.

Resolution No. 1631. November 27, 1978. A resolution allocating $65,000 to Carl Albert Junior College pursuant to Title 70, O.S., 1971, Sections 3206, 3210, and 3903, from anticipated income to the institution's Revolving Fund for support of the Educational and General Operating Budget for the fiscal year ending June 30, 1979.

A resolution allocating $25,000 to the University of Oklahoma Health Sciences Center for the purpose of special support in lieu of tuition for the School for the Deaf operated at a laboratory for the Speech and Hearing Clinic during the fiscal year ending June 30, 1980, pursuant to the provisions of Section 1 of House Bill No. 1136 of the First Session of the Thirty-Seventh Oklahoma Legislature.

Resolution No. 1689. June 8, 1979. A resolution allocating $13,750 to Eastern Oklahoma State College for the education of dependent

117

youth and orphans as provided in Article IV, Section 422, of the Oklahoma Higher Education Code, and pursuant to the provisions of Section 2 of House Bill No. 1136 of the First Session of the Thirty-Seventh Oklahoma Legislature for the fiscal year ending June 30, 1980.

Resolution No. 1690. June 8, 1979. A resolution allocating $1,132,651 to accomplish the Oklahoma Higher Education Tuition Aid Act as outlined in Title 70, O.S., 1971, Sections 626.1 through 626.10 pursuant to the provisions of Section 3 of House Bill No. 1136 of the First Session of the Thirty-Seventh Oklahoma Legislature.

Resolution No. 1691. June 8, 1979. A resolution allocating $250,000 to the Optometry Education Contract Program for the fiscal year ending June 30, 1980, pursuant to the provisions of Section 4 of House Bill No. 1136 of the First Session of the Thirty-Seventh Oklahoma Legislature as provided in Title 70, O.S. Supplement, 1973, Section 696.1.

Resolution No. 1692. June 8, 1979. A resolution allocating $70,000 to the Optometry Education Assistance Program pursuant to Title 70, O.S., 1971, Sections 3210 and 3903; and pursuant to the provisions of Section 5 of House Bill No. 1136 of the First Session of the Thirty-Seventh Oklahoma Legislature for the fiscal year ending June 30, 1980.

Resolution No. 1693. June 8, 1979. A resolution allocating $40,000 to the Chiropractic Education Assistance Program pursuant to Title 70, O.S., 1971, Sections 3210 and 3903; and pursuant to the provisions of Section 6 of House Bill No. 1136 of the First Session of the Thirty-Seventh Oklahoma Legislature.

Resolution No. 1694. June 8, 1979. A resolution allocating $200,000 to the University of Oklahoma pursuant to Title 70, O.S., 1971, Sections 3210 and 3903; and pursuant to the provisions of Senate Joint Resolution No. 27 of the First Session of the Thirty-Seventh Oklahoma Legislature for support of The Carl Albert Congressional Research and Studies Center at the University of Oklahoma during the fiscal year beginning July 1, 1979, and ending June 30, 1980.

Resolution No. 1695. June 8, 1979. A resolution allocating $69,526,040 to the institutions and other constituent agencies of The Oklahoma State System of Higher Education pursuant to Title 70, O.S., 1971, Sections 3206, 3210, and 3903 from anticipated income to the institutions' and agencies' Revolving Funds for support of the Educational and General Operating Budgets of the institutions and agencies for the fiscal year ending June 30, 1980.

Resolution No. 1696. June 8, 1979. A resolution allocating $38,014 to the University of Oklahoma Law Center pursuant to Title 70, O.S., 1971, Sections 3206, 3210, and 3903 from anticipated income to the agency's Revolving Fund for support of the Special Enrichment Program of the Education and General Operating Budget for the fiscal year ending June 30, 1980.

Resolution No. 1697. June 8, 1979. A resolution allocating $1,026,300 to institutions of The Oklahoma State System of Higher Education as a result of a contract with the State Board of Vocational and Technical Education for support of the Educational and General Operating Budgets and Technical Education Programs for the fiscal year ending June 30, 1980.

Resolution No. 1698. June 8, 1979. A resolution allocating $472,370 to institutions of The Oklahoma State System of Higher Education as a result of a contract with the State Board of Vocational and Technical Education for support of the Educational and General Operating Budgets and Technical Education Programs for the fiscal year ending June 30, 1980.

Resolution No. 1699. June 8, 1979. A resolution regarding institutional administrators and governing boards when budgeting for allotment of the funds allocated by the State Regents to meet Educational and General needs for operations during the fiscal year 1979-80, set salary and wage increases that are in compliance with the President's guidelines.

Resolution No. 1700. June 8, 1979. A resolution regarding that institutional administrators and governing boards, when budgeting for allotment of the funds allocated by the State Regents, give high priority attention to strengthening the instructional program particularly in the area of instructional equipment, aids, and supplies, de-emphasize the use of graduate assistants for instruction, the needs of the library in both holdings and services to students, and give emphasis to Organized Research in accordance with the institutions assigned function.

Resolution No. 1701. June 8, 1979. A resolution recognizing that new State-Appropriated funds are short of the amount requested by the State Regents to carry out both existing programs and proposed new programs at a quality level and specifying conditions under which institutions may operate during the 1979-80 fiscal year new educational programs approved conditionally by the State Regents in November 1978.

Resolution No. 1702. June 8, 1979. A resolution extending appreciation and expression of gratitude to Governor George Nigh and the leadership and members of the Second Session of the Thirty-Seventh Oklahoma Legislature for the attention given Oklahoma higher education when appropriating funds for the 1979-80 fiscal year.

Resolution No. 1703. June 27, 1979. A resolution expressing intent that all teaching faculty members be proficient in the English language and that non-professorial faculty and graduate assistants receive pre-employment scrutiny and screening the same as that given professorial-rank faculty and requesting a report to the State Regents by January 1, 1980, of steps taken and procedures established to guarantee faculty members' proficiency in use of the English language.

Resolution No. 1704. June 27, 1979. A resolution allocating $5,867,489 to the institutions and other constituent agencies of The Oklahoma State System of Higher Education pursuant to Title 70, O.S., 1971, Sections 3206, 3210, and 3903, from anticipated income to the institutions' and agencies' Revolving Funds for support of the Educational and General Operating Budgets of the institutions and agencies for the fiscal year ending June 30, 1980.

Resolution No. 1705. June 28, 1979. A resolution allocating and allotting $2,840 to Langston University from an appropriation in Section 16 of Senate Bill No. 451 of the Second Session of the Thirty-Sixth Oklahoma Legislature out of the Capital Improvements Projects Fund, for partial accomplishment of capital improvements, Project No. 7911.

Resolution No. 1706. June 28, 1979. A resolution allocating and allotting $60 to Langston University from an appropriation in House Bill No. 1579 of the Second Session of the Thirty-Sixth Oklahoma Legislature out of the Capital Improvements Projects Fund, for partial accomplishment of capital improvements, Project No. 7911.

Resolution No. 1707. June 28, 1979. A resolution allocating and allotting $21,112 to Southeastern Oklahoma State University from an appropriation in House Bill No. 1168 of the First Session of the Thirty-Sixth Oklahoma Legislature out of the State of Oklahoma 1968 Building Bond Fund, Series E, for partial accomplishment of capital improvements, Project No. 7912.

Resolution No. 1708. June 28, 1979. A resolution allocating and allotting $1,807 to Langston University from an approriation in House Bill No. 1168 of the First Session of the Thirty-Sixth Oklahoma Legislature out of the State of Oklahoma 1968 Building Bond Fund, Series E, for partial accomplishment of capital improvements, Project No. 7901.

Resolution No. 1709. June 28, 1979. A resolution allocating and allotting $100,607.58 to the University of Oklahoma Health Sciences Center from an aprropriation in House Bill No. 1168 of the First Session of the Thirty-Sixth Oklahoma Legislature out of the State of Oklahoma 1968 Building Bond Fund, Series E, for partial accomplishment of capital improvements, Projects No. 203, No. 207, No. 211, and No. 213.

*Budgeted expenditures for educational and general activities of a contract or grant-agreement nature unique to the institution with respect either to source of financing or to nature of the research or services undertaken.

# CRITERIA FOR DETERMINING AMOUNTS NEEDED FOR THE EDUCATIONAL AND GENERAL OPERATING BUDGET

The State Regents have changed the procedure for identifying the need for funds at institutions from a budget functional basis to an educational program basis. It is the purpose of the new procedure to relate the need for operating funds directly to educational programs of study offered at the institution. Research and study regarding costs of educational program operation at institutions in the State System and in the region over the past few years permitted the State Regents to move forward in the Fiscal Year 1973-74 on an experimental basis of educational program budgeting for three institutions. For 1974-75 the budget for all 20 state colleges and universities was determined on a program budget basis and this basis was used for the 25 colleges and universities in the State System for 1975-76, 1976-77, 1977-78, 1978-79, and continued for 1979-80. Guiding principles and procedures involved in this method are explained below.

## GUIDING PRINCIPLES:

1. Oklahoma should support the educational programs of institutions in the State System at such level that will provide high-quality educational performance.
2. Each institution in the State System should carry out three broad areas of educational program responsibility: (a) instruction, (b) research, and (c) public service.
3. The budget needs of each institution should be determined on the basis of educational program costs including the three categories above projected for the budget year.
4. The instructional program costs should include: (a) resident instruction, (b) organized activities related to instruction, (c) library, (d) general administration, (e) general expense, and (f) operation and maintenance of the physical plant. Budget needs for organized research and extension and public service should be computed separately from instructional costs.
5. Primary factors that should be recognized in determining the instructional part of the budget needs should include: (a) type of institution, (b) instructional program costs by level, and (c) full-time-equivalent enrollment by level for the full fiscal year.
6. Operating experience of institutions in Oklahoma and institutions in the 10-state region including (a) ratios of students to faculty by level, (b) average salaries of full-time faculty by type of institution, and (c) total educational and general budget student per capita expenditure, should be recognized as influence factors when establishing instructional program costs. For the two comprehensive universities, the standard of reference should be the leading state universities in the region, including specifically the universities in the Big Eight Conference in which our two comprehensive universities are members.

7. Full-time-equivalent enrollment data should be based on the full fiscal year (summer, fall, and spring terms) with a factor of 30 student credit hours used to compute undergraduate enrollment and a factor of 24 student credit hours for graduate enrollment.
8. The needs for college-level trained manpower should be taken into consideration in determining priorities for funding at institutions.
9. A realistic estimate of revolving fund income should be made and applied toward meeting the institutional budget needs consistent with state law.

## PROCEDURES—25 COLLEGES AND UNIVERSITIES

The objective is to identify the cost of operating educational programs at institutions. To accomplish this, the instructional programs to be offered must be identified, the number of students by level to be enrolled in each program must be projected, and the cost per student by level must be calculated. Given these data, the cost for each instructional program is computed, and these costs are aggregated. An amount for research and an amount for public service is then determined, and these amounts are then added to the instructional cost. The sum of the costs for instruction, research and public service becomes the total educational and general budget of an institution. From this total the amount of estimated revolving fund income for the budget year is subtracted, and the difference is the amount of state-appropriated funds required to fund the institution's budget.

These procedures were followed in accomplishing the objective:

1. The instructional programs operating at each institution in the previous year are identified. Those programs not expected to operate in the budget year are deleted and those new programs expected to operate in the budget year are added.
2. The course composition of each of the instructional programs to be offered at an institution is then identified.
3. The cost of operating the instructional programs so identified by level in the budget year is next projected.
4. The number of full-time-equivalent students expected to enroll by level in the instructional programs during the full fiscal year for which the budget need is being determined is then projected.
5. The next step is to identify the cost of operating each instructional program for each student by level in the budget year, then multiply these cost units by the number of FTE students projected by level for the various programs that will operate in the budget year.
6. The cost of operating each instructional program is then computed and these are added to get the total cost of all instructional programs at the institution.

7. The amount of funds to be added to the budget for research is then determined. Basic functions of institutions will, of course, influence the determination of these amounts. Institutions that accomplish significant research must be provided funds accordingly. All institutions carry on some type of institutional research and study of programming and thus must be provided an allowance for this function of the budget.

8. Extension and public service is the third category of the educational program budget. Again, institutions' functional assignments will influence the degree to which they participate in extension programs and/or public service programs. An appropriate amount for this program is accordingly determined.

9. The final step is to add the amounts determined for (a) instructional programs, (b) research, and (c) extension and public service. This becomes the total amount of budget needs of the institution for the educational programs to be operated.

## PROCEDURES—OSTEOPATHIC MEDICAL COLLEGE

*The Oklahoma College of Osteopathic Medicine and Surgery:* The budget for this new institution is determined on the basis of needs to operate and establish courses and other operational requirements as the institution continues to develop and accept its sixth class of students. Instructional needs are computed to provide for the increased student enrollment over 1978-79 and adjusted for price increases. Requirements for General Administration, General Expense, Organized Research, Continuing Education, Library and Physical Plant Maintenance and Operation are based on 1978-79 budgeted amounts and adjusted for price increases. When computed, the amounts for all items are added to get the total budget requirement for the year. The amount estimated to be collected during the year in revolving funds is subtracted from the total budget and the balance is the amount that is requested to be appropriated by the Legislature.

## PROCEDURES—8 OTHER CONSTITUENT AGENCIES

*University of Oklahoma Health Sciences Center:* For the year 1979-80 a programmatic approach to the determination of educational and general budget needs was used. This approach identified six instructional programs: College of Medicine; College of Dentistry; College of Nursing; College of Health; College of Pharmacy; and Graduate College of Medical and Dental Science. Other budget functions include: Library; Continuing Education; Organized Research; General Administration; General Expense; and Physical Plant Maintenance and Operation. The budget for each division is calculated as stated below.

*College of Medicine:* Project full-year FTE student enrollment by student classification. Allow 0.4 FTE student for each resident or physician associate. Allow one faculty position for each 4.6 FTE students. Multiply the number of FTE faculty positions by $34,700 (average full-year salary for 1979-80) to determine the amount needed for faculty salaries. Allow six other professional FTE positions at an average full-year salary for 1979-80 of $37,300 to determine salaries needed for these positions. Allow 110.6 other support personnel FTE positions (at the rate of 0.6 FTE positions per instructional faculty position) at an average full-year salary for 1979-80 of $9,700 to determine salaries needed for these positions. To the sum of all salaries, add 10.0% for staff benefits. Add 12.0% of total salaries and staff benefits for other expenses for the instructional program. The total of salaries and wages and other expenses becomes the total budget needs for the instructional program.

*College of Dentistry:* Allow 31 FTE dental faculty positions plus one position for each 4.6 projected FTE dental students above 48. Multiply the number of FTE dental faculty positions by $31,900 (average full-year salary for 1979-80) to determine the total amount needed for dental faculty salaries. Allow one FTE dental hygiene faculty position for each 12 projected FTE dental hygiene students. Multiply the number of FTE dental hygiene faculty positions by $20,300 (average full-year salary for 1979-80) to determine the total amount needed for dental hygiene faculty salaries. Allow three other professional FTE positions at an average full-year salary for 1979-80 of $37,300 to determine salaries needed for these positions. Allow 86.5 other support personnel FTE positions (at the rate of 1.0 per dental faculty and hygiene faculty position) at an average full-year salary for 1979-80 of $9,700 to determine salaries needed for these positions. To the sum of all salaries, add 10.0% for staff benefits. Add 12.0% of total salaries and staff benefits for other expenses of the instructional program. The total of salaries and wages and other expenses becomes the total budget needs for the instructional program.

*College of Nursing:* Project full-year FTE student enrollment by level. Allow one faculty position for each eight undergraduate FTE students and one faculty position for each five graduate FTE students. Multiply the number of FTE faculty positions by $22,900 (average full-year salary for 1979-80) to determine the amount needed for faculty salaries. Allow three other professional FTE positions at an average full-year salary for 1979-80 of $37,300 to determine salaries needed for these positions. Allow 29.6 other support personnel FTE positions (at the rate of 0.5 FTE positions per instructional faculty position) at an average full-year salary for 1979-80 of $9,700 to determine salaries needed for these positions. To the sum of all salaries, add 10.0% for staff benefits. Add 12.0%

of total salaries and staff benefits for other expenses of the instructional program. The total of salaries and wages and other expenses becomes the total budget needs for the instructional program.

*College of Health:* Project full-year FTE student enrollment by level. Allow one faculty position for each 9.12 FTE students. Multiply the number of FTE faculty positions by $24,400 (average full-year salary for 1979-80) to determine the amount needed for faculty salaries. Allow three other professional FTE positions at an average full-year salary for 1979-80 of $37,300 to determine salaries needed for these positions. Allow 26.9 other support personnel FTE positions (at the rate of 0.46 FTE positions per instructional faculty position) at an average full-year salary for 1979-80 of $9,700 to determine salaries needed for these positions. To the sum of all salaries, add 10.0% for staff benefits. Add 12.0% of total salaries and staff benefits for other expenses of the instructional program. The total of salaries and wages and other expenses becomes the total budget needs for the instructional program.

*College of Pharmacy:* Project full-year FTE student enrollment by level. Allow one faculty position for each 20 undergraduate FTE students and one faculty position for each 12 graduate FTE students. Multiply the number of FTE faculty positions by $24,600 (average full-year salary for 1979-80) to determine the amount needed for faculty salaries. Allow two other professional FTE positions at an average full-year salary for 1979-80 of $37,300. Allow four other support personnel FTE positions at an average full-year salary for 1979-80 of $9,700 to determine salaries needed for these positions. To the sum of all salaries, add 10.0% for staff benefits. Add 12.0% of total salaries and staff benefits for other expenses of the instructional program. The total of salaries and other expenses becomes the budget needs for the instructional program.

*Graduate College of Medical and Dental Science:* Project full-year full-time student enrollment. Allow one faculty position for each eight students. Multiply the number of FTE faculty positions by $30,800 (average full-year salary for 1979-80) to determine the amount needed for faculty salaries. Allow three other professional FTE positions at an average full-year salary for 1979-80 of $37,300 to determine salaries needed for these positions. Allow 4.5 other support personnel FTE positions (at the rate of 0.4 FTE positions per instructional faculty position) at an average full-year salary for 1979-80 of $9,700 to determine salaries needed for these positions. To the sum of all salaries add 10.0% for staff benefits. Add 12.0% of total salaries and staff benefits for other expenses of the instructional program. The total of salaries and wages and other expenses becomes the total budget needs for the instructional program.

*Library:* Allow ten professional personnel at an average full-year salary for 1979-80 of $18,100 to determine salaries needed for professional personnel. Allow 15.0 support personnel FTE positions at an average full-year salary of $9,700 to determine salaries for support personnel. To the sum of all salaries, add 10.0% for staff benefits. Add 12.0% of total salaries and staff benefits for other expenses. Add 61.5% of total salaries, staff benefits and other expenses for books, periodicals, library binding and printing, and other direct Library expense. The total becomes the budget needs for Library.

*General Administration:* Project the amount for 1979-80 based on the agency's 1978-79 budget for this function, adjusted 7.0% for price increases.

*General Expense:* Project the amount for 1979-80 based on the agency's 1978-79 budget for this function, adjusted 7.0% for price increases.

*Continuing Education:* Project the amount for 1979-80 based on the agency's 1978-79 budget for this function, with an allowance for a 7.0% increase during 1979-80.

*Organized Research:* Project the amount for 1979-80 based on the agency's 1978-79 budget for this function, with an allowance for a 7.0% increase during 1979-80.

*Physical Plant Maintenance and Operation:* Project the amount for 1979-80 based on the budgeted amount for 1978-79, adjusted 7.0% for price increases.

*University of Oklahoma Law Center:* The budget for this agency is calculated on the basis of proposed programs of activities for the budget year 1979-80. For the budget year 1979-80, ten programs are identified. For the instructional program, project full-year full-time student enrollment. Allow one faculty position for each 20 FTE students enrollment. Multiply the total number of FTE faculty positions by $34,000 (average 9/10 month salary for 1979-80) to determine the amount needed for faculty salaries. Allow for support personnel services, equipment, supplies, and materials as allowed in 1978-79 and adjusted for enrollment and price increases. Allow the same positions as allowed in 1978-79 and the amounts for other objects of expenditure as allowed in 1978-79 and adjusted for price increases. Allow $10,000 for the Experimental Admissions Program. When computed, the amounts for all primary programs are added to get the requirements for the year. To this amount is added the student special enrichment program estimated at a cost equal to the special law school student fee ($2.00 per student-credit-hour x 19,009 SCH). The amount estimated to be collected during the year in revolving funds is subtracted from the total primary budget and the balance is the amount that is requested to be appropriated by the Legislature.

*Oklahoma Geological Survey:* The total budget for this agency is calculated on the basis of proposed programs of activities for the budget year 1979-80. For the budget year 1979-80, ten programs are identified. The amounts for all programs are added to get the total budget requirement for the year. The amount estimated to be collected during the year in revolving funds is subtracted from the total budget and the balance is the amount that is requested to be appropriated by the Legislature.

*OSU College of Veterinary Medicine:* Project full-year FTE student enrollment. Allow one faculty position for each 5.3 FTE students. Multiply the FTE faculty positions by $30,000 (average full-year salary for 1979-80) to determine the total amount needed for faculty salaries. Add to this, 33% for other instructional expenses, and the total represents the amount allowed for the function of instruction. This figure becomes the budget base and the following percentages are applied to the budget base for the other functions of the budget: General Administration, 6%; General Expense, 5%; Teaching Hospital, 30%; Extension and Public Service, 5%; Organized Research, 10%; Library, 6%; and Physical Plant, 15%. When computed, the amounts for all budget functions are added to get the total budget requirement for the year. The amount estimated to be collected during the year in revolving funds is subtracted from the total budget and the balance is the amount that is requested to be appropriated by the Legislature.

*OSU Agricultural Experiment Station:* The budget for this agency is calculated as follows: Allow 123 FTE professional positions. Multiply the total number of FTE professional positions by $27,800 (average full-year salary for 1979-80) to determine the total amount needed for professional salaries. This figure becomes the budget base and the following percentages are applied to the budget base for other functions of the budget: Administration and General Expense, 18%; Supporting Personnel, 75%; and Supplies and Equipment, 80%. When computed, the amounts for all functions of the budget are added to get the total budget requirements for the year. The amount estimated to be collected during the year in revolving funds is subtracted from the total budget and the balance is the amount that is requested to be appropriated by the Legislature.

*OSU Agricultural Extension Division:* The budget for this agency is calculated as follows: Allow 264 FTE professional field positions. Multiply the number of FTE professional field positions by $18,700 (average full-year salary for 1979-80) to determine the total amount needed for professional field salaries. Add to this, 40% for other field service expense, and the total represents the budget base. The following percentages are applied to the budget base for the other functions of the budget: Administration and General Expense, 14%; Supporting State Staff, 47%. When computed, the amounts for all functions of the budget are added to get the total budget requirements for the year. The amount estimated to be collected during the year in revolving funds is subtracted from the total budget and the balance is the amount that is requested to be appropriated by the Legislature.

*OSU School of Technical Training:* The budget for this agency is calculated as follows: Allow one FTE faculty position for each 12 FTE enrollment. Mutiply the number of FTE faculty positions by $17,800 (average full-year salary for 1979-80) to determine the total amount needed for teaching salaries. Add to this, 35% for other instructional expense, and the total represents the amount allowed for the function of instruction. This figure becomes the budget base and the following percentages are applied to the budget base for the other functions of the budget: General Administration, 7%; General Expense, 7%; Extension and Public Service, 2%; Library, 5%; and Physical Plant, 17%. When computed, the amounts for the budget functions are added to get the total budget requirement for the year. The amount estimated to be collected during the year in revolving funds is subtracted from the total budget and the balance is the amount that is requested to be appropriated by the Legislature.

*OSU Oklahoma City Technical Institute:* The budget for this agency is calculated as follows: Allow one FTE faculty position for each 12 FTE enrollment in technical programs. Allow one FTE faculty position for each 28 FTE enrollment in academic programs. Mutiply the number of FTE faculty positions by $17,800 (average 9/10 month salary for 1979-80) to determine the total amount needed for faculty salaries. Add to this, 35% for other instructional expense, and the total represents the amount allowed for the function of instruction. This figure becomes the budget base and the following percentages are applied to the budget base for the other functions of the budget: General Administration, 9%; General Expense, 8%; Library, 10%; and Physical Plant, 17%. When computed, the amounts for all functions of the budget are added to get the total budget requirement for the year. The amount estimated to be collected during the year in revolving funds is subtracted from the total budget and the balance is the amount that is requested to be appropriated by the Legislature.

## ESTIMATING INCOME

An estimate is made of the amount of income expected to be collected at each institution and agency from student fees, from sales and services, and miscellaneous sources; and the total of this is subtracted from the total institutional budget requirement. The difference then becomes the amount requested for appropriation by the Legislature.

"State-Appropriated Funds" are those funds appropriated by the Legislature to the State Regents to be allocated to constituent institutions and agencies. "Revolving Funds" are those funds which the institutions receive from the student fees, sales and services of educational departments, the Federal government in some instances, and from other miscellaneous sources. The amount of "Revolving Funds" income is estimated for each institution after taking into consideration its fee schedule, the function of the institution and possible charges to be made by the institution for the different services rendered, and the past experience of the institution as to funds actually received from the various sources.

## STATE REGENTS' NO. 220 LOAN FUND

Title 70, O.S. 1971 Section 3211, provides for a loan fund in the amount of $200,000.00 to be used by the Regents for making loans to institutions for certain purposes. The fund was originally established by the Legislature in 1943 in House Bill 403.

The loan fund has served a very useful purpose in allowing institutions to meet many needs on a current basis which otherwise might have taken several years to accomplish if the loan fund had not been available. The fund turned over many times since its establishment. In fact, over one million dollars has been loaned to the various institutions over the past three decades.

The status of the loan funds as of June 30, 1979 was as follows:

| | | |
|---|---|---|
| Total Amount of Loan Fund | | $200,000.00 |
| Cash on Hand 7-1-78 | | 130,000.00 |
| Loans Outstanding 7-1-78 | | |
| East Central Oklahoma State University | | 70,000.00 |
| Loans Made 7-1-78 to 6-30-79 | | |
| Northeastern Oklahoma State University | $55,000.00 | |
| Langston University | 25,000.00 | 80,000.00 |
| Repayment Received 7-1-78 to 6-30-79 | | |
| East Central Oklahoma State University | $45,000.00 | |
| Langston University | 25,000.00 | 70,000.00 |
| Loans Outstanding 6-30-79 | | |
| East Central Oklahoma State University | $25,000.00 | |
| Northeastern Oklahoma State University | 55,000.00 | 80,000.00 |
| Cash on Hand 6-30-79 | | $120,000.00 |

## CAPITAL IMPROVEMENTS

In the fall of 1963, the State Regents conducted an extensive survey of the physical facilities on each campus in The Oklahoma State System of Higher Education. This survey provided the basis for a projection of the capital outlay funds needed over the ten-year period 1965-1975.

For funding purposes this ten-year program was divided into two phases. Funds provided by the 1965 Oklahoma Building Bond Issue, together with available federal matching funds, were committed to accomplish the needs identified for the first phase (1965-70) of the ten-year program.

Approved projects with total development costs of $67,508,695 for capital improvement projects funded with 1965 Oklahoma Building Bond Funds were identified as of June 30, 1979. State bond funds have been combined with federal funds and other funds to comprise the total. A program report as of June 30, 1979, is presented in the following table.

# TOTAL DEVELOPMENT COST BY INSTITUTION AND SOURCE OF FUNDS PROJECTS FUNDED FROM 1965

## OKLAHOMA BUILDING BOND FUNDS

| Institution | Total Development Cost of Approved Projects | 1965 State Bond Funds | Federal Funds | Other Funds* |
|---|---|---|---|---|
| OU | $16,369,633 | $ 7,942,171 | $ 3,708,667 | $ 4,718,795 |

## 1968 OKLAHOMA BUILDING BOND ISSUE

In February, 1968, the State Regents published a research report updating the capital improvements needs of institutions in The Oklahoma State System of Higher Education through 1975. This document set forth the need for approximately 1,500,000 square feet of assignable space for academic facilities.

A summary of the funds required to accomplish the needs as documented in this report is contained in the following tables.

### SUMMARY OF FUNDS NEEDED FOR CAPITAL IMPROVEMENTS, THE OKLAHOMA STATE SYSTEM OF HIGHER EDUCATION[a] 1967-1975

| Item | Total | State | Federal & Other |
|---|---|---|---|
| New Construction | $54,800,000 | $36,500,000 | $18,300,000 |
| Non-Structural | 13,700,000 | 10,000,000 | 3,700,000 |
| Air-Conditioning | 7,500,000 | 5,000,000 | 2,500,000 |
| Special Research Facilities | 3,000,000 | 1,000,000 | 2,000,000 |
| Technical Institutes | 2,000,000 | 1,000,000 | 1,000,000 |
| Contingency | 1,500,000 | 1,000,000 | 500,000 |
| TOTAL | $82,500,000 | $54,500,000 | $28,000,000 |

[a] Excludes College of Medicine and College of Nursing Located at Oklahoma City.

Approval by the people of Oklahoma on December 10, 1968, of State Question 463 provided $42,250,000 for capital improvements projects in Oklahoma higher education. These funds together with federal funds expected to be available to Oklahoma should have made possible the accomplishment of the first three years of the Phase Two program. Immediately following the approval of State Question 463 however, the Federal Government started reducing drastically the appropriations for the construction of academic facilities. Since the state bond funds were expected to be matched with federal funds, only a few projects were able to be started with the small amount of available federal funds. The remaining projects were held over awaiting federal matching funds.

### University of Oklahoma Health Sciences Center

In June of 1965, the State Regents completed a comprehensive study of medical education needs in Oklahoma. That study, made in connection with the Self-Study of Higher Education in Oklahoma, set forth a series of recommendations for meeting the state's health education requirements. Recommendation Five, directed to the administration and governing board of the Health Sciences Center, called for the development of a complete "master plan for long-range campus development as quickly as possible." The Health Sciences Center was asked to redefine its mission in terms of the state's present and future medical manpower requirements, identify land needs, provide for the functional location of new space requirements, and establish a plan of priorities for construction.

Funds available from the 1961 and 1963 Bond Issues in the amount of $8,000,000 together with federal matching funds permitted the early construction of two major elements of the long-range plan—(1) University Hospital, and (2) Basic Sciences Medical Education Building.

In January, 1967, the State Regents approved a proposed ten-year fiscal plan for the redevelopment of the Health Sciences Center. Phases One and Two of this plan as shown in the following table were included in State Question 463, approved by the people on December 10, 1968. This bond issue provided $26,870,000 in state funds, making possible a total program of expansion at the Health Sciences Center of $55,450,000.

### TEN-YEAR FISCAL PLAN FOR THE REDEVELOPMENT OF THE HEALTH SCIENCES CENTER

| Phases | Period of Construction | Estimated Total Cost | Source of Funds Federal | State | Other |
|---|---|---|---|---|---|
| Phase 1. | 1967-1972 | $31,900,000 | $15,270,000 | $14,380,000 | $ 2,250,000 |
| Phase 2. | 1969-1974 | 23,550,000 | 11,060,000 | 12,490,000 | None |
| Phase 3. | 1972-1976 | 25,500,000 | 10,600,000 | 13,400,000 | 1,500,000 |
| TOTAL | | $80,950,000 | $36,930,000 | $40,270,000 | $ 3,750,000 |

### The Revised Phase II Program

In November of 1972, the State Regents published a report on academic facilities utilization entitled *Utilization of Academic Space: Colleges and Universities in The Oklahoma State System of Higher Education—Fall Semester, 1971.* The report indicated a lack of need for additional new construction at all campuses in the State System. This report together with new enrollment projections showing a leveling of enrollments clearly indicated a new far better utilization of existing facilities instead of new construction.

The 1973 Oklahoma Legislature subsequently passed Senate Concurrent Resolution No. 8 which released the federal matching fund requirement and directed the 1968 bond funds to be expended for renovation, modernization, and equipping the existing academic buildings. The institutions began preparing revised campus master plans according to the intent of the resolution and consistent with guidelines and procedures adopted by the State Regents.

As of June 30, 1974, the Oklahoma Legislature has vitalized and issued bonds for a total of $44,500,000 ($23,500,000 of the $42,250,000 authorized for regular higher education institutions and $26,870,000 of the $26,870,000 authorized for the Oklahoma University Medical

Center). Through the period ending June 30, 1979, projects for capital improvements in the State System funded from the 1968 Bond Issue have been completed or started as shown in the following table.

## TOTAL DEVELOPMENT COST BY INSTITUTION AND SOURCE OF FUNDS PROJECTS FUNDED FROM 1968 OKLAHOMA BUILDING BOND FUNDS

| Institution | Total Development Cost of Approved Projects | 1968 State Bond Funds | Federal Funds | Other Funds |

## STUDENT FEES

Title 70, O.S. Supp. 1977, Sections 3218, 3219, and 3220 authorizes the Oklahoma State Regents for Higher Education to fix student fees in The Oklahoma State System of Higher Education within limits prescribed by the Legislature.

State educational institutions may be authorized by the State Regents to contract for, charge, collect, receive and use, any and all fees, tuition, charges, grants, and allowances available through the United States Veterans Administration, or any other federal agency, for the education and training of veterans.

The State Regents are also authorized to establish a system of student fee waiver scholarships for each institution in The Oklahoma State System of Higher Education to be administered by the Board of Regents of the institution.

In order that all concerned—students, parents, institutional officers, Boards of Regents, members of the Legislature and other interested individuals—may have the information available, a Schedule of Fees authorized by the State Regents at each institution in the State System effective Fall Semester, 1978, as amended, has been printed and is available at the office of the State Regents.

## REGENT POSITIONS

Article XIII-A of the Constitution, adopted by the people 3-11-41; Title 70, Sections 1971-1991, Oklahoma Statutes 1961; vitalizing act signed by the Governor 5-18-41. Oklahoma Higher Education Code, Article II, Section 202.

To comply with the law and to record sequence for each of the nine positions, each nine-year term ends on May 16 of a given year.

### Position No. 1

Originally (5-16-41) for SEVEN years—1941-1948.
Thereafter a 9-year term; e.g., 1948-1957-1966-1975-1984.
Frank Buttram appointed 5-16-41, reappointed 5-16-48; Bob Allee 5-16-57; Exall English 6-17-66; James L. Mills 8-7-75; term expires 5-16-84.

### Position No. 2

Originally (5-16-41) for EIGHT years—1941-1949.
Thereafter a 9-year term; e.g., 1949-1958-1967-1976-1985.
John Rogers appointed 5-16-41, reappointed 5-16-49, reappointed 5-16-58; G. Ellis Gable 4-21-59, reappointed 5-16-67; Eugene L. Swearingen 7-2-76; term expires 5-16-85.

### Position No. 3

Originally (5-16-41) for NINE years—1941-1950.
Thereafter a 9-year term; e.g., 1950-1959-1968-1977-1986.
John H. Kane appointed 5-16-41; S. A. Bryant 12-14-50; J. H. Johnston 8-6-51; John J. Vater, Jr. 12-14-59, reappointed 5-16-68; Bert H. Mackie 6-27-77; term expires 5-16-86.

### Position No. 4

Originally (5-16-41) for ONE year—1941-1942.
Thereafter a 9-year term; e.g., 1942-1951-1960-1969-1978.
Clee O. Doggett appointed 5-16-41, reappointed 5-16-42, reappointed 5-16-51; R. L. Crowder, Jr. 5-16-60; Goodwin Broaddus, Jr. 9-9-68, reappointed 5-16-69; Scott E. Orbison 3-17-75, reappointed 4-20-78; term expires 5-16-87.

### Position No. 5

Originally (5-16-41) for TWO years—1941-1943.
Thereafter a 9-year term; e.g., 1943-1952-1961-1970-1979.
J. E. Peery appointed 5-16-41; Herbert L. Branan 8-3-42; W. D. Little 5-16-43, reappointed 5-16-52; Jewell Ditmars 5-16-61; Joe F. Gary 7-2-71, reappointed 4-23-79; term expires 5-16-88.

**Position No. 6**

Originally (5-16-41) for THREE years—1941-1944.
Thereafter a 9-year term; e.g., 1944-1953-1962-1971-1980.
W. E. Harvey appointed 5-16-41; B. D. Eddie 5-20-44; Guy H. James 7-17-44; S. A. Bryant 8-24-53; Kenneth T. Gallagher 2-10-61; Scott E. Orbison 7-16-62; William T. Payne 2-13-63; James B. Lowe 9-8-71; Rubye M. Hall 3-25-74; term expires 5-16-80.

**Position No. 7**

Originally (5-16-41) for FOUR years—1941-1945.
Thereafter a 9-year term; e.g., 1945-1954-1963-1972-1981.
Dial Currin appointed 5-16-41, reappointed 5-16-45; Claude S. Chambers 7-16-54; N. B. Musselman 7-26-61, reappointed 5-16-63; Donald S. Kennedy 5-7-64; John H. Patten 3-28-72; term expires 5-16-81.

**Position No. 8**

Originally (5-16-41) for FIVE years—1941-1946.
Thereafter a 9-year term; e.g., 1946-1955-1964-1973-1982.
Ben F. Saye appointed 5-16-41; M. L. Dudley 6-10-46; Guy M. Harris 4-17-47, reappointed 5-16-55; Clyde A. Wheeler, Jr. 12-8-64; Joseph W. Morris 2-1-70; Russell D. Vaught 5-11-73; term expires 5-16-82.

**Position No. 9**

Originally (5-16-41) for SIX years—1941-1947.
Thereafter a 9-year term; e.g., 1947-1956-1965-1974-1983.
Wharton Mathies appointed 5-16-41, reappointed 5-16-47, reappointed 5-16-56; Harry P. Conroy 6-8-65; Bob F. Allee 10-14-74; term expires 5-16-83.

**Chancellor**

Dr. M. A. Nash July 10, 1943—June 30, 1961;
Dr. E. T. Dunlap July 1, 1961—to present.

Position No. 1

Originally (4-9-19) for FIVE years—1919-1924.
Thereafter for a 7-year term.
H. L. Muldrow 1919-23; G. M. Clifton 4-23 to 7-23; Oscar Welch 1923-24; John Rogers 1924-31; Malcolm Rosser, Jr. 1931-38; Lowery Harrell 1938-39; Claude Chambers 1939-45; Harrington Wimberly 3-45 to 10-45; Ned Shepler 1945-52; Joe W. McBride 1952-59; Julian Rothbaum 1959-66; Nancy Davies 1966-73; K. D. Bailey 5-7-73; term expires 3-21-80.

**Position No. 2**

Originally (4-9-19) for SIX years—1919-1925.
Thereafter for a 7-year term.
E. W. Marland 1919-21; Earl T. Miller 1921-23; D. F. Scanlan 4-23 to 7-23; Mont Highley 1923-25; John Carlock 1925-32; Thomas D. Lyons 1932-33; Eugene Kerr 1933-39; E. C. Hopper, Jr. 1939-46; Oscar White 1946-53; W. D. Grisso 1953-60; Mark R. Johnson 1960-67; Huston Huffman 1967-74; Richard A. Bell 3-21-74; term expires 3-21-81.

**Position No. 3**

Originally (4-9-19) for SEVEN years—1919-1926.
Thereafter for a 7-year term.
Samuel W. Hayes 1919-21; I. Frank Roach 1921-23; Mrs. J. N. Schwoerke 1923-26; Addie Lee Lowther 1926-31; William J. Milburn 1931-32; William N. Barry 1932-34; Lloyd Noble 1934-49; Kent Shartel 1949-52; George Short 1952-55; Leonard H. Savage 1955-63; Quintin Little 1963-69; Walter Neustadt, Jr. 1969-76; Charles E. Engleman 3-31-76; term expires 3-21-83.

**Position No. 4**

Originally (4-9-19) for ONE year—1919-1920.
Thereafter for a 7-year term.
Harry Diamond 1919-23; Frank Buttram 1923-31; Raymond Tolbert 1931-33; Eugene Ledbetter 1933-40; John Rogers 1940-41; John M. Craig 1941-43; W. R. Wallace 1943-47; Thomas R. Benedum 1947, reappointed 1948, reappointed 1955; James G. Davidson 1961-68; Jack Santee 1968; Dee A. Replogle, Jr. 3-25-75; term expires 3-21-82.

**Position No. 5**

Originally (4-9-19) for TWO years—1919-1921.
Thereafter for a 7-year term.
C. C. Roberts 1919-21; Frank Craig 1921-23; H. N. Arnold 1923-24; Orell Busby 1924-27; Joe Looney 1927-42; C. O. Hunt 3-42 to 8-42; Earl Deacon 1942-49; Dave Jeff Morgan 1949-56, reappointed 1956; John M. Houchin 1963-70; Vernon M. Lockard 1970-71; Mack M. Braly 9-8-71; Ronald H. White 3-21-77; term expires 3-21-84.

**Position No. 6**

Originally (4-9-19) for THREE years—1919-1922.
Thereafter for a 7-year term.
George L. Bowman 1919-27; W. C. Kite 1927-29; Samuel W. Hayes 1929-30; Breck Moss 1930-31; Claude Hatchett 1931-40; Harrington Wimberly 1940-43; Don Emery 1943-50; Raymond Foster 1950-57; Glenn Northcutt 1957-64; Reuben Sparks 1964; Robert C. Lollar 1970-71; Thomas R. Brett 4-16-71; Dan V. Little 3-15-78; term expires 3-21-85.

**Position No. 7**

Originally (4-9-19) for FOUR years—1919-1923.
Thereafter for a 7-year term.
H. H. Rogers 1919-21; T. L. Fogg 1921-23; C. J. Wrightsman 1923-24; A. A. McDonald 1924-27; W. E. Utterback 1927-29; George L. Bowman 1929-37; Joe W. McBride 1937-51; Quintin Little 1951-58, reappointed 1958; Eph Monroe 1960-65; Horace K. Calvert 1965; Bob G. Mitchell 4-6-72; Julian J. Rothbaum 4-9-79; term expires 3-21-86.

## BOARD OF REGENTS FOR THE OKLAHOMA AGRICULTURAL AND MECHANICAL COLLEGES

Oklahoma State University, Stillwater
  College of Veterinary Medicine, Stillwater
  Agricultural Experiment Station, Stillwater
  Agricultural Extension Division, Stillwater

Position No. 4

Originally (3-31-70) for FOUR years—1970-1974.
Thereafter for a 7-year term.
Al Snipes appointed as a Trustee 3-31-70; Lanny Gardner appointed as a Regent 4-22-74, reappointed 3-20-79; term expires 4-22-85.

Position No. 5

Originally (3-31-70) for FIVE years—1970-1975.
Thereafter for a 7-year term.
Robert Moser appointed as a Trustee 3-31-70; J. R. Daniel 6-26-72; Raymond Cook appointed as a Regent 4-22-74; Thomas J. Carlile 1-31-77; Jeanie Perkins 4-23-79; term expires 4-22-86.

Position No. 6

Originally (3-31-70) for SIX years—1970-1976.
Thereafter for a 7-year term.
Wesley Weldon appointed as a Trustee 3-31-70; Jane Hardin appointed as a Regent 4-22-74; term expires 4-22-80.

Position No. 7

Originally (3-31-70) for SEVEN years—1970-1977.
Thereafter for a 7-year term.
Jack E. Turner appointed as a Trustee 3-31-70; Bob McKillips appointed as a Regent 4-22-74; term expires 4-22-81.

## BOARD OF REGENTS OF TULSA JUNIOR COLLEGE

| | | Term Expires |
|---|---|---|
| T. Oscar Chappelle | Tulsa | 1986 |
| Thad Taylor, Jr. | Tulsa | 1985 |
| Edwynne Krumme | Tulsa | 1984 |
| W. Keith Rapp | Tulsa | 1983 |
| Wayman E. Humphrey | Tulsa | 1982 |
| George E. Norvell | Tulsa | 1981 |
| Anne McWilliams | Broken Arrow | 1980 |

## BOARD POSITIONS

Oklahoma Higher Education Code, Article XIV, Section 1413.

To comply with the law and to record sequence for each of the seven positions, each seven-year term ends on June 30 of a given year.

### Position No. 1

Originally (6-30-69) for ONE year—1969-1970.
Thereafter for a 7-year term.
William P. Francis appointed 6-30-69; Guy Berry, Jr. 10-12-70; Harley Van Cleave 4-13-71; Charles A. Kothe 5-25-73; William J. Cecka, Jr. 6-4-75; Edwynne Krumme 7-13-77; term expires 6-30-84.

### Position No. 2

Originally (6-30-69) for TWO years—1969-1971.
Thereafter for a 7-year term.
W. J. Bovaird appointed 6-30-69; Thad Taylor, Jr. 6-20-72, reappointed 7-26-78; term expires 6-30-85.

### Position No. 3

Originally (6-30-69) for THREE years—1969-1972.
Thereafter for a 7-year term.
T. Oscar Chappelle appointed 6-30-69, reappointed 3-17-75, reappointed 7-3-79; term expires 6-30-86.

### Position No. 4

Originally (6-30-69) for FOUR years—1969-1973.
Thereafter for a 7-year term.
Mrs. James L. Wells appointed 6-30-69; Anne McWilliams 7-19-73; term expires 6-30-80.

Position No. 5

Originally (6-30-69) for FIVE years—1969-1974.
Thereafter for a 7-year term.
George Warde appointed 6-30-69; George E. Norvell 6-4-75; term expires 6-30-81.

Position No. 6

Originally (6-30-69) for SIX years—1969-1975.
Thereafter for a 7-year term.
Wayman E. Humphrey appointed 6-30-69, reappointed 6-4-75; term expires 6-30-82.

Position No. 7

Originally (6-30-69) for SEVEN years—1969-1976.
Thereafter for a 7-year term.
John W. Sublett appointed 6-30-69; W. Keith Rapp 1-3-77; term expires 6-30-83.

## BOARD OF REGENTS OF WESTERN OKLAHOMA STATE COLLEGE

| | | Term Expires |
|---|---|---|
| Emory S. Crow | Hollis | 1986 |
| John P. Gover | Altus | 1985 |
| Johnnie C. Diltz | Altus | 1984 |
| Guy Southall | Altus | 1983 |
| Earl E. Abernathy | Altus | 1982 |
| Berniece Underwood | Willow | 1981 |
| Charles Eckenrode | Frederick | 1980 |

## BOARD POSITIONS

Oklahoma Higher Education Code, Article XIV, Section 1418.

To comply with the law and to record sequence for each of the seven positions, each seven-year term ends on March 24 of a given year.

Position No. 1

Originally (324-71) for ONE year—1971-1972.
Thereafter for a 7-year term.
H. Keith Myers, Jr., appointed 3-24-71, reappointed 9-15-72; Emory S. Crow 4-6-78, reappointed 4-23-79; term expires 3-24-86.

Position No. 2

Originally (3-24-71) for TWO years—1971-1973.
Thereafter for a 7-year term.
Waldo T. Oden appointed 3-24-71; Charles Eckenrode 10-15-76; term expires 3-24-80.

Position No. 3

Originally (3-24-71) for THREE years—1971-1974.
Thereafter for a 7-year term.
Berniece Underwood appointed 6-1-71, reappointed 7-6-75; term expires 3-24-81.

Position No. 4

Originally (3-24-71) for FOUR years—1971-1975.
Thereafter for a 7-year term.
Earl E. Abernathy appointed 3-24-71, reappointed 4-29-75; term expires 3-24-82.

Position No. 5

Originally (3-24-71) for FIVE years—1971-1976.
Thereafter for a 7-year term.
Darill L. Leverett appointed 3-24-71; Guy Southall 12-17-76; term expires 3-24-83.

Position No. 6

Originally (3-24-71) for SIX years—1971-1977.
Thereafter for a 7-year term.
Johnnie C. Diltz appointed 10-13-72, reappointed 5-31-77; term expires 3-24-84.

Position No. 7

Originally (3-24-71) for SEVEN years—1971-1978.
Thereafter for a 7-year term.
John P. Gover appointed 3-24-71, reappointed 3-30-78; term expires 3-24-85.

## OKLAHOMA INSTITUTIONS OF HIGHER EDUCATION

All the generally recognized institutions in Oklahoma, both public and private, offering work at the higher education level are listed below:

### COMPREHENSIVE, REGIONAL, AND SENIOR STATE UNIVERSITIES:

University of Oklahoma, Dr. William S. Banowsky, President, Norman

Oklahoma State University, Dr. L. L. Boger, President, Stillwater

Central State Unievrsity, Dr. Bill J. Lillard, President, Edmond

East Central Oklahoma State University, Dr. Stanley P. Wagner, President, Ada

Northeastern Oklahoma State University, Dr. W. Roger Webb, President, Tahlequah

Northwestern Oklahoma State University, Dr. Joe J. Struckle, President, Alva

Southeastern Oklahoma State University, Dr. Leon Hibbs, President, Durant

Southwestern Oklahoma State University, Dr. Leonard Campbell, President, Weatherford

Cameron University, Dr. Don Owen, President, Lawton

Langston University, Dr. Ernest L. Holloway, President, Langston

Oklahoma Panhandle State University, Dr. Thomas L. Palmer, President, Goodwell

University of Science and Arts of Oklahoma, Dr. Roy Troutt, President, Chickasha

The Oklahoma College of Osteopathic Medicine and Surgery (Professional College), Dr. John Barson, President, Tulsa

### STATE JUNIOR COLLEGES:

Carl Albert Junior College, Dr. Joe E. White, President, Poteau

Claremore Junior College, Dr. Richard H. Mosier, President, Claremore

Connors State College of Agriculture and Applied Science, Dr. Carl O. Westbrook, President, Warner

Eastern Oklahoma State College, Dr. James M. Miller, President, Wilburton

El Reno Junior College, Dr. Bill S. Cole, President, El Reno

Murray State College, Dr. Clyde R. Kindell, President, Tishomingo

Northeastern Oklahoma A&M College, Dr. D. D. Creech, President, Miami

Northern Oklahoma College, Dr. Edwin E. Vineyard, President, Tonkawa

Oscar Rose Junior College, Dr. Joe Packnett, President, Midwest City

Seminole Junior College, Dr. Elmer Tanner, President, Seminole
South Oklahoma City Junior College, Dr. Dale L. Gibson, President, Oklahoma City
Tulsa Junior College, Dr. Alfred M. Philips, President, Tulsa
Western Oklahoma State College, Dr. W. C. Burris, President, Altus

Sayre Junior College (Community Junior College), Harry Patterson, President, Sayre

PRIVATE UNIVERSITIES AND SENIOR COLLEGES:

Bartlesville Wesleyan College, Dr. John M. Snook, President, Bartlesville
Bethany Nazarene College, Dr. John A. Knight, Sr., President, Bethany
Midwest Christian College, Dr. Stanley D. Letcher, Jr., President, Oklahoma City
Oklahoma Baptist University, Dr. E. Eugene Hall, President, Shawnee
Oklahoma Christian College, Dr. J. Terry Johnson, President, Oklahoma City
Oklahoma City University, Dr. Jerald C. Walker, President, Oklahoma City
Oklahoma Missionary Baptist College, Institute & Seminary, Dr. R. T. Perritt, President, Marlow
Oral Roberts University, Dr. Oral Roberts, President, Tulsa
Phillips University, Dr. Joe R. Jones, President, Enid
The University of Tulsa, Dr. J. Paschal Twyman, President, Tulsa

PRIVATE JUNIOR COLLEGES:

Bacone College, Dr. Dean Chavers, President, Muskogee
Hillsdale Free Will Baptist College, Don Elkins, President, Moore
St. Gregory's College, Father Michael Roethler, President, Shawnee
Southwestern College, Dr. Scott T. Muse, Jr., President, Oklahoma City

Spartan School of Aeronautics (Proprietary Junior College), Vernon M. Setterholm, President, Tulsa

# RECORD OF PRESIDENTS OF INSTITUTIONS

## STATE UNIVERSITIES AND COLLEGES

University of Oklahoma, Norman. Presidents: David Ross Boyd, 1892-1908; Arthur Grant Evans, 1908-1911; Julien Charles Monnet, 1911-1912 (Acting); Stratton Duluth Brooks, 1912-1923; James Shannon Buchanan, 1923-1924 (Acting), 1924-1925; William Bennett Bizzell, 1925-1941; Joseph August Brandt, 1941-1943; George Lynn Cross, 1944 (Acting), 1944-1968; John Herbert Hollomon, 1968-1970; Pete Kyle McCarter, 1970-1971 (Acting); Paul F. Sharp, 1971-1978; William S. Banowsky, 1978-.

Oklahoma State University, Stillwater. Presidents: R. J. Barker, 1891-1894; Henry E. Alvord, 1894-1895; Edmund D. Murdaugh, January to June, 1895; George E. Morrow, 1895-1899; Angelo C. Scott, 1899-1908; James Henry Connell, 1908-1914; Lowry L. Lewis, 1914-1915; James W. Cantwell, 1915-1921; James B. Eskridge, 1921-1923; George Wilson, June to July, 1923; Richard Gaines Tyler, August to September, 1923; Bradford Knapp, 1923-1928; Clarence H. McElroy, May to June, 1928; Henry G. Bennett, 1928-1951; Oliver S. Willham, 1952-1966; Robert B. Kamm, 1966-1977; James H. Boggs, February to June, 1977 (Acting); L. L. Boger, 1977-.

Central State University, Edmond. Presidents: Richard Thatcher, 1891-1893; George W. Winans, 1893-1894; E. R. Williams, 1894-1895; E. D. Murdaugh, 1895-1901; F. H. Umholtz, 1901-1906; T. W. Butcher, 1906-1908; James A. McLauchlin, 1908-1911; Charles Evans, 1911-1916; Grant B. Grumbine, 1916-1917; J. W. Graves, 1917-1919; John G. Mitchell, 1919-1931; M. A. Beeson, 1931-1935; John O. Mosley, 1935-1939; Roscoe R. Robinson, 1939-1948; W. Max Chambers, 1949-1960; Garland Godfrey, 1960-1975; Bill J. Lillard, 1975-.

East Central Oklahoma State University, Ada. Presidents: Charles W. Briles, 1909-1916; J. M. Gordon, 1916-1920; A. Linscheid, 1920-1949; C. F. Spencer, 1949-1969; Stanley P. Wagner, 1969-.

Northeastern Oklahoma State University, Tahlequah. Presidents: Albert Sydney Wyly, 1909; D. Frank Redd, 1909-1911; Frank E. Buck, 1911-1912; W. E. Gill, 1912-1914; George W. Gable, 1914-1919; William T. Ford, 1919-1923; Monroe Percy Hammond, 1923-1935; John Monroe Hackler, 1935-1936 (Acting); John Samuel Vaughan, 1936-1951; Louis H. Bally, January to March, 1951 (Acting); Harrell E. Garrison, 1951-1970; Robert E. Collier, 1970-1977; Elwin Fite, 1977-1978 (Acting); W. Roger Webb, 1978-.

Northwestern Oklahoma State University, Alva. Presidents: James F. Ament, 1897-1902; Thomas W. Conway, 1902-1907; Walter L. Ross, 1907-1910; Grant B. Grumbine, 1910-1916; J. W. Graves, 1916-1917; A. S. Faulkner, 1917-1919; J. P. Battenberg, 1919-1928; Sabin C. Percefull, May to August, 1928 (Acting); W. W. Parker, 1928-1933; O. E. Hatcher, 1933-1935; Sabin C. Percefull, 1935-1936 (Acting); E. E. Brown, 1936-1939; Chester O. Newlun, 1939-1943; Sabin C. Percefull, 1943-1955; Luther D. Brown, 1955-1956; J. W. Martin, 1956-1972; R. William Wygle, 1972-1974; Joe J. Struckle, 1975-.

Southeastern Oklahoma State University, Durant. Presidents: Marcus E. Moore, 1909-1911; Edmund D. Murdaugh, 1911-1914; William C. Canterbury, 1914-1915; Andrew S. Faulkner, 1915-1916; T. D. Brooks, 1916-1919; Henry G. Bennett, 1919-1928; Eugene S. Briggs, 1928-1933; Wade H. Shumate, 1933-1935; Kate Galt Zaneis, 1935-1937; W. B. Morrison, June to July, 1937 (Acting); H. Vance Posey, 1937-1939; T. T. Montgomery, 1939-1952; A. E. Shearer, 1952-1967; Leon Hibbs, 1967-.

Southwestern Oklahoma State University, Weatherford. Presidents: James Robert Campbell, 1903-1907; John Fletcher Sharp, 1907-1911; Ulysses J. Giffith, 1911-1915; James B. Eskridge, 1915-1921; Alfred H. Burris, 1921-1923; James Walter Turner, 1923-1927; Ernest Edward Brown, 1927-1932; Charles Walter Richards, 1932-1935; Walter W. Isle, 1935-1939; James B. Boren, 1939-1942; G. S. Sanders, 1942-1945; R. Harold Burton, 1945-1960; Al Harris, 1960-1975; Leonard Campbell, 1975-.

Cameron University, Lawton. Presidents: J. A. Liner, 1909-1912; R. K. Robertson, 1912-1913; E. M. Frost, 1913-1914; R. P. Short, 1914-1915; A. C. Farley, 1915-1920; A. E. Wickizer, 1920-1923; J. G. March, 1923-1927; John L. Coffey, 1927-1932; C. M. Conwill, 1932-1943; C. H. Breedlove, 1943-1947; C. Vernon Howell, 1947-1957; Clarence L. Davis, 1957-1960; Richard Burch, 1960-1969; Don Owen, 1969-.

Langston University, Langston. Presidents: Inman E. Page, 1898-1915; Isaac B. McCutcheon, 1915-1916; John M. Marquess, 1916-1923; I. W. Young, 1923-1927; Z. T. Hubert, 1927-1931; I. W. Young, 1931-1935; J. W. Sanford 1935-1939; G. L. Harrison, 1939-1960; William H. Hale, 1960-1970; William E. Sims, 1970-1974; James Mosley, 1974-1975 (Acting); Thomas E. English, 1975-1977; Ernest L. Holloway, 1977 to April, 1978 (Acting); Samuel J. Tucker, April to December, 1978; Ernest L. Holloway, December, 1978 to October, 1979 (Acting), 1979-.

Oklahoma Panhandle State University, Goodwell. Presidents: S. W. Black, 1909-1915; J. F. Sharp, 1915-1919; George A. Coffey, 1919-1922; A. W. Fanning, 1922-1933; Byron Dacus, 1933-1936; E. L. Morrison, 1936-1944; Marvin McKee, 1944-1968; Freeman McKee, 1968-1971; Thomas L. Palmer, 1971-.

University of Science and Arts of Oklahoma, Chickasha. Presidents: H. B. Abernathy, 1909-1911; J. Alexander Moors, 1911-1912; Jonas Cook, May to July, 1912 (Acting); J. B. Eskridge, 1912-1914; G. W. Austin, 1914-1926; M. A. Nash, 1927-1943; C. Dan Proctor, 1943-1958; Freeman H. Beets, 1958-1961; Kenneth Young, 1961-1962 (Acting); Charles E. Grady, 1962-1966; H. B. Smith, Jr., 1966-1967 (Acting); Robert L. Martin, 1967-1972; Bruce G. Carter, 1972-1975; Roy Troutt, 1975-.

The Oklahoma College of Osteopathic Medicine and Surgery, Tulsa. Presidents: John Barson, 1973-.

Carl Albert Junior College, Poteau. Presidents: Orville Johnson, 1967-1973; Norman McNabb, 1973-1975; James K. Fritze, April to June, 1975 (Acting); Joe E. White, 1975-.

Claremore Junior College, Claremore. Presidents: Col. Stephen Melvel Barrett, 1919-1924; Col. W. S. Bryan, 1924-1925 (Acting); Col. Walter E. Downs, 1925-1940; Col. R. E. Anderson, 1940-1941; Capt. John C. Hamilton, February to July, 1941 (Acting), 1941-1944; Col. W. S. Bryan, July to November, 1944 (Acting); Col. Kenneth S. Perkins, 1944-1948; Col. Homer M. Ledbetter, 1948-1964; Maj. Gen. J. F. Smoller, 1964-1968; Col. John Horne, 1968-1972; Richard H. Mosier, 1972-.

Connors State College of Agriculture and Applied Science, Warner. Presidents: J. A. Liner, 1909-1910; J. S. Murray, 1910-1911; J. V. Faulkner, 1911-1912; W. S. Jackson, 1912-1913; President Rennick, 1913-1914; J. S. Malone, 1915-1917; George A. Coffey, 1917-1919; H. C. King, 1919-1932; Jacob Johnson, 1933-1965; Melvin Self, 1965-1978; Carl O. Westbrook, 1978-.

Eastern Oklahoma State College, Wilburton. Presidents: George E. Ladd, 1908-1913; E. P. Barrett, 1913-1915; J. W. Graves, 1915-1916; Lynn Glover, 1916-1917; (School closed 1917-1919); Mead S. Johnson, 1919-1923; J. K. Walsh, 1923-1924; E. E. Tourtellotte, 1924-1936; Ohland Morton, 1936-1937 (Acting); C. C. Dunlap, 1937-1951; R. B. Mitchell, 1951-1952, (Acting); E. T. Dunlap, 1952-1961; J. N. Baker, 1961-1969; Walter Williams, 1969 (Acting); James M. Miller, 1970-.

El Reno Junior College, El Reno. Presidents: Leslie Roblyer, 1967-1971; Art Harrison, 1971-1975; Bill S. Cole, 1976-.

Murray State College, Tishomingo, Presidents: James A. Wilson, 1908; P. B. H. Shearer, 1908-1909 (Acting), 1909-1910; Hal L. Muldrow, 1910-1914; R. M. McCool, 1914-1930; Otto E. Shaw, 1930-1931; Clive E. Murray, 1931-1961 (military leave 1940-1946 and military leave 1948-1954); M. C. Courtney, 1940-1941 (Acting); A. D. Patton, 1941-1946 (Acting); C. J. Hall, 1948-1951 (Acting); William Parrish, 1951-1954 (Acting); Charles E. Grady, 1961-1962; Freeman McKee, 1962-1967; Clyde R. Kindell, 1967-.

Northeastern Oklahoma A&M College, Miami. Presidents: Walter O. Cralle, 1922-1924; M. R. Floyd, 1924-1931; Lloyd B. Drake, 1931-1933; John E. Holcomb, 1933-1937; Earl E. Emerson, 1937-1938; E. L Smith, 1938-1939; Sabin C. Percefull, 1939-1942; Bruce G. Carter, 1943-1970; D. D. Creech, 1970-.

Northern Oklahoma College, Tonkawa. Presidents: James H. Kelly,1902-1909; John Alley, 1909-1911; Lynn Glover, 1911-1916; W. C. Frency, 1916-1917; (School closed 1917-1919); R. M. Caldwell, 1919-1928; R. R. Robinson, 1928-1939; Loren N. Brown, 1939-1951; George P. Huckaby, 1951-1952; Howard R. Harold, 1952-1953 (Acting); V. R. Easterling, 1953-1965; Edwin E. Vineyard, 1965-.

Oscar Rose Junior College, Midwest City. Presidents: Jacob Johnson, 1968-1972; Joe Leone, 1972-1978; Joe Packnett, 1978-1979 (Acting), 1979-.

Seminole Junior College, Seminole. Presidents: H. B. Mitchell, 1967-1969; Elmer Tanner, 1969-.

South Oklahoma City Junior College, Oklahoma City. Presidents: J. C. Nichols, 1970-1971; John E. Cleek, 1971-1974; Al Taylor, March to April, 1974 (Acting); Hugh Turner, April to August, 1974 (Acting); Al Taylor, August to November, 1974 (Acting); Dale L. Gibson, 1974-.

Tulsa Junior College, Tulsa. Presidents: Alfred M. Philips, 1969-.

Western Oklahoma State College, Altus. Presidents: Cecil Chesser, 1970-1971 (Acting); W. C. Burris, 1971-.

*Sayre Junior College, Sayre. Presidents: Harry Patterson, 1967-.
